CONTENTS

Circuit Board Hardware 1-36

Snap-in, screw-mount & adhesive supports; spacers & stand-offs

Card Guides & Pullers 37-50

Vertical, horizontal & tensioning PC board rack card guides; pullers & ejectors

Rivets, Screws, Washers & Nuts 51-66

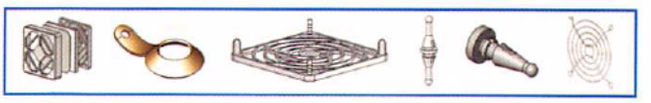

Snap-in, push, blind hole & unscrewing rivets; plastic screws, nuts & washers

Motion Control, Bumpers & Feet 67-82

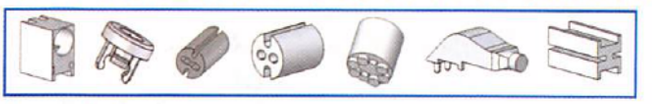

Motion & vibration dampers; bumpers & feet

Fan Accessories 83-90

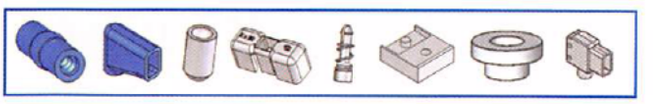

Screens, guards, filters, and other accessories for fans

LED Hardware 91-96

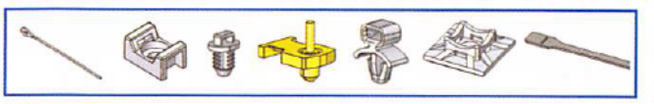

LED mounting and protection hardware; light pipes

Insulators 97-106

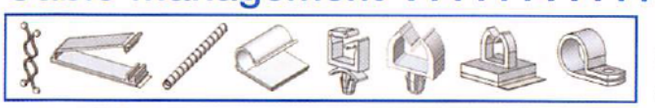

Fuse mounting hardware, transistor insulators, splashproof insulators

Cable Ties & Accessories 107-130

Standard, push mount, screw mount, releasable, hook & loop cable ties; tie holders

Cable Management 131-184

Clips, clamps, wire routing accessories; wraps & ducts

Fiber Management 185-214

Fiber routing and protection accessories

Grommets & Bushings 215-225

Metal & plastic grommeting strips & plug-in grommets; bushings

General Information

GENERAL INFORMATION

- Richco Mfr. UL No. E61981 (N)
- Federal Cage (Mil) No. 06915 with Control No. Designation B1041
- Yellow Card #E71558 (N)

Remember... if you don't see what you need, call us!

Send us a design or sketch your design and we'll take it from there.

NYLON COLOR

All parts which are manufactured in Nylon 6/6 (RMS-01) or Flame Retardant Nylon 6/6 (RMS-19) are natural in color unless otherwise specified. Nylon 6/6 (RMS-01) can be supplied in most any color for an additional charge. Please contact Richco Customer Service for pricing. To dye the products, delivery takes approximately 2 to 4 weeks providing that the natural Nylon part is in stock. Dyed parts cannot be color matched. Color matched parts will require a minimum order quantity (MOQ) and additional lead time.

Nylon Storage Guidelines / Shelf Life

All Richco Nylon parts are packaged in sealed plastic bags and contain an appropriate level of moisture. When stored in the original unopened bags at 73°F (23°C) and 50% RH, parts shelf life is one year from date of shipment.

SPECIFICATIONS

Specifications in this catalog are for reference only. Richco reserves the right to make changes in the specifications of its proprietary products at any time without notice. Contact Richco for our latest technical drawings.

RELEASE TAB

"Typical Release Tab Location", when noted anywhere in this catalog, refers to an adhesive liner release tab that could exist on any side of a Richco part unless otherwise noted.

TOLERANCES

Unless Otherwise Noted

	Extruded	Molded	Metal
.x	—	± — (0.40)	—
.xx	± .020 (0.51)	± .01 (0.25)	± .015 (0.38)
.xxx	± .015 (0.38)	—	± .005 (0.13)
Fractions	± 1/32 (0.79)	± 1/64 (0.40)	± 1/64 (0.40)

All dimensions shown in this catalog are in inches (metric) unless otherwise noted.

Notes:

- **Up-to-the minute product updates can be seen on our corporate web page at www.richco-inc.com**
- **Raw Material Specifications (RMS) can be found at the end of the catalog – pages 227-234**
- **Want to try a sample? Please call 1-800-621-1892**

General Features

Richco offers a range of products for printed circuit boards (PCBs), which aid the support, spacing, locking and guiding of the board within electronic applications. The majority of supports are designed to be installed manually by hand and do not require automated assembly equipment. Richco's circuit board hardware products are available in a wide array of materials. Richco provides the largest selection of PCB hardware products in the electronics industry.

Typical Applications

- Automotive – GPS, CD and radio equipment
- Brown Goods – Audio and video equipment, consumer electronics
- Security Systems – CCTV, X-ray, alarms and scanning equipment
- Office equipment – Computers, computer peripherals and photocopiers
- White Goods – Microwaves, washing machines, ovens
- Telecommunications equipment – Transponder/receiver cards, signal amplifier modules.

Terminology

Snap-Lock

A snap-in mount that is pushed through the hole in the panel or chassis, which closes and snaps open on the opposite side to give a mechanical and secure lock. To remove, simply squeeze the locking device of the spacer/support.

Snap-Fit

A snap-in mount that is pushed through a hole in a panel or chassis and deflects on the opposite side to produce a mechanical pressure hold. To remove simply pull or push, no squeezing of the device is required.

Custom Options

Special Order

Parts that are identified as "special order" will require a minimum order quantity (MOQ) as well as possible tooling charges.

Locking Devices and Spacer Heights

If you do not find a spacer/support with the locking device or spacer length that meets your requirements, please contact your local Richco office. We have the ability to interchange locking devices and create custom spacer lengths on most of our circuit board spacers and supports. In some instances new tooling and an MOQ may apply.

Materials

The most common materials used for Richco's circuit board hardware are:

Material	UL94 Flammability Rating	RoHS Compliance	RMS
Nylon 6/6	V2	Yes	01
Nylon 6/6	V0	Yes	19

For more details on material properties please consult the materials data section (RMS) of the catalog. Should you require a part to be manufactured in a different material which is not shown in the catalog, please contact your local Richco office to discuss your requirements.

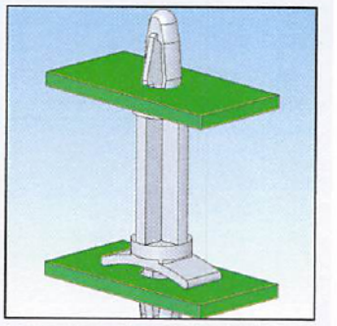

Color

Circuit board supports manufactured in Nylon 6/6 (RMS-01) can by dyed almost any color. Delivery can take approximately 2-4 weeks provided that the natural Nylon part is in stock. Please note dyed parts cannot be color matched. However, we can color match if we are provided with a Pantone or RAL color code reference. Please contact your local Richco office for further details.

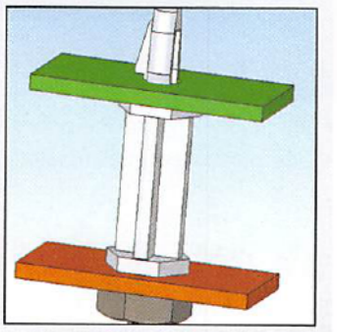

Stress Relieved Parts

For use of products in extremely hot and dry conditions, most circuit board supports manufactured in Nylon 6/6 (RMS-01) can be "stress relieved" to retard moisture evaporation from the part. To order, add -SR after the part number. Please consult your local Richco office for a quotation. Stress relieved parts are manufactured in the U.S. only.

SRLCBS-16-01	1 (25.4)
*Available in UL94 V0 material by special order. To order, replace -01 with -19.	

Use Richco Rivet Part No.	For Chassis Thickness
SR-4050	.026-.062 (0.7-1.6)
SR-4060	.062-.105 (1.5-2.7)
SR-4070	.105-.145 (2.7-3.7)
SR-4080	.145-.184 (3.7-4.7)
SR-4090	.184-.223 (4.7-5.7)
SR-4100	.223-.263 (5.7-6.7)
SR-4120	.282-.341 (7.2-8.7)
See Page Number 52	
Rivets also available in UL94 V0 material.	

Features

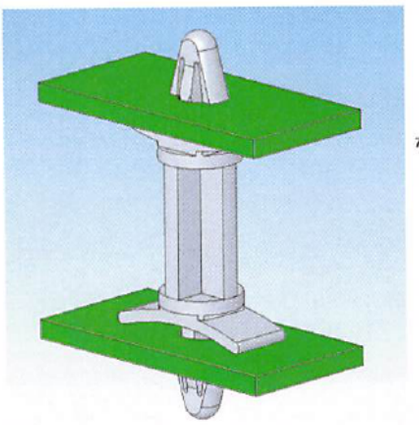

- Proper selection of rivet (sold separately) will accommodate a wide range of panel thicknesses
- Attractive button head on rivet provides minimal protrusion on chassis underside

MDLCBS
Metal Dual Locking Circuit Board Support

Patent D456,690

NEW

Top Hole: Snap-lock: .156 ± .003 (4 ± 0.08)
Panel Thickness: .062 (1.57)

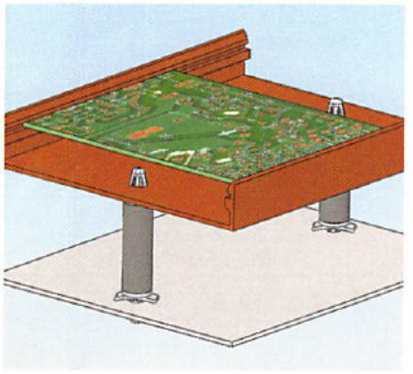

Bottom Hole: Snap-lock: .156 ± .003 (4 ± 0.08)
Panel Thickness: .062 (1.57)

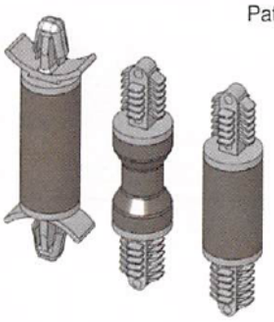

Material: Stainless Steel, RMS-320	Standard Pack: 1,000 per bag
	"A" ±.015 (0.04)
MDLCBS-4	3/8 (9.5)
MDLCBS-6	1/2 (12.7)
MDLCBS-8	5/8 (15.9)
MDLCBS-12	7/8 (22.2)
MDLCBS-16	1-1/8 (28.6)

Features
- Highly conductive and impact resistant
- Metal lends superior strength and durability
- Innovative removable design

HSCBS/VD
Vibration and Shock Dampening Spacers

Patents Pending

Standard Pack: 1,000 per bag			Fix Mat'l: Flame Ret. Nylon 6/6, RMS-169 Color: Natural		
Part No.	"A" ± .03 (0.8) Uncompressed	"B" Ref.	Standoff Material Color: Black	Target Load	Fig.
VD-2	.73 (18.5)	.62 (16.3)	TPE, RMS-167	1.0 lbf (4.4N)	1
VD-3	.97 (24.7)	.87 (22)			
VD-4	1.21 (30.7)	1.10 (28)			
VD-5	.49 (12.4)	.38 (9.7)		1.6 lbf (7.1N)	2
VD-6	.73 (18.5)	.62 (16.3)			
VD-7	.97 (24.7)	.87 (22)			
VD-8	1.21 (30.7)	1.10 (28)			
HSCBS-1	.59 (14.9)	.38 (9.7)	TPE, RMS-168	2.2 lbf (9.8N)	3
HSCBS-2	.83 (21)	.62 (16.3)			
HSCBS-3	1.07 (27.1)	.87 (22)			
HSCBS-4	1.31 (33.2)	1.10 (28)			

Features
- The flexible wings on the HSCBS series provide extra shock and vibration protection
- Select the appropriate "B" length for your required level of protection
- VD Series blind hole ends provide rigid mounting

Top Hole: .250 ± .003 (6.35 ± 0.08)

General Information

GENERAL INFORMATION

- Richco Mfr. UL No. E61981 (N)
- Federal Cage (Mil) No. 06915 with Control No. Designation B1041
- Yellow Card #E71558 (N)

Remember... if you don't see what you need, call us!

Send us a design or sketch your design and we'll take it from there.

NYLON COLOR

All parts which are manufactured in Nylon 6/6 (RMS-01) or Flame Retardant Nylon 6/6 (RMS-19) are natural in color unless otherwise specified. Nylon 6/6 (RMS-01) can be supplied in most any color for an additional charge. Please contact Richco Customer Service for pricing. To dye the products, delivery takes approximately 2 to 4 weeks providing that the natural Nylon part is in stock. Dyed parts cannot be color matched. Color matched parts will require a minimum order quantity (MOQ) and additional lead time.

Nylon Storage Guidelines / Shelf Life

All Richco Nylon parts are packaged in sealed plastic bags and contain an appropriate level of moisture. When stored in the original unopened bags at 73°F (23°C) and 50% RH, parts shelf life is one year from date of shipment.

SPECIFICATIONS

Specifications in this catalog are for reference only. Richco reserves the right to make changes in the specifications of its proprietary products at any time without notice. Contact Richco for our latest technical drawings.

RELEASE TAB

"Typical Release Tab Location", when noted anywhere in this catalog, refers to an adhesive liner release tab that could exist on any side of a Richco part unless otherwise noted.

TOLERANCES

Unless Otherwise Noted

	Extruded	Molded	Metal
.x	—	± — (0.40)	—
.xx	± .020 (0.51)	± .01 (0.25)	± .015 (0.38)
.xxx	± .015 (0.38)	—	± .005 (0.13)
Fractions	± 1/32 (0.79)	± 1/64 (0.40)	± 1/64 (0.40)

All dimensions shown in this catalog are in inches (metric) unless otherwise noted.

Notes:

- **Up-to-the minute product updates can be seen on our corporate web page at www.richco-inc.com**
- **Raw Material Specifications (RMS) can be found at the end of the catalog – pages 227-234**
- **Want to try a sample? Please call 1-800-621-1892**

General Features

Richco offers a range of products for printed circuit boards (PCBs), which aid the support, spacing, locking and guiding of the board within electronic applications. The majority of supports are designed to be installed manually by hand and do not require automated assembly equipment. Richco's circuit board hardware products are available in a wide array of materials. Richco provides the largest selection of PCB hardware products in the electronics industry.

Typical Applications

- Automotive – GPS, CD and radio equipment
- Brown Goods – Audio and video equipment, consumer electronics
- Security Systems – CCTV, X-ray, alarms and scanning equipment
- Office equipment – Computers, computer peripherals and photocopiers
- White Goods – Microwaves, washing machines, ovens
- Telecommunications equipment – Transponder/receiver cards, signal amplifier modules.

Terminology

Snap-Lock

A snap-in mount that is pushed through the hole in the panel or chassis, which closes and snaps open on the opposite side to give a mechanical and secure lock. To remove, simply squeeze the locking device of the spacer/support.

Snap-Fit

A snap-in mount that is pushed through a hole in a panel or chassis and deflects on the opposite side to produce a mechanical pressure hold. To remove simply pull or push, no squeezing of the device is required.

Custom Options

Special Order

Parts that are identified as "special order" will require a minimum order quantity (MOQ) as well as possible tooling charges.

Locking Devices and Spacer Heights

If you do not find a spacer/support with the locking device or spacer length that meets your requirements, please contact your local Richco office. We have the ability to interchange locking devices and create custom spacer lengths on most of our circuit board spacers and supports. In some instances new tooling and an MOQ may apply.

Materials

The most common materials used for Richco's circuit board hardware are:

Material	UL94 Flammability Rating	RoHS Compliance	RMS
Nylon 6/6	V2	Yes	01
Nylon 6/6	V0	Yes	19

For more details on material properties please consult the materials data section (RMS) of the catalog. Should you require a part to be manufactured in a different material which is not shown in the catalog, please contact your local Richco office to discuss your requirements.

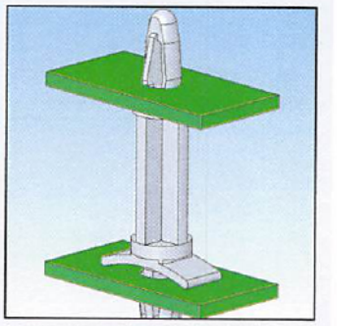

Color

Circuit board supports manufactured in Nylon 6/6 (RMS-01) can by dyed almost any color. Delivery can take approximately 2-4 weeks provided that the natural Nylon part is in stock. Please note dyed parts cannot be color matched. However, we can color match if we are provided with a Pantone or RAL color code reference. Please contact your local Richco office for further details.

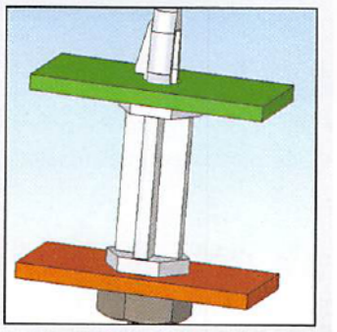

Stress Relieved Parts

For use of products in extremely hot and dry conditions, most circuit board supports manufactured in Nylon 6/6 (RMS-01) can be "stress relieved" to retard moisture evaporation from the part. To order, add -SR after the part number. Please consult your local Richco office for a quotation. Stress relieved parts are manufactured in the U.S. only.

BHL

Top Hole: Snap-lock: .156 ± .003 (4 ± 0.08)
Panel Thickness: .062 (1.57)

Fig. 1

Bottom Hole: Press-fit: .312 ± .003 (7.92 ± 0.08)
Panel Thickness: 1/4 (6.4) Min.

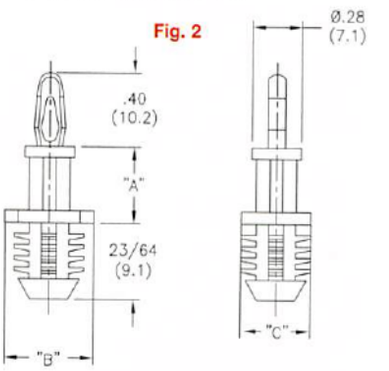

BHL/BHC
Blind Hole Series

BHC

Top Hole: Snap-fit: .156 ± .003 (4 ± 0.08)
Panel Thickness: .062 (1.57)

Fig. 2

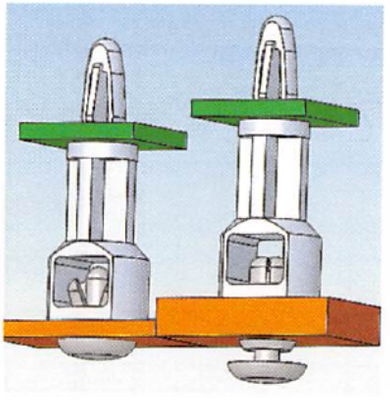

Bottom Hole: Press-fit: .312 ± .003 (7.92 ± 0.08)
Panel Thickness: 1/4 (6.4) Min.

Features

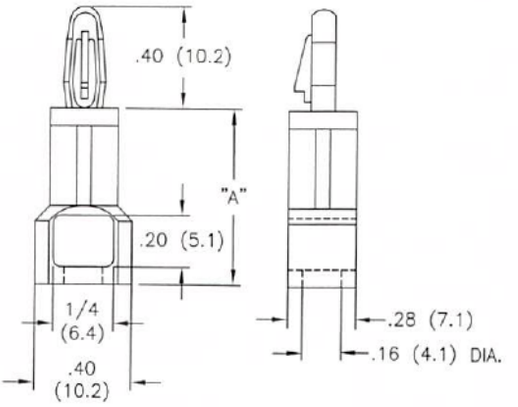

- Flexible ribs lock into round, oval, threaded, punched or drilled blind holes.
- Blunt tip allows maximum grip in blind holes with minimum protrusion in pass-through applications

BHL (Fig. 1)	BHC (Fig. 2)	Standard Pack: 1,000 per bag

Press-fit for .250(6.35) hole available by special order.				

SRLCBS
Snap Rivet Locking Circuit Board Support

Top Hole: Snap-lock: .156 ± .003 (4 ± 0.08)
Panel Thickness: .062 (1.57)

Bottom Hole: Snap Rivet: .161 - .165 (4.1 - 4.2)
Panel Thickness: See Rivet Table

Mat'l: Nylon 6/6, RMS-01* Color: Natural	Standard Pack: 1,000 per bag
	"A" Standoff Height ± .015 (0.4)
SRLCBS-6-01	3/8 (9.5)
SRLCBS-7-01	7/16 (11.1)
SRLCBS-8-01	1/2 (12.7)
SRLCBS-10-01	5/8 (15.9)
SRLCBS-12-01	3/4 (19.1)
SRLCBS-14-01	7/8 (22.2)
SRLCBS-16-01	1 (25.4)
*Available in UL94 V0 material by special order. To order, replace -01 with -19.	

Use Richco Rivet Part No.	For Chassis Thickness
SR-4050	.026-.062 (0.7-1.6)
SR-4060	.062-.105 (1.5-2.7)
SR-4070	.105-.145 (2.7-3.7)
SR-4080	.145-.184 (3.7-4.7)
SR-4090	.184-.223 (4.7-5.7)
SR-4100	.223-.263 (5.7-6.7)
SR-4120	.282-.341 (7.2-8.7)
See Page Number 52	
Rivets also available in UL94 V0 material.	

Features

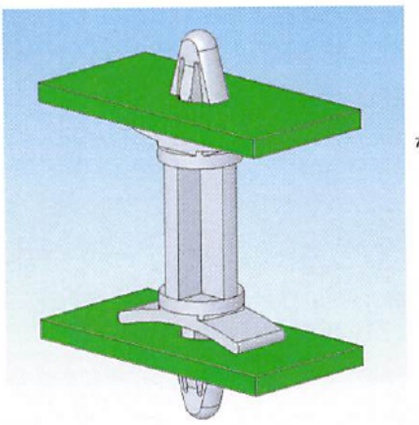

- Proper selection of rivet (sold separately) will accommodate a wide range of panel thicknesses
- Attractive button head on rivet provides minimal protrusion on chassis underside

DLCBS

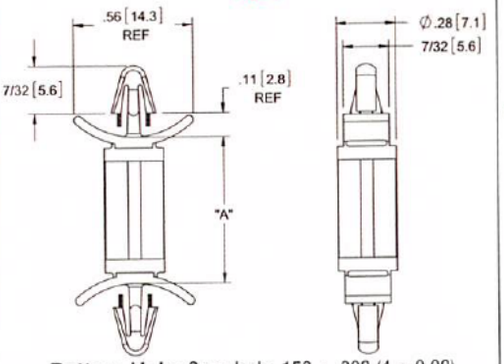

Dual Locking Circuit Board Support

DLCBS

Top Hole: Snap-lock: .156 ± .003 (4 ± 0.08)
Panel Thickness: .031 - .078 (0.79 - 1.98)

Fig. 1

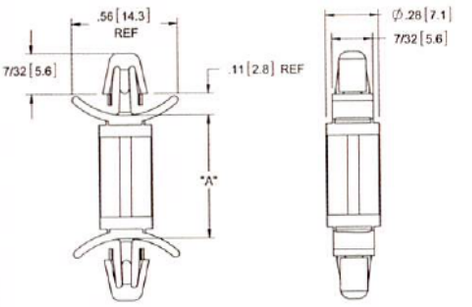

Bottom Hole: Snap-lock: .156 ± .003 (4 ± 0.08)
Panel Thickness: .031 - .078 (0.79 - 1.98)

DLCBS2

Top Hole: Snap-lock: .187 ± .003 (4.75 ± 0.08)
Panel Thickness: .031 - .078 (0.79 - 1.98)

Fig. 2

Bottom Hole: Snap-lock: .187 ± .003 (4.75 ± 0.08)
Panel Thickness: .031 - .078 (0.79 - 1.98)

Features

- One-piece design eliminates the need for screws, nuts and washers
- The tension wings on both ends of the support provide a tight fit

DLCBS3

Top Hole: Snap-lock: .156 ± .003 (4 ± 0.08)
Panel Thickness: .031 - .078 (0.79 - 1.98)

MDLCBS
Metal Dual Locking Circuit Board Support

Patent D456,690

NEW

Top Hole: Snap-lock: .156 ± .003 (4 ± 0.08)
Panel Thickness: .062 (1.57)

Bottom Hole: Snap-lock: .156 ± .003 (4 ± 0.08)
Panel Thickness: .062 (1.57)

Material: Stainless Steel, RMS-320	Standard Pack: 1,000 per bag
	"A" ±.015 (0.04)
MDLCBS-4	3/8 (9.5)
MDLCBS-6	1/2 (12.7)
MDLCBS-8	5/8 (15.9)
MDLCBS-12	7/8 (22.2)
MDLCBS-16	1-1/8 (28.6)

Features
- Highly conductive and impact resistant
- Metal lends superior strength and durability
- Innovative removable design

HSCBS/VD
Vibration and Shock Dampening Spacers

Patents Pending

Standard Pack: 1,000 per bag			Fix Mat'l: Flame Ret. Nylon 6/6, RMS-169 Color: Natural		
Part No.	"A" ± .03 (0.8) Uncompressed	"B" Ref.	Standoff Material Color: Black	Target Load	Fig.
VD-2	.73 (18.5)	.62 (16.3)	TPE, RMS-167	1.0 lbf (4.4N)	1
VD-3	.97 (24.7)	.87 (22)			
VD-4	1.21 (30.7)	1.10 (28)			
VD-5	.49 (12.4)	.38 (9.7)		1.6 lbf (7.1N)	2
VD-6	.73 (18.5)	.62 (16.3)			
VD-7	.97 (24.7)	.87 (22)			
VD-8	1.21 (30.7)	1.10 (28)			
HSCBS-1	.59 (14.9)	.38 (9.7)	TPE, RMS-168	2.2 lbf (9.8N)	3
HSCBS-2	.83 (21)	.62 (16.3)			
HSCBS-3	1.07 (27.1)	.87 (22)			
HSCBS-4	1.31 (33.2)	1.10 (28)			

Features
- The flexible wings on the HSCBS series provide extra shock and vibration protection
- Select the appropriate "B" length for your required level of protection
- VD Series blind hole ends provide rigid mounting

Top Hole: .250 ± .003 (6.35 ± 0.08)

DLCBSRA3-12-01	3/4 (19.1)
DLCBSRA3-14-01	7/8 (22.2)
*Available in UL94 V0 material by special order. To order, replace -01 with -19.	

SRLAHS

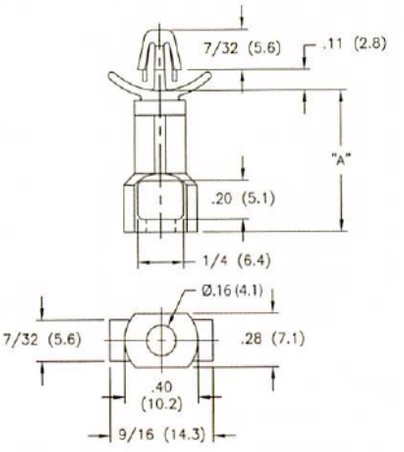

Snap Rivet Locking Arrowhead Support

Features

- Proper selection of rivet (sold separately) will accommodate a wide range of panel thicknesses

Top Hole: Snap-lock: .187 ± .003 (4.75 ± 0.08)
Panel Thickness: .031 - .078 (0.79 - 1.98)

Bottom Hole: Snap Rivet: .161 - .165 (4.1 - 4.2)
Panel Thickness: See Rivet Table

Mat'l: Nylon 6/6, RMS-01* Color: Natural	Standard Pack: 1,000 per bag
	"A" Standoff Height ± .015 (0.4)
SRLAHS-7-01	7/16 (11.1)
SRLAHS-8-01	1/2 (12.7)
SRLAHS-10-01	5/8 (15.9)
SRLAHS-12-01	3/4 (19.1)
SRLAHS-14-01	7/8 (22.2)
SRLAHS-16-01	1 (25.4)
*Available in UL94 V0 material by special order. To order, replace -01 with -19.	

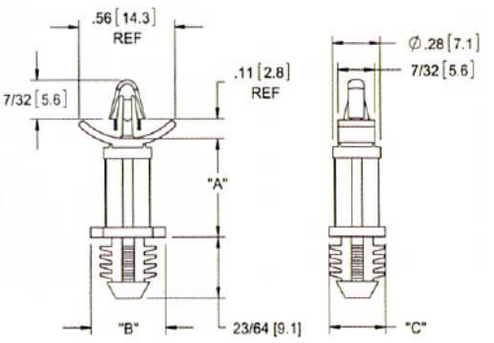

Use Richco Rivet Part No.	For Chassis Thickness
SR-4050	.026-.062 (0.7-1.6)
SR-4060	.062-.105 (1.5-2.7)
SR-4070	.105-.145 (2.7-3.7)

Card Guides

General Features

In chassis and rack system applications, PCB access needs to be quick, accurate, safe and easily accessible to avoid damage to the components on the board, which need to be utilized without compromising on overall performance. Richco's series of card guides and pullers provide a solution to PCB safety and access for when routine installation, maintenance and repair needs to take place. Richco offers a range of vertical, horizontal mount and tensioning rack card guides. Vertical design keeps boards in place, yet allows easy slide in and slide out. Horizontal guides are available with a funnel entry for easier board insertion, while others come with tension grips, applying spring pressure to hold the board securely in place.

Typical Applications

- Computers
- Telecommunications – Rack and panel systems
- Military equipment – Radar and intelligence equipment

Material

Most of Richco's card guides and pullers are available in Nylon 6/6 or polycarbonate. Please contact your local Richco office for other material requirements.

Pullers

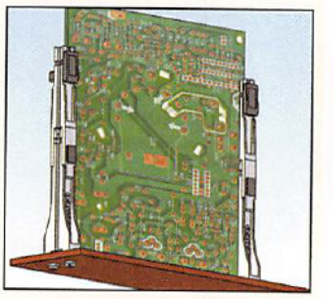

General Features

Richco's pullers are designed to solve difficult insertion and extraction problems associated with removing large PCB's and tight gripping multi-pin edge connectors. Our pullers use a cam in/out action enabling leverages of up to 4:1. Ease of use, installation and protection from undue stress for damage-free insertions and extractions of PCB's, components, and connectors are the main benefits from the use of our pullers. Passivated stainless steel spring pins as per MIL-P-10971 are provided with certain ejectors. Richco pullers have been designed to meet the increasing need to support PCB's mounted in a vertical position in order to save space. Our wide selection accommodates various board sizes and allows for paired mounting and gang or tandem mounting. The use of standard fasteners simplifies mounting.

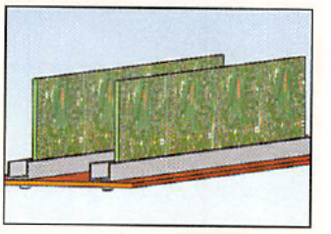

Typical Applications

- Computers
- Telecommunications – Rack and panel systems
- Military equipment – Radar and intelligence equipment

VMCGE-30M-01
Vertical Mount Guide

Accepts PCB: .062 (1.6)

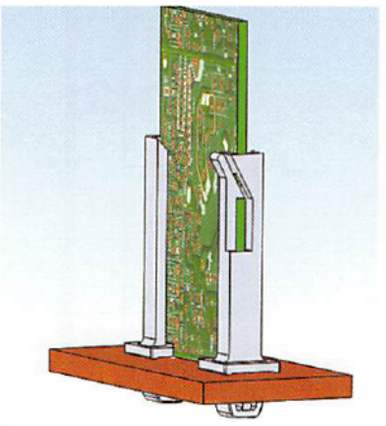

Mounts Into Hole: Snap-lock into above dimensions ±.003 (0.08)
Mounts Into Panel: .047 - .071 (1.2 - 1.8)

Standard Pack: 1,000 per bag
Mat'l: Nylon 6/6, RMS-01* Color: Natural
*Available in UL94 V0 material by special order. To order, replace -01 with -19.

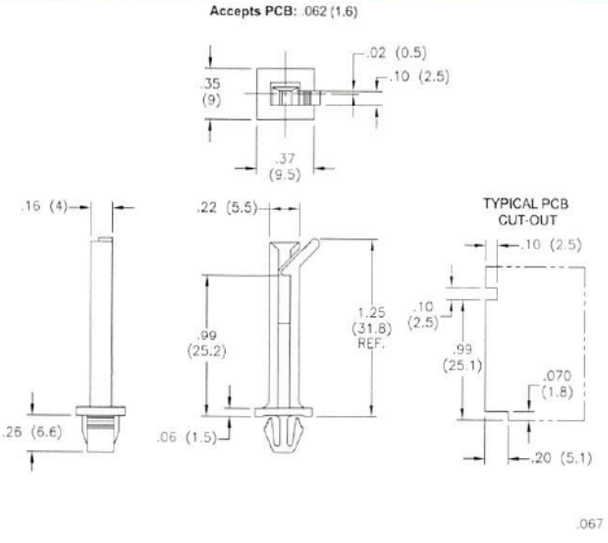

Features

- Square mounting hole has anti-rotation benefits

VMCGLE-31M-01
Vertical Mount Guide Latched

Accepts PCB: .062 (1.6)

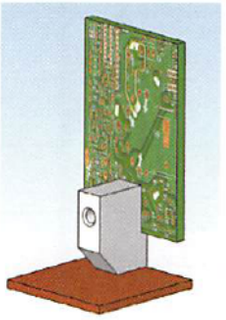

Mounts Into Hole: Snap-lock into dimensions above, ±.003 (0.08)
Mounts Into Panel: .047 - .071 (1.2 - 1.8)

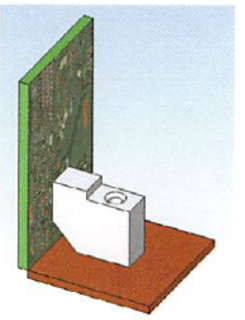

Standard Pack: 1,000 per bag
Mat'l: Nylon 6/6, RMS-01* Color: Natural
*Available in UL94 V0 material by special order. To order, replace -01 with -19.

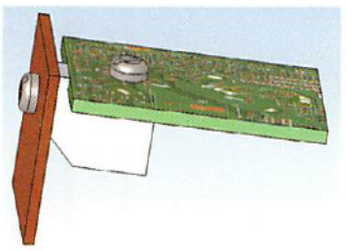

Features

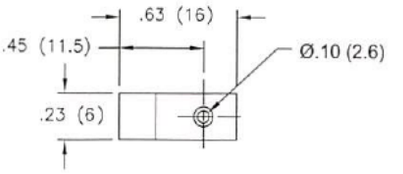

- PCB is easily removed by pulling on the release tab

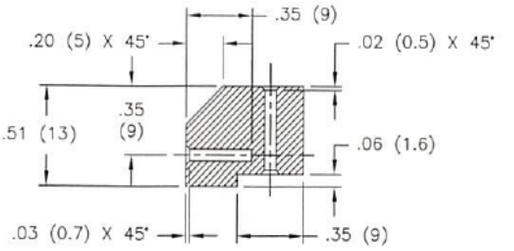

PCB-MB-01
Printed Circuit Board Mounting Block

Mounting Holes: To accept a metal #4 self-tapping screw type B

Standard Pack: 1,000 per bag
Mat'l: Nylon 6/6, RMS-01* Color: Natural
*Available in UL94 V0 material by special order. To order, replace -01 with -19.

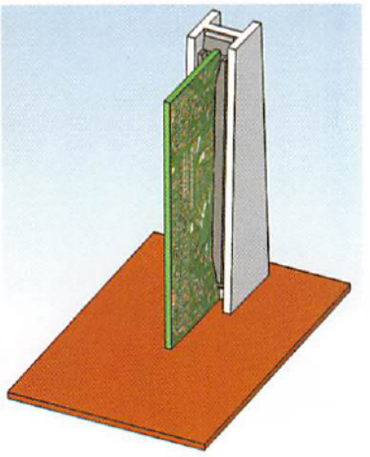

Features

- Mounts PC boards to chassis or other PC boards
- Different mounting configurations are possible to fit specific application needs

General Features

Richco provides an array of rivets, screws, washers and nuts to help secure and fasten components and/or panels to a wide variety of materials such as wood, metal, particle board, plastic and rubber surfaces. Our rivets are available in many styles: blind hole, drive fasteners, snap lock pins, snap rivets and push rivets which can be removed, unscrewed and pushed/pulled depending upon the rivet type. Our range of plastic screws, washers and nuts conform to relevant DIN standards, are available in different drive formats, thread and hole sizes. Products in this section are offered in a wide range of materials, including standard Nylon 6/6, Nylon 6, V0 rated Nylon, Polyethylene, Acetal and Polysulfone for high temperature applications.

Typical Applications

- Point of purchase display industry
- Brown Goods/Consumer Electronics – Audio and video equipment
- Automotive industry - GPS, audio equipment, safety devices
- White Goods - Washing machines and ovens
- Telecom and Datacom - Patch panels and distribution racks.

Custom Options

Materials

Most of Richco's rivets, screws, washers and nuts come in the following materials.

Material	Flammability Rating	RoHS Compliance	RMS
Nylon 6/6	V2	Yes	01
Nylon 6	V2	Yes	52
Flame Retardant Nylon	V0	Yes	103
Nylon 4/6 Heat Stabilized	V2	Yes	56

For more details on material properties please consult the materials data section (RMS) of the catalog. Should you require a part to be manufactured in a different material which is not shown in the catalog please contact your local Richco office to discuss your requirements.

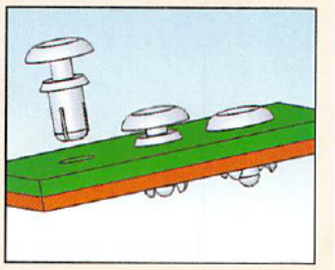

Color

Standard colors include black, white, tan and natural. Other colors are available by special order. Please contact your local Richco office for quotation. A minimum order quantity (MOQ) may apply.

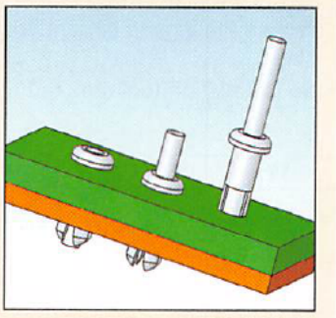

Special Packaging

Most Richco parts come in standard packs of 1,000 pieces per bag. If you require products to be packed in different quantities, please contact your local Richco office and this can be discussed as a special order. An MOQ may apply.

SRHR

Snap Rivet Heat Resistant

Features

- These rivets resist heat spikes which are typical in wave solder applications
- Withstands temperatures up to 306°F (152°C)
- Ideal for electronic/electrical, automotive or machinery applications where heat resistance is required

SRHR	Standard Pack: 1,000 per bag						
Mat'l: Nylon 4/6, RMS-56 Color: Tan	Hole Dia. "G"	Total Holding Thickness "F"	"A" ± .008	"B" ± .008	"C" ± .012	"D"	"E" ± .012

Available in white color by special order. To order, add "W" to the end of the part number.								

CR
Clinch Rivets

Features

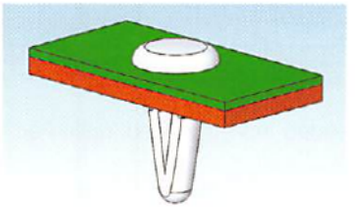

- Installed with a standard pop rivet installation gun. Richco does not sell the installation tools
- After the base of the rivet is installed through the holes in the panel, the installation tool pulls the grommet through the base of the rivet, locking it into place. The tool will finally cut off the excess grommet, leaving a flush top

PFP
Press Fit Pin

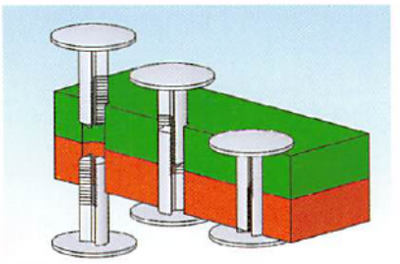

PFP	Standard Pack: 1,000 per bag	
Mat'l: Nylon 6/6, RMS-01 Color: Natural	Hole Diameter	Panel Thickness
PFP-7-01	.138 ± .002 (3.5 ± 0.05)	.25 (6.35) Min.

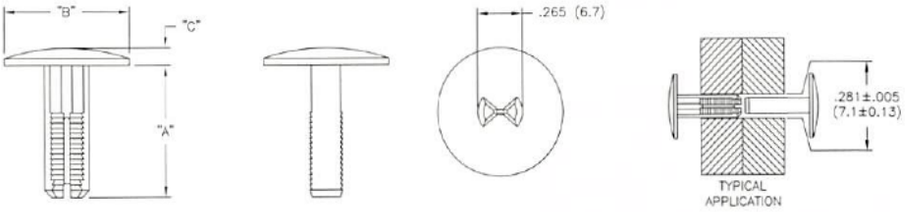

Features
- Low profile head is ideal for tight spaces

C

BR
Barbed Rivet

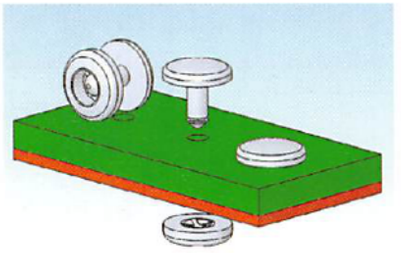

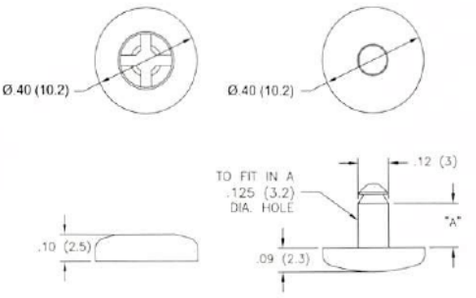

Features
- Complete assembly requires two parts. They snap into each other, holding flat panels together
- Allows for low profile button heads on both sides of panel
- Serrated teeth adjust to a variety of thicknesses for a secure fit

BR				Standard Pack: 1,000 per bag (500 sets per bag)	
Mat'l: Nylon 6/6, RMS-01* Color: Natural	"A" Ref.	"B" ± .010 (0.25)	"C" ± .010 (0.25)	Total Holding Thickness	Hole Diameter
BR1-226-01	.226 (5.7)	.750 (19.1)	.093 (2.4)	.235-.297 (6-7.5)	.281±.005 (7.1±0.13)

BR2-226-01	.226 (5.7)	.406 (10.3)	.062 (1.6)	.235-.297 (6-7.5)	
BR2-344-01	.344 (8.7)			.346-.502 (8.8-12.8)	
BR2-488-01	.488 (12.4)			.500-.812 (12.7-20.6)	
BR2-768-01	.768 (19.5)			.781-1.375 (19.8-34.9)	
*Available in UL94 V0 material by special order. To order, replace -01 with -19.					

MBRR/MBRP
Mini Barbed Rivet

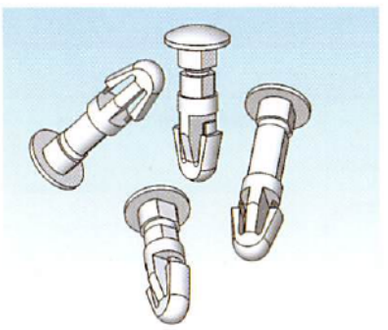

MBRR1-01 MBRP-XXX-01

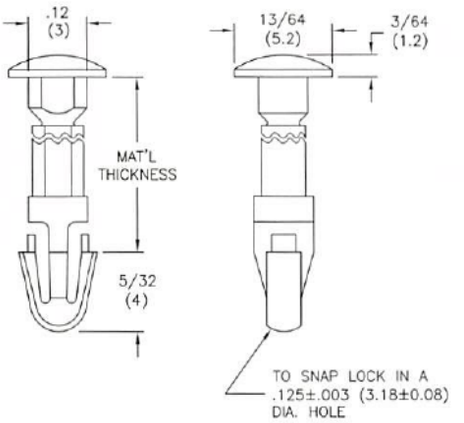

Material: Nylon 6/6, RMS-01 Color: Natural		
Part No.	Standard Pack: 1,000 per bag	
	"A"	Panel Thickness Max
MBRP1-030-01	.063 (1.6)	.030 (0.8)
MBRP1-062-01	.095 (2.4)	.062 (1.6)
MBRP1-100-01	.133 (3.4)	.100 (2.5)
MBRP1-125-01	.158 (4)	.125 (3.2)
MBRP1-187-01	.220 (5.6)	.187 (4.8)
MBRP1-250-01	.283 (7.2)	.250 (6.4)
Female part sold separately and is common to all sizes in the MBRP-1 Series. To order, use part number MBRR1-01.		

Features
- Combination of two mating parts to lock flat surface together
- Excellent for light load applications

SLPA
Snap Lock Pin with Arrowhead

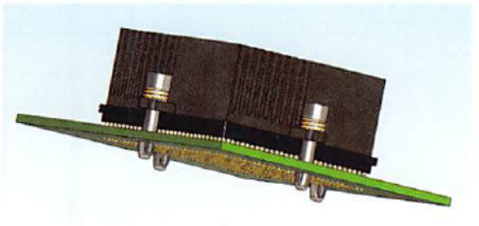

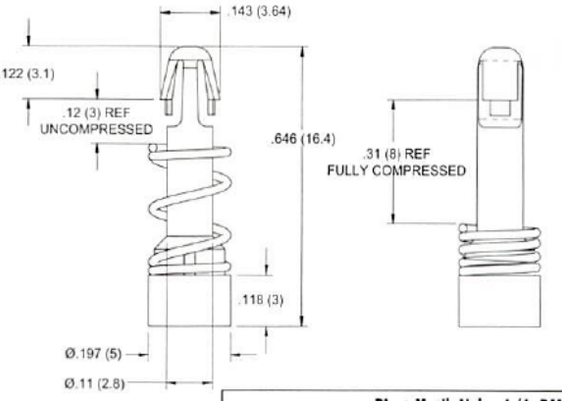

Material: Nylon 6/6, RMS-01* Color: Natural	Standard Pack: 1,000 per bag
	Material Thickness Maximum
SLPA125-187-01	.187 (4.7)
SLPA125-250-01	.250 (6.4)
SLPA125-312-01	.312 (7.9)

HSR
Heat Sink Spring Mount Rivet

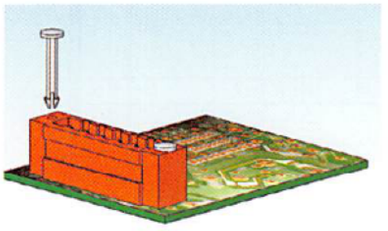

NEW

Features

- Fastens a heat sink to a processor chip on a PCB
- The spring provides continuous pressure to the heat sink which improves conductivity
- The rivet is easily installed by hand

Rivet Mat'l: Nylon 6/6, RMS-47 Color: Natural		
Spring Mat'l: Steel, RMS-326 Chrome Plated		
Standard Pack: 1,000 per bag		
Part No.	**Heat Sink Hole**	**Chassis Hole**
HSR-1	Inserts through a Ø.125 - .157 (3.18 - 4) Hole	Snap-lock into a Ø.118±.003 (3±0.08) Hole

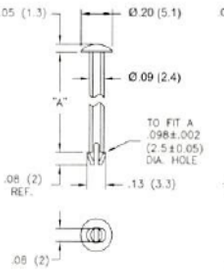

SLP-1/SLP-2
Snap Lock Pin

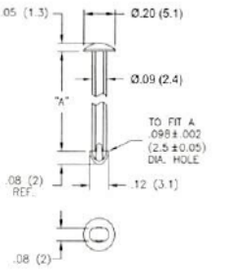

Features

- Typically used to fix connectors to printed circuit boards for wave soldering

SLP-1 Open-Arrow Base

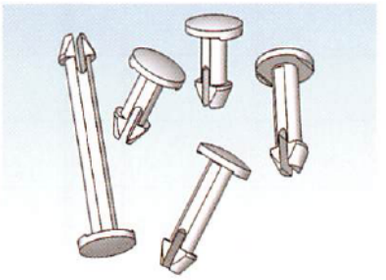

SLP-2 Tear-Drop Base

Material: Nylon 6/6, RMS-01 Color: Natural		Standard Pack: 1,000 per bag
Open-Arrow Base	**Tear-Drop Base**	**"A" ± .016**
SLP-1-100-177-01	SLP-2-100-177-01	.177 (4.5)
SLP-1-100-221-01	SLP-2-100-221-01	.221 (5.6)
SLP-1-100-236-01	SLP-2-100-236-01	.236 (6)
SLP-1-100-245-01	SLP-2-100-245-01	.245 (6.22)

General Features

Richco's range of rotary and axis dampers provide the white goods, audio & video entertainment, automotive and general electronics industries with a solution to dampening and providing controlled movement to give added value and functionality to the end user. Richco's rotary and axis dampers are available in different torques and mounting methods such as screw or snap-in mount.

Richco also provides door latches that act as a 'push/pull' locking and unlocking device enabling the door/compartment of your application to be securely closed and opened. Our door latch range also consists of a spring-assisted version.

Richco also supplies a number of molded rubber bumpers and rivet-fastened push-on feet for dampening or for taking light shock absorption on moving parts. Richco's bumpers and feet also secure and resist movement of your application when it is at rest. They also prevent surface damage with their anti-skid, scratch and stain/mark resistance properties. Richco's bumpers and feet come in different shapes, sizes, colors, hardness ratings and materials. If you cannot find a specific product in this section or require further technical details, please contact your local Richco office.

Typical Applications

• Automotive	Drink cup holders, ash trays, glove boxes
• Office Equipment	Photocopiers, computers, telephones
• Brown Goods/ Consumer Electronics	Hi-Fi cassette players, CD players, DVD players, TV set top boxes, TV input, output jack and manual control compartments, projection TV's
• White Goods	Washing machine soap dispensers, temperature control compartments in refrigerators, boiler control panels, microwaves
• Furniture	Sliding doors, storage units, chairs
• Telecommunications	Distribution racks and panels
• Medical Equipment	Monitoring equipment
• General Electronic	Electronic cabinets

Materials

Most of Richco's Rotary & Axis Dampers and Bumpers & Feet come in the following materials.

Rotary & Axis Dampers

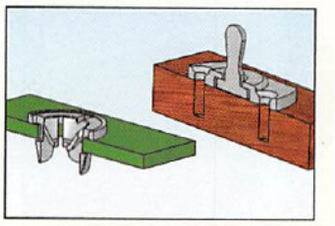

Material	Flammability Rating	RoHS Compliance	RMS
Polycarbonate	V2	Yes	161
Acetal	NR	Yes	160

Bumpers & Feet

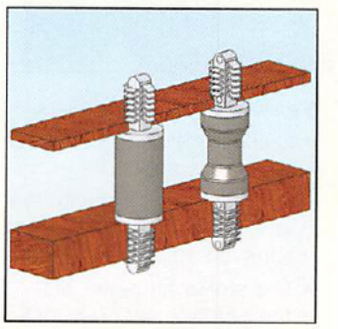

Material	Flammability Rating	RoHS Compliance	RMS
Elastomer	HB	Yes	158
Polyurethane	HB	Yes	64
PVC	NR	Yes	25
ABS	HB	Yes	114

For more details on material properties please consult the materials data section (RMS) of the catalog. If you require a part to be in a different material than those highlighted in this section, please contact your local Richco office to discuss your requirements.

CS
Catch & Striker

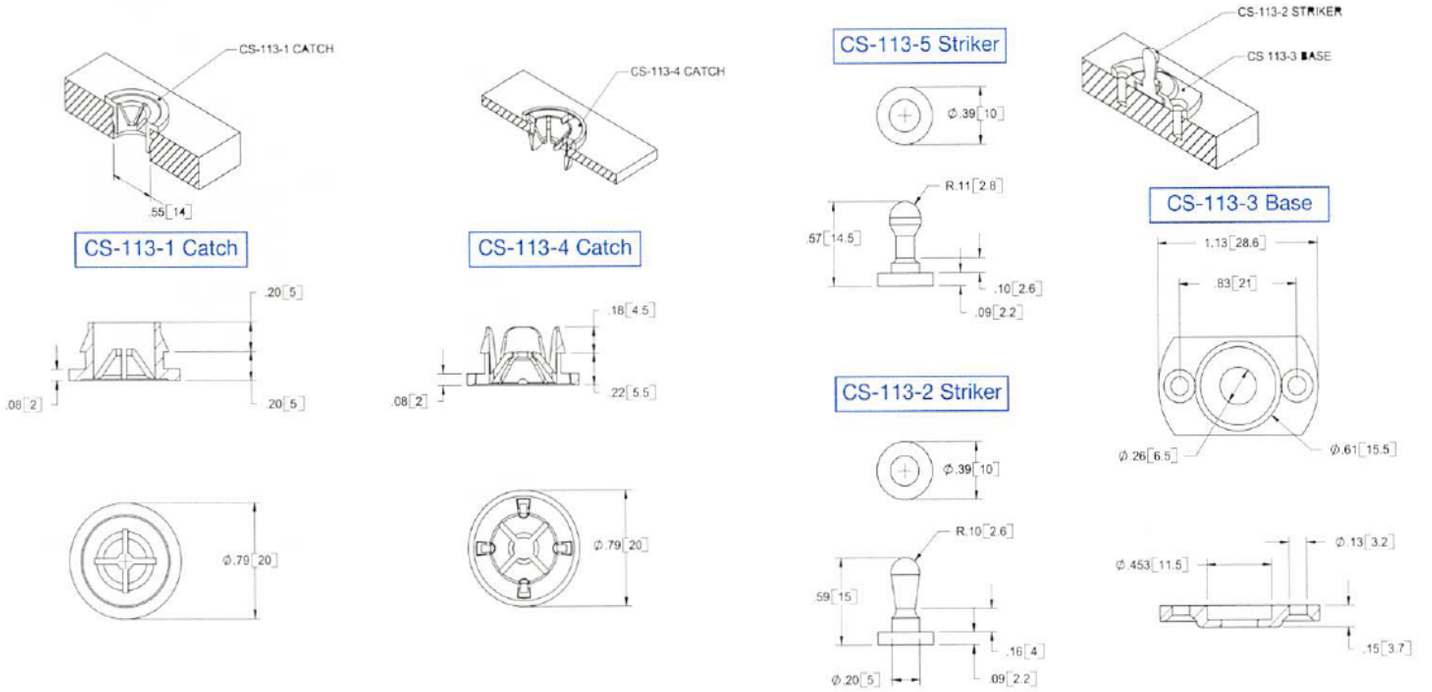

Average Insertion & Extraction Data for the CS Series				
	CS-113-1		CS-113-4	
	Insertion (N)	Extraction (N)	Insertion (N)	Extraction (N)
CS-113-2	34	22	12	11
CS-113-5	24	64	16	38

D

Features

- Quick installation whenever latching is needed
- Striker is mounted with the striker base (CS-113-3) and screwed into the door
- The striker engages with the catch to securely lock the door
- The catch is designed either for mounting in wood cabinets (CS-113-1) or into a panel (CS-113-4)
- The striker can be released from the catch with relatively little pull effort

FQT
Quarter Turn Panel Fastener

NEW

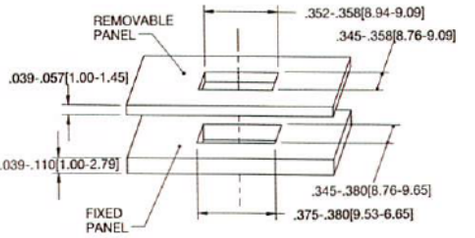

D

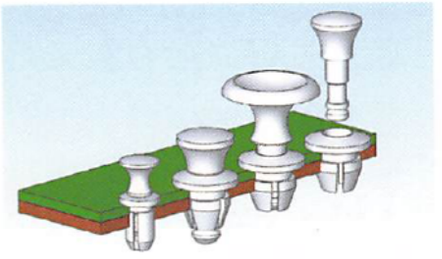

Features

- Quick way to join a removable panel from a fixed panel
- Economical one piece design
- Easily installed by driving the plunger into the grommet with a hammer locking the two panels together
- Panels are easily separated using a screwdriver to rotate the plunger a quarter turn

FQT-1
Mat'l: Acetal: RMS-14 Color: White
Standard Pack: 1,000 per bag

Snap Latch

Part No. Examples			
Grommet Part No.	Dash	Style	Color
SLG	-	SL	B
Plunger Part No.	Dash	Style	Color
SLPL	-	1L	W

Features

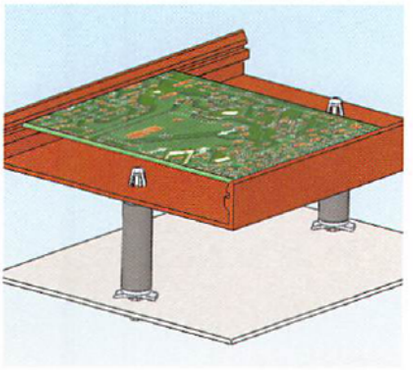

- Quick installation wherever latching is needed
- To install, push the grommet into the removable panel and then the desired plunger into the grommet. When the panel and plunger are pushed into the fixed panel, it locks them together
- Simply pull on the plunger to remove the non-fixed panel

RFRT-G

Two Way Rotary Damper

D

Features

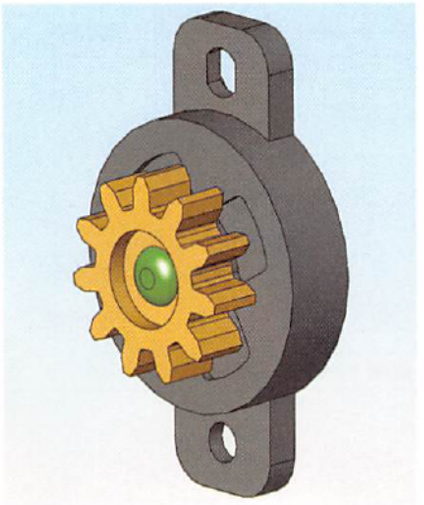

- Dampers provide resistance and slow the movement of applications in which hinged devices open and close such as access panels, doors and ash trays
- They utilize the principle of fluid resistance to dampen movement
- Available with different gears and torque/resistance values

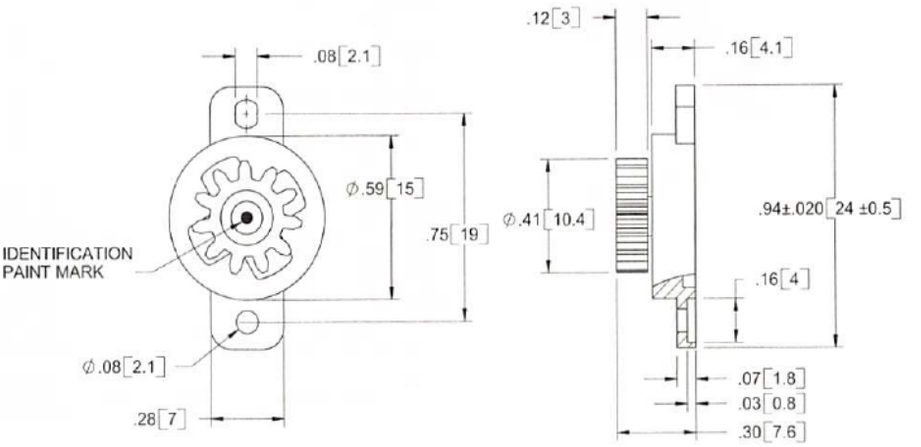

GEAR SPECIFICATION

GEAR SPECIFICATIONS	
Type	Standard Spur
Tooth Profile	Involute Gear
Module	0.8
Pressure Angle	20°
No. of Teeth	11
Pitch Circle Diameter	8.8
All dimensions in mm	

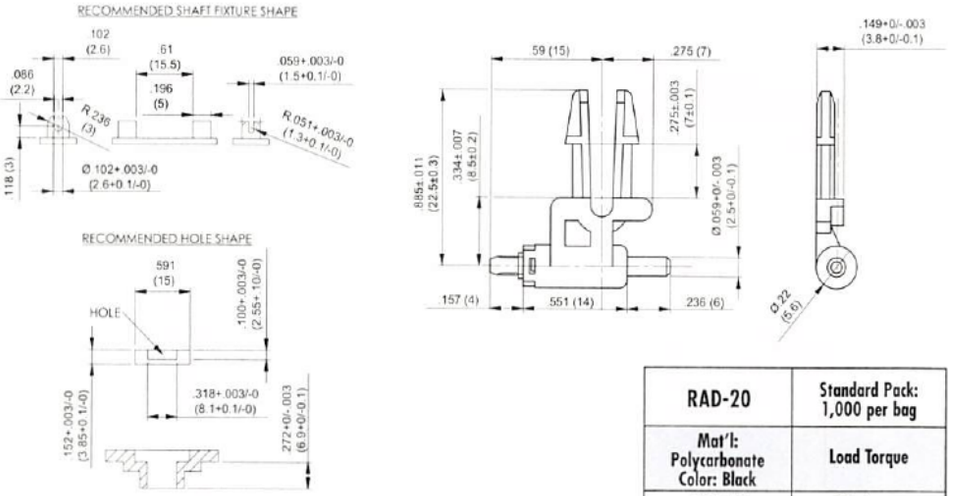

Features

- Easily snaps into housing, eliminating the need for screws

RAD-20

Axis Damper

RAD-20	Standard Pack: 1,000 per bag
Mat'l: Polycarbonate Color: Black	Load Torque
RAD-20	20 gf. cm
Revolution Angle = 90°	
Max. Revolution Angle = 130° ± 10°	
All dimensions in mm	

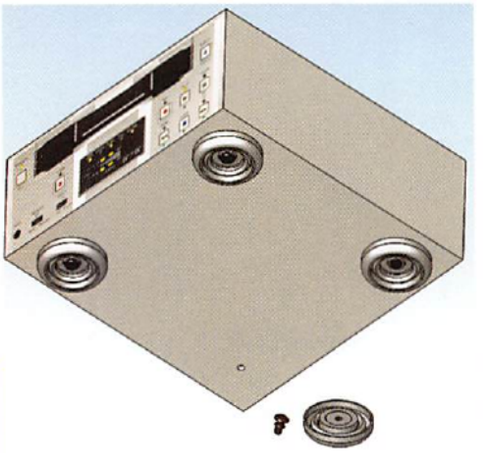

Features

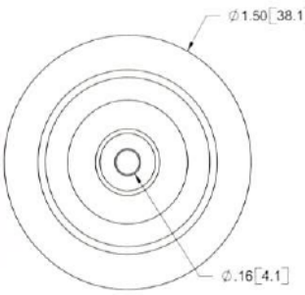

- Damper snaps into the access panel/door (see Recommended Shaft Fixture Shape) and the recommended mounting shape in the chassis (see Recommended Hole Shape)
- Eliminates the need for separate rack & spring system commonly used in rotary damper applications
- Spring loaded to give a pre-force to aid in opening the access panel/doors

- Simply push into punched or drilled holes
- Ideal for use on metal or plastic housings and cases

D

BPM
Pull Mount Bumper

NEW

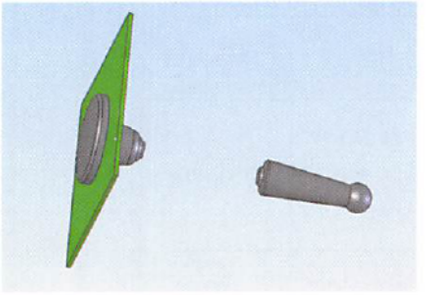

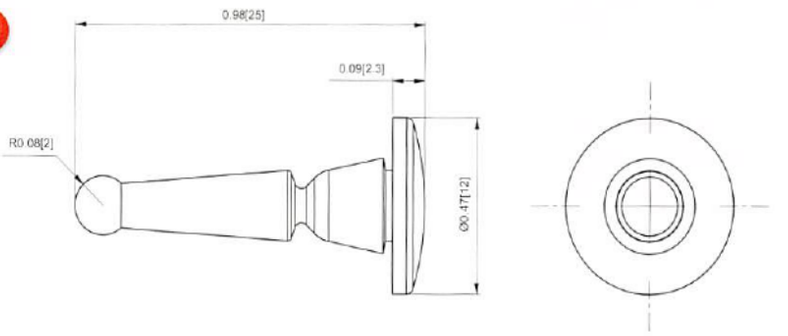

Material: Silicone Rubber, RMS-321 Color: Black		Standard Pack: 1,000 per bag		
Part No.	"A"	Color	Hole Dia.	Panel Thickness
BPM-1	.12 ± .01 (3 ± 0.25)	Gray	.24 - .25 (6 - 6.35)	.059 (1.5)
BPM-2	.16 ± .01 (4.2 ± 0.25)	Black		

Features
- Pull mount end can be cut off after mounting to save space
- Rubber material provides shock & vibration protection and skid resistance

BAB
Break-Away Bumper

NEW

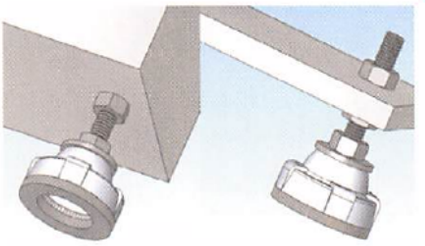

Material: Silicone Rubber 30 Shore A, RMS-316; Color: Black		
Standard Pack: 1,000 per bag		
Part No.	Chassis Thickness	Chassis Hole Diameter
BAB-1	.024 - .031 (0.6 - 0.8)	.197 - .213 (5 - 5.4)

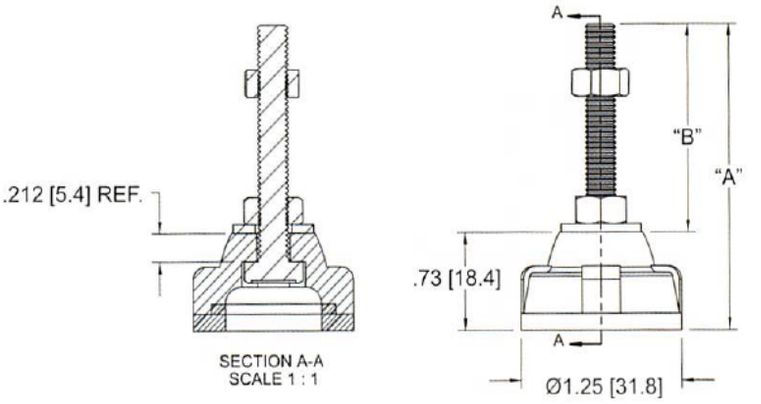

Features
- Mounting tab designed to break-away after assembly to save space
- Quick and easy pull-through assembly
- Silicone rubber provides high temperature resistance and anti-slip properties

General Features

The cooling of electronic applications plays an important role in smooth operation. Richco has a wide variety of mounting, protection, vibration dampening and filtration products.

Richco's fan accessories offer a simple solution for the protection of mounted fans and prevent dust ingress. Our products also offer protection to the user from accidental damage and bodily harm.

Richco TPE fan mounts play an important role in mounting the fan unit securely and also in suppressing unwanted noise generated by the fan itself.

In order to dissipate static build from airflow moving through the fan intake, Richco offers a metal grounding finger which can be connected to a grounding cable to protect the fan unit from unwanted EMI and RFI.

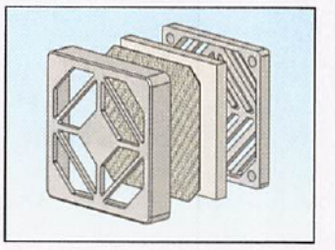

Typical Applications

• Office Equipment	Computers
• Brown Goods/ Consumer Electronics	Plasma/LCD flat screen televisions, projection TVs, set top boxes
• White Goods	Refrigeration and air-conditioning units
• Telecommunications	Distribution racks and panels, mobile base station equipment
• General Electronic	Electronic cabinets

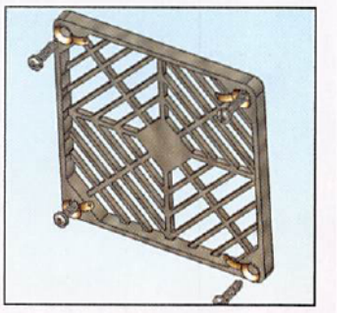

Materials

For material details please see individual parts in this section and refer to relevant RMS number where applicable for specific details, this information can be found at the rear of the catalog.

RCP/RFG/RFC/RFF/RMF
Fan Filters

Features

- Specially designed for axial fan-cooled equipment
- Use these kits to protect your equipment from airborne contamination and reduce external fan noise
- The fan/finger guards provide protection from moving parts
- The felt filters are used in any moderately dusty environment
- The filter cover keeps both the metal and felt filter in place

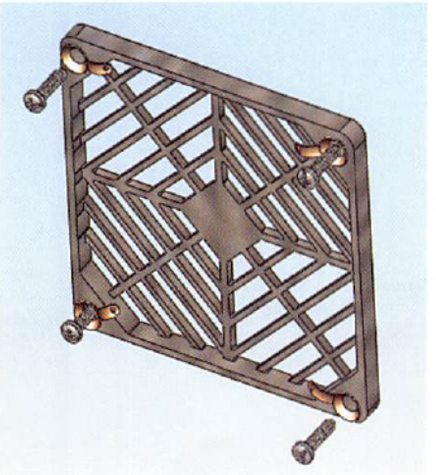

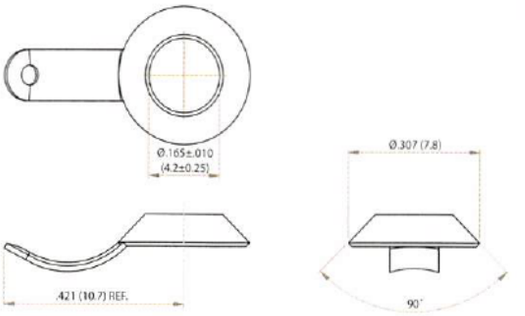

*Filter Set Part No.	Finger Guard				Filter Covers are not Supplied Separately. Part No. is for Reference Only

FG-1
Grounding Finger

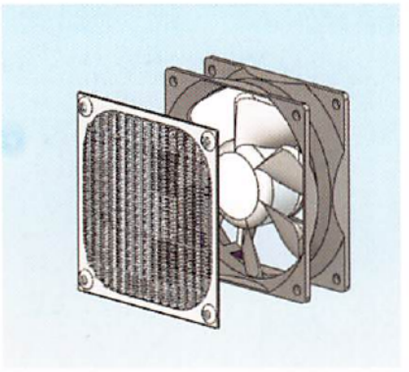

Features

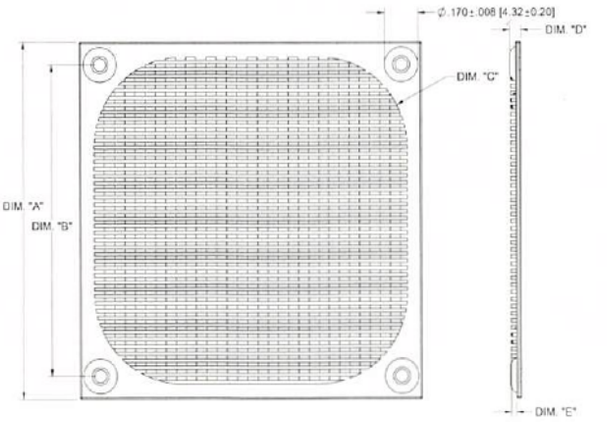

- Helps to eliminate static electricity that is created when air passes though the metallic filter
- Enables grounding to the chassis because it is in contact with the metal screw and metal filter
- We recommend using four grounding fingers per assembly

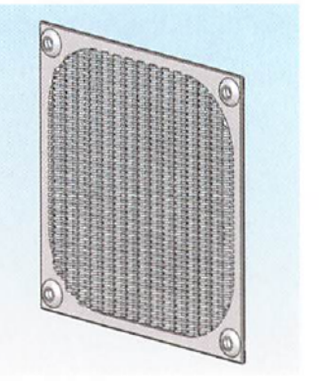

FG-1
0.3 Thick Brass, RMS-231; Tin Plated, RMS-246
Standard Pack: 1,000 per bag

General Features

Richco's range of LED hardware components are designed to protect and support LEDs and also aid in the transmission of light to front panel indicators.

Richco's LED Spacers fit most standard LEDs and can raise the LED to the desired position on the PCB, minimizing shifting, uniformity and aiding ease of installation especially for surface mount applications.

Holding the LED at the desired angle position on the front panel is another application area for which Richco has LED hardware solutions. Richco has a range of angled and front panel LED holders, which ensure that the LED is held securely in position.

Directing light from the PCB to the front panel from awkward PCB mounting positions can be solved with Richco's range of solid light pipes, which are ideal for use with surface mount LEDs.

Typical Applications

• Brown Goods/ Consumer Electronics	Hi Fi cassette players, CD players, DVD players, TV set top boxes and television/monitor standby indicators
• Games Machines	Coin operated slot machines
• Office Equipment	Computers, hard drive/battery and standby indicators
• White Goods	Appliance control panels and boiler control panels
• Telecommunications	Distribution racks and panels, transponder/receiver cards, signal amplification modules
• Medical Equipment	Monitoring and scanning equipment

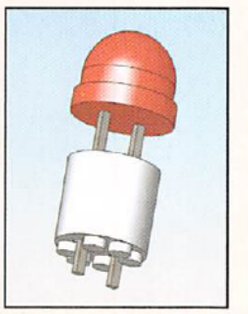

Materials

Most of Richco's LED Hardware products come in the following materials.

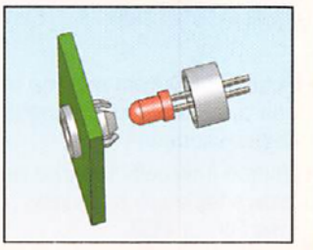

Material	UL94 Flammability Rating	RoHS Compliance	RMS
Nylon 6/6	V2	Yes	01
PVC	V0	Yes	26
Polycarbonate	V2	Yes	181

For material details please see individual parts in this section and refer to relevant RMS number which can be found at the end of the catalog.

LEDCR
LED Clips & Rings

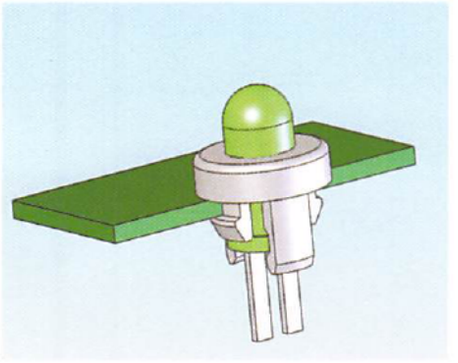

NOTE - Mounting Hole:
LEDCR-104 — .174-.180 (4.4-4.6) Dia.
LEDCR-174 — .267-.273 (6.8-6.9) Dia.
Panel Thickness: .032-.125 (0.81-3.2)

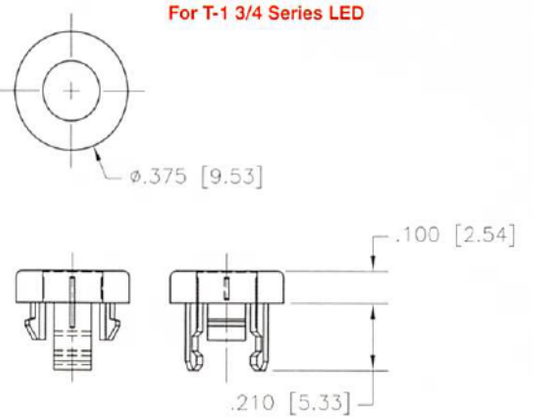

- Parts are sold in a set with both the clip and ring
- Securely and firmly mounts LEDs
- The devices go together by simply inserting the "clip" to the front of the panel, then assembling the LED into the "clip" from the rear of the panel. The "ring" is pressed onto the rear of the "clip" for a firm retention

F

General Features

Electrical insulation of components on the PCB and chassis can prevent electrical shock.

Richco offers a range of plastic transistor insulating sleeves, mounts, rings and pads that will fit most standard transistors, fuses and other electrical components.

Richco's insulating products are suitable for high voltage and high temperature applications in which assembly methods such as wave soldering and potting are used. Products for electrical insulation can be used with screws, pin plugs and receptacles.

Typical Applications

- General electronics – Transformers and power supplies
- Industrial electronics

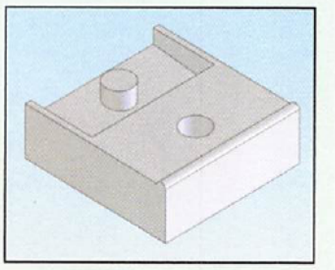

Materials

Most of Richco's insulators come in the following materials.

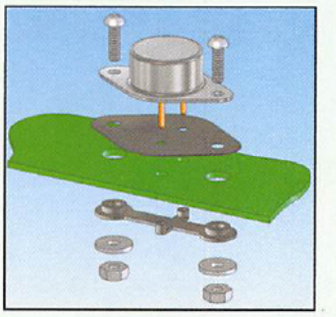

Material	UL94 Flammability Rating	RoHS Compliance	RMS
PVC	V0	Yes	55
Nylon 6/6	V2	Yes	48
Glass Filled Nylon	HB	Yes	18
Nylon 6	V2	Yes	120
Ceramic	NR	Yes	170

For material details please see individual parts in this section and refer to relevant RMS number which can be found at the end of the catalog.

224210
Splashproof Insulator

- UL #E120063

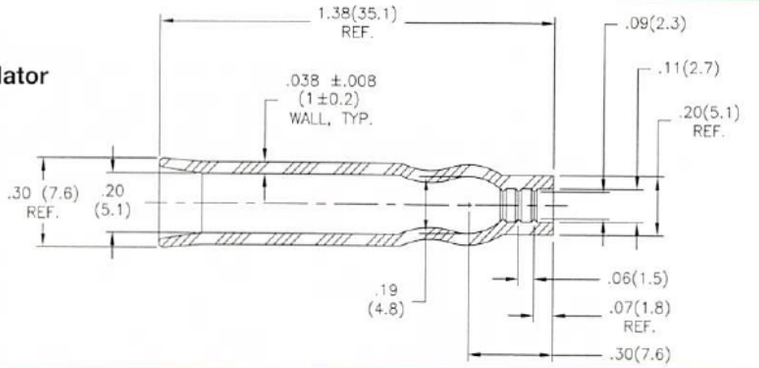

Features

- Provides terminal with splashproof seal to guard against contamination
- Transparent material allows visual inspection of terminal
- Recommended wire O.D. .088-.120 (2.2-3.1)

Material: Soft PVC, RMS-55 Color: Translucent Blue
Standard Pack: 1,000 per bag

215010
Splashproof Insulator

- UL #E120063

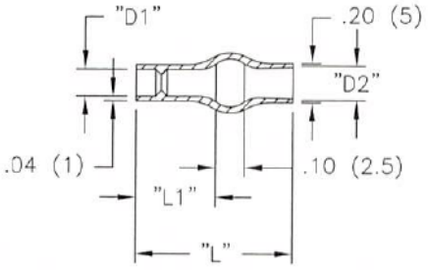

Material: Soft PVC, RMS-55 Color: Translucent Blue
Standard Pack: 1,000 per bag

224XXX
Quick Fit Insulator

- UL #E120063

Features

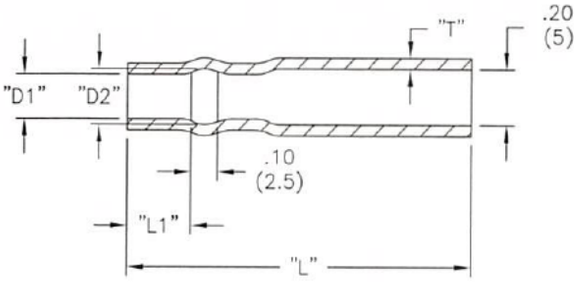

- Replaces heat shrink tubing and are ideal for use on all standard types of terminals
- Lower installed cost than heat shrink tubing

Material: Soft PVC, RMS-55 Color: Transparent Blue Standard Pack: 1,000 per bag

FCE-5-19
Fuse Cover

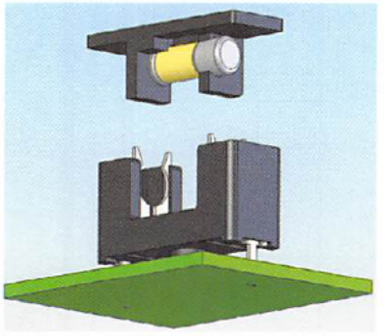

Features

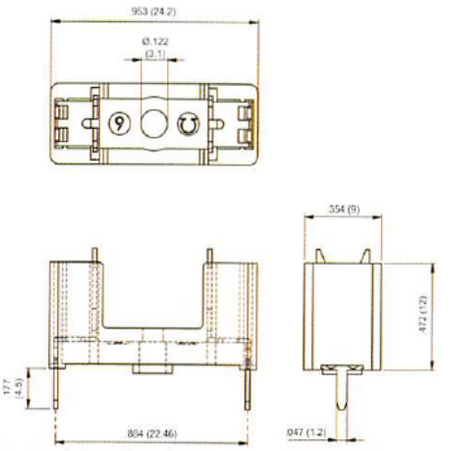

- Provides protection of the fuse when maintenance needs to take place on surrounding components
- Square viewing area gives quick identification of blown fuses
- Easily installed onto the fuse and fuse holder

Material: UL94 VO Nylon 6/6, RMS-19 Color: Natural	
Part No.	Standard Pack: 1,000 per Bag
	Mounting Fuse Size
FCE-5-19	Snap-fit onto a .20 x .79 (5 x 20) fuse

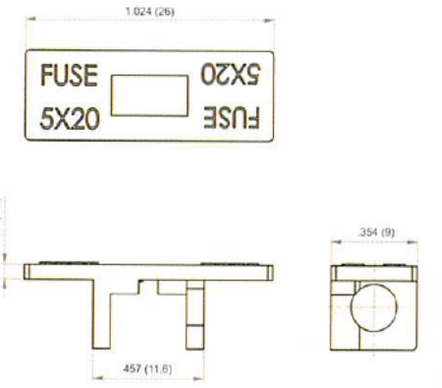

FH/FC
Fuse Holder & Cover

FH-320-NV

FC-320-NV

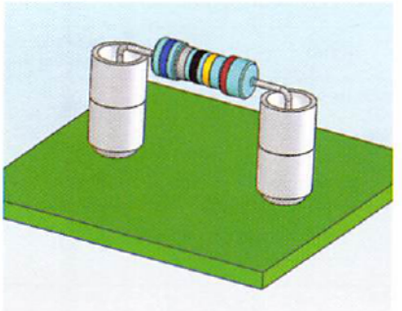

Features

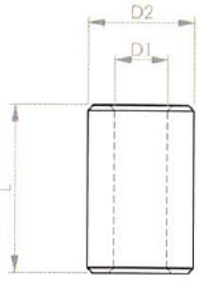

- Protects live components from damaging, unintentional contact
- Design makes fuse replacement safe and easy
- To assemble, simply insert fuse into fuse cover; lock in place with a 1/4 turn; place fuse cover in fuse holder

Mat'l: Nylon 6/6 25% Glass Filled, RMS-49; Pin Mat'l: Brass/ Nickel, RMS-289 Tin Plated, RMS-217
Standard Pack: 1,000 per bag

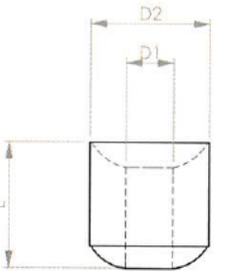

CER
Ceramic Beads

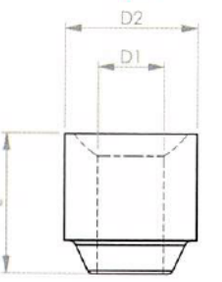

Style 1

Style 2

Style 3

Features

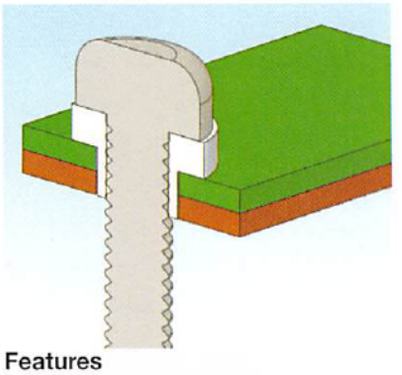

- Parts are serviceable to 1832°F (1000°C)
- Parts are stackable as seen in application photo

* The minimum clearance for snap-in bearings is .001". However, snap in bearings can be used with shaft diameters a few thousands larger or smaller than shown if housing bore is varied a corresponding amount

** When installed in Housing Bore diameter shown

Features

- Effective in damping out noise and vibration
- Does not require lubrication
- Axial slot helps maintain proper fit and compensate for humidity and temperature changes

Installation

Bearings should always be installed in a housing bore that provides good support for the bearing.

When operated continuously without lubrication at the maximum permissible speed of 500 rpm, should have hardened or plated shafts in the bearing area to minimize shaft wear.

Unhardened stainless steel shafts are not recommended. Use chromium plated or nickel plated shafts where corrosion is a problem.

Correct Clearances

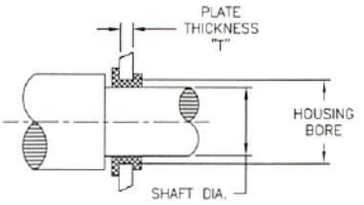

Housing bore diameters should not be smaller than the minimum diameters specified in tables presented in this catalog. To check bearing I.D.'s for clearance, the bearing should be installed in its housing bore. Plug gauges with diameters corresponding to the minimum and maximum recommended I.D.'s can be used to determine whether the clearance is correct for the bearing when operated on recommended shaft.

When bearings must operate in liquids, the wall thickness of the bearing will increase due to absorption of liquid. Wall thicknesses also increase when bearings are used in a consistently humid environment.

The compensation gap allows for the bearing to be collapsed sufficiently so that the small flange can be easily spiraled through the mounting hole. Position the bearing over the hole with the gap facing up. With light finger pressure immediately to the left of the compensation gap, the bearing is spiraled into position.

Bearings perform effectively in temperature ratings from -40°F to +200°F. Bearing load ratings to 8,000 PSI and speed ratings up to 2,000 feet per minute insure durability.

G

General Features

Cable ties and accessories are important in the harnessing of cable in an application, or for securing cable from one application to another at a distance. Our cable ties can be fixed to the PCB, chassis, or even to a wall in order to harness cable at any application level. We have different colors, materials, sizes and mounting types available. A full supporting cast of accessories, bases, marker ties and holders are available. Cable tie options include push-in arrowhead mount, screw mount, hook and loop, releasable, marker and heavy duty.

Typical Applications

- Automotive - Cable harnesses
- Office Equipment - Secures trailing power cables
- Security
- Brown Goods/Consumer Electronics - Audio and video equipment
- White Goods - Washing machines, ovens

Custom Options

Materials

Richco's cable ties are offered in a variety of materials. Popular cable ties are available in most materials as standard. Other sizes and types may be available by special order with a minimum order quantity (MOQ). Contact your local Richco office to discuss your requirements.

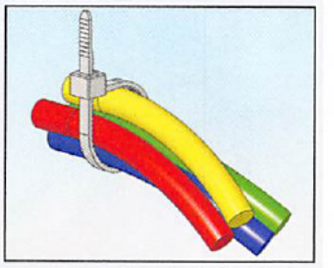

Material	Flammability Rating	RoHS Compliance	RMS
Nylon 6/6	V2	Yes	01
Nylon 6/6	V0	Yes	75
UVB Nylon 6/6	V2	Yes	46
Nylon 4/6	V2	Yes	109
Nylon 6/6	V2	Yes	47

Special Packaging

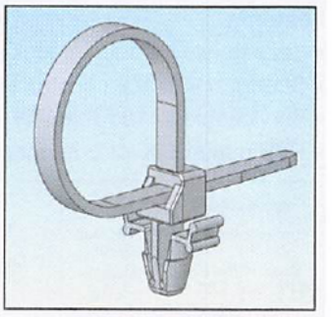

Richco cable ties come standard packed in either bags of 100 or 1,000 pieces. If you require products to be packed in different quantities please contact your local Richco office and this can be discussed as a special order. An MOQ may apply.

Color

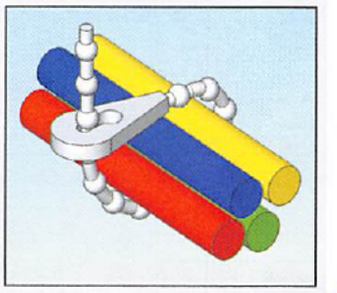

Cable ties can be molded in a variety of colors; green, blue, red, and black are standard. We can also color match if given a Pantone or RAL color number. Because of the specific level of moisture necessary for proper application and performance, Richco does not Rit-dye cable ties.

QTE
Quick Tie

NEW

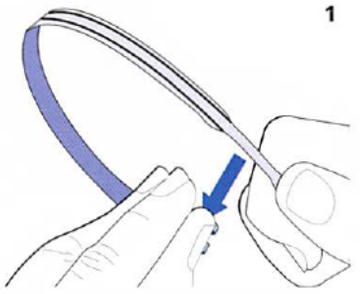

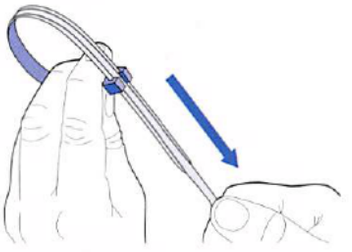

Installation Guide

1

While holding the large ribbed tail of the strap, the thin part of the strap is inserted into the gap of the "lock-head".

2

The strap is pulled through the «lock-head» and its serrations lock with the stepped pawl of the "lock-head".

Fig. 1

No Pre-Lock Feature

WIT-KIT-1
Cable Tie Kit

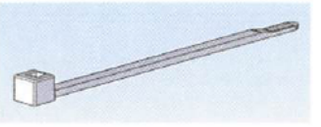

Features
- Great for installers, construction, and DIY projects
- The sturdy tackle box features an easy open latch, divided sections and can be used over and over!
- The ties and accessories come in a durable Nylon 6/6, RMS-01 in natural color
- Each kit includes 50 of the following parts:
  - 18lb. 4.5" long tie
  - 30lb. 5.75" long tie
  - 50lb. 8" long tie
  - 1x1" tie holder
  - .75x.75" tie holder
- See pages 108 & 124 for detailed drawings

HTE
Beaded Hanking Tie

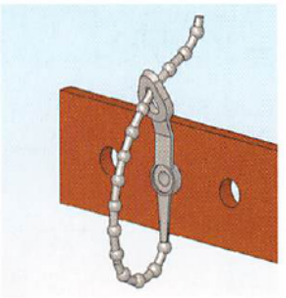

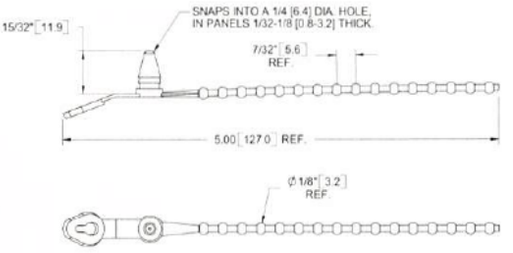

HTE-164-PE3L/1H	
Mat'l: Polyethylene, RMS-155 Color Natural	Standard Pack: 1,000 per bag

Features
- Installed by threading the beaded length through the first hole, two beads are securely locked into place by hand and the remainder of the tie is passed through the last hole for extra cable security
- Installation process can be reversed making the tie totally reusable
- Manufactured in a specially formulated Polyethylene that enables the tie to have a degree of elasticity, which prevents cable bundles being scratched

RKW
Kwik Wrap
Hook & Loop

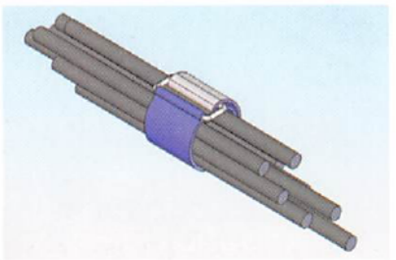

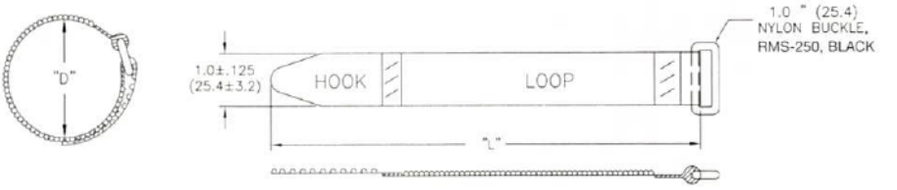

Features
- One piece design is reusable, adjustable, releasable and easy to install
- Will not cause damage to fiber because the ties cannot be overcinched
- Low profile, "soft" design is ideal in tight areas and will not get caught on other cables
- To mount, use part number FTH-27 found on page 123

Material: Low Density Polyethylene Hook, RMS-249 • Nylon Knit Loop, RMS-251 Color: Black			
Part No.	Standard Pack: 100 per bag		
	"A" ± 1/8 (3.2)	"W" ± .125 (3.2)	"L" ± 1/2 (12.7)

FTH-1-01
Flat Tie Holder, Screw Mount

- UL #E71558

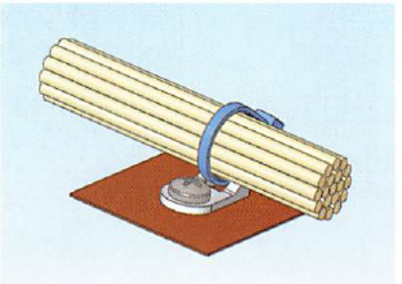

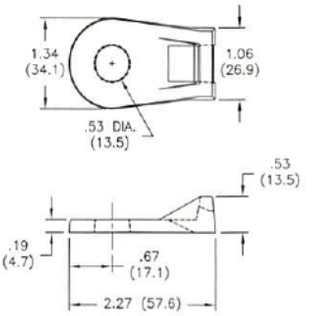

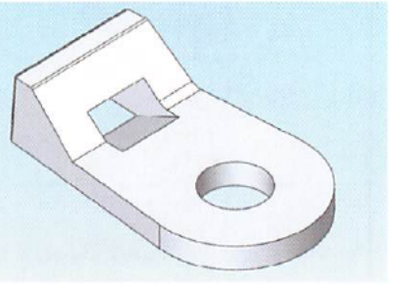

Features
- Low profile for use where space is limited
- Mounts with a #8-32 or M4 flat head screw
- Accepts WIT-18 thru -50 and QTE-18 thru -50 ties

Material: Nylon 6/6, RMS-01* • Color: Natural
Standard Pack: 100 (-C) or 1,000 (-M) per bag. Specify suffix when ordering.
*UL94 V0 material available by special order only. To order, replace -01 with -19.

FTH-17-8-01
Flat Tie Holder, Heavy Duty Screw Mount

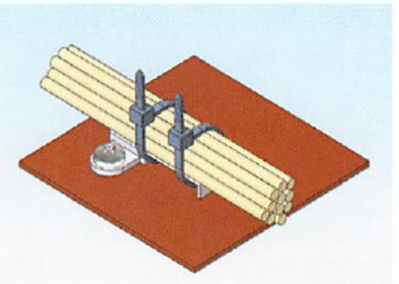

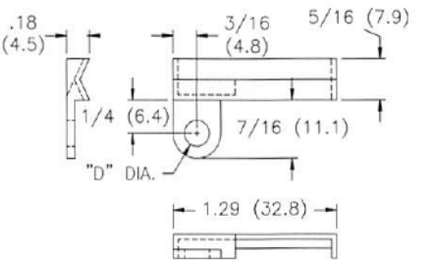

Features
- Used in heavy duty applications
- Accepts all WIT and QTE ties

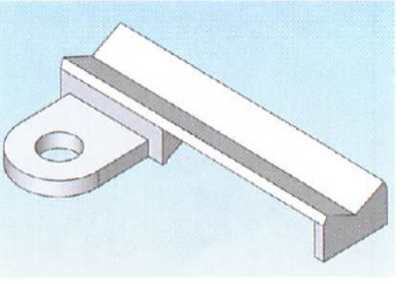

Material: Nylon 6/6, RMS-01* Color: Natural
Standard Pack: 100 per bag
*UL94 V0 material available by special order only. To order, replace -01 with -19.

FTH-11
Flat Tie Holder, Screw Mount

- UL #E71558

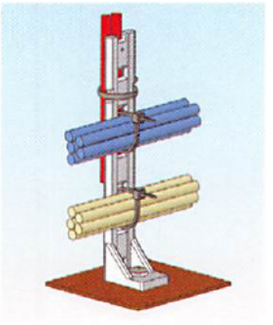

Features
- Harness lays snugly in V-groove
- Attach harness to holder with various cable ties
- Accepts WIT-18 thru -60 and QTE-18 thru -50 ties

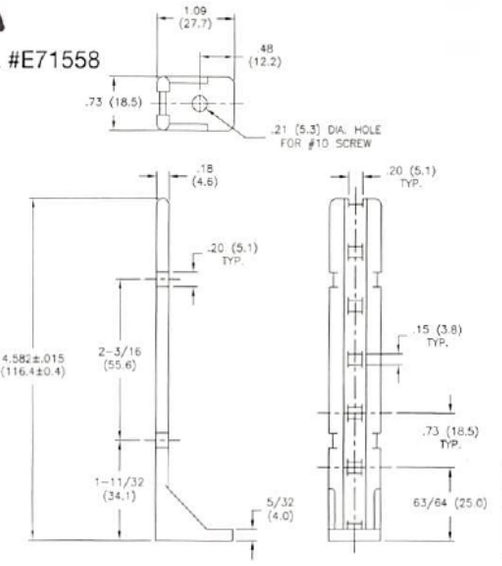

Material: Nylon 6/6, RMS-01* • Color: Natural		
Part No.	Standard Pack: 100 per Bag	
	"D" Dia.	Recommended Mounting Screw
FTH-11-8-01	.170 (4.3)	#8 or M4

FTH-30
Flat Tie Holder with Cable Tie Head

NEW

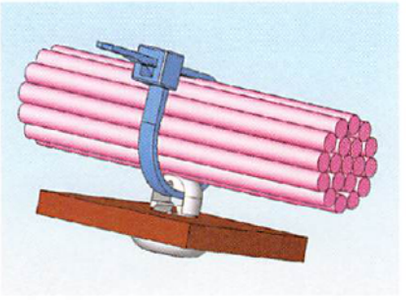

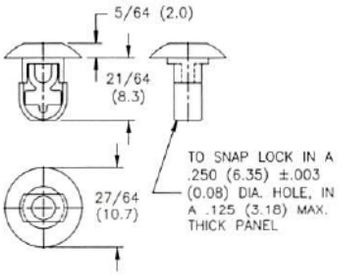

Features
- Accepts all WIT-18 ties
- Designed with teeth inside so that it can hold the end of a cable tie the same way as a cable tie head
- Good for application in which a bundle is already wrapped. Simply insert the end of the cable tie for secure hold

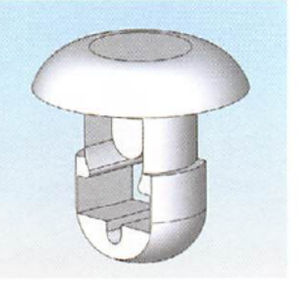

Mat'l: Nylon 6/6, RMS-01* Color: Natural	
Part No.	Standard Pack: 1,000 per bag Hole Dia. ± .003 (.08)
FTH-30-01	.187 (4.76)
*Parts are available in UL94 V0 material by special order only. To order, replace -01 with -19.	

FTH-9-01
Flat Tie Holder

- UL #E71558

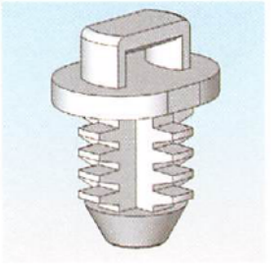

Features
- For use when both sides of the panel are accessible
- Accepts WIT-18 thru -60 and QTE-18 thru -50 ties

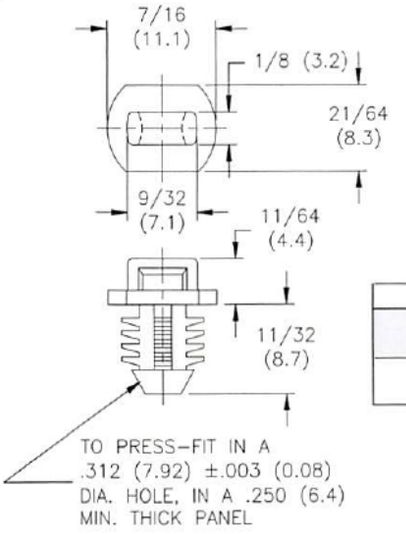

Material: Nylon 6/6, RMS-01* • Color: Natural
Standard Pack: 100 (-C) or 1,000 (-M) per bag. Specify suffix when ordering.
*UL94 V0 material available by special order only. To order, replace -01 with -19.

H

FTH-15-01
Flat Tie Holder, Blind Hole

- UL #E71558

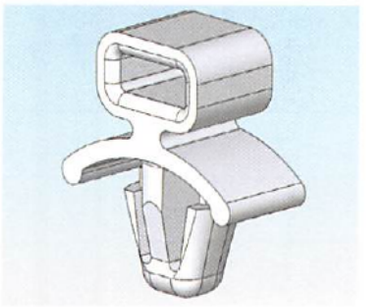

Features
- Flexible ribs lock into round, oval, threaded, punched, drilled blind holes
- Blunt tip allows maximum grip in blind holes with minimum protrusion in pass-through applications
- Accepts WIT-18 thru -40 and QTE-18 ties

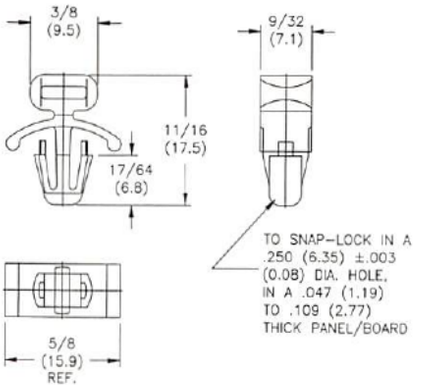

Material: Nylon 6/6, RMS-01* • Color: Natural
Standard Pack: 100 (-C) or 1,000 (-M) per bag. Specify suffix when ordering.
*UL94 V0 material available by special order only. To order, replace -01 with -19.

FTH-6-01
Flat Tie Holder, Arrowhead

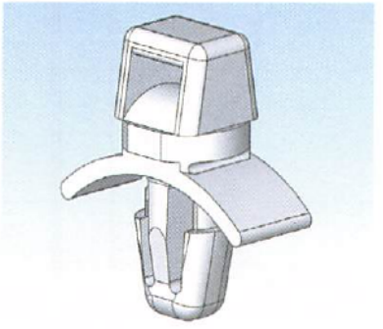

- UL #E71558

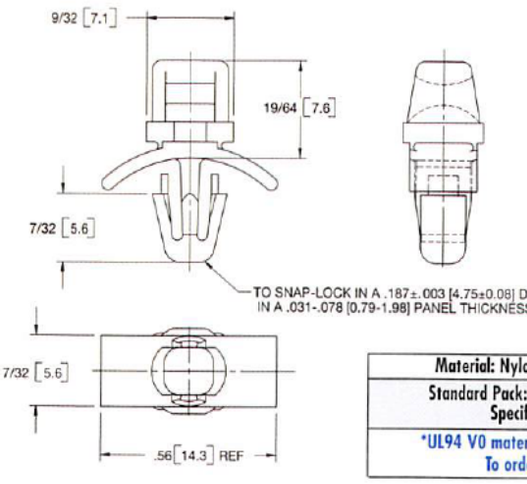

Features
- Inserted into drilled or punched holes
- Tension wings provide a tight fit to board
- Accepts WIT-18 thru -60 and QTE-18 thru -50 ties

Material: Nylon 6/6, RMS-01* • Color: Natural
Standard Pack: 100 (-C) or 1,000 (-M) per bag. Specify suffix when ordering.
*UL94 V0 material available by special order only. To order, replace -01 with -19.

FTH-3-01
Flat Tie Holder, Arrowhead

- UL #E71558

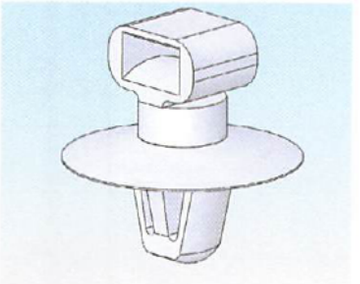

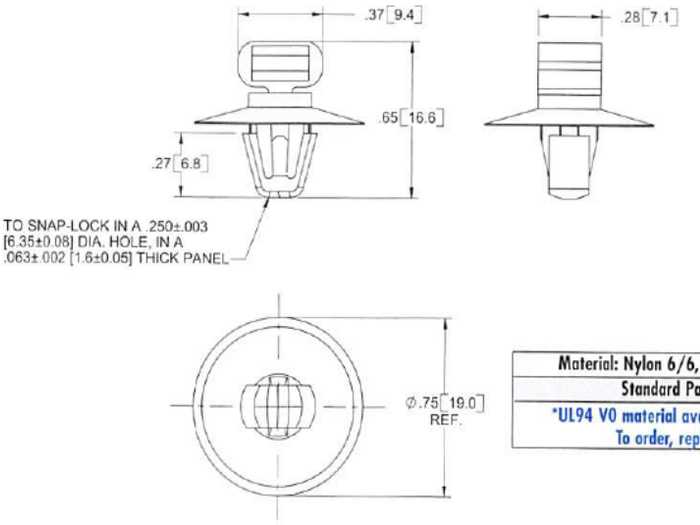

Features
- Accepts WIT-18 thru -40 and QTE-18 ties

Material: Nylon 6/6, RMS-01* • Color: Natural
Standard Pack: 100 (-C) or 1,000 (-M) per bag. Specify suffix when ordering.
*UL94 V0 material available by special order only. To order, replace -01 with -19.

H

FTH-29-01
Flat Tie Holder, Cupped Base

Features
- Cupped base gives extra tensioning to the board as well as providing splash-proof protection
- Accepts WIT-18 thru -60 and QTE-18 & -50 ties

Material: Nylon 6/6, RMS-01* • Color: Natural
Standard Pack: 1,000 per bag
*UL94 V0 material available by special order only. To order, replace -01 with -19.

General Features

Richco provides a comprehensive range of wire, cable and hose management products in both plastic and metal materials. Products are available with both fixed and adjustable holding diameters. Richco offers plastic clips, clamps, wire saddles and curly lock designs in addition to innovative products such as Cableater (SHR). These parts have a wide variety of mounting methods including self-adhesive tape, screws, rivets, blind hole, and push through arrowhead designs.

Typical Applications

- Automotive – Air bags, under hood routing and audio applications
- Consumer Electronics / Brown Goods – Audio and video equipment
- Office Equipment – Computers, computer peripherals, TV and associated products, and photocopiers
- White Goods – Microwaves, washing machines, ovens, food preparation equipment, refrigerators
- Telecommunications Equipment – Distribution racks and patch panels

Materials

Most of Richco's plastic clips and clamps are manufactured in Nylon 6/6, RMS-01 as a standard. Most of the parts that are manufactured in this material can also be ordered in various other materials by special order.

For more details on material properties please consult the materials data section of the catalog. Should you require a part to be manufactured in a different material which is not shown in the catalog, please contact your local Richco office to discuss your requirements.

Material	UL94 Flammability Rating	RoHS Compliance	RMS
Nylon 6/6	V2	Yes	01
Flame Retardant Nylon	V0	Yes	19

Adhesive Application Reminders

For those products in this section with an adhesive base/surface, please follow the application procedures found in the back of this catalog.

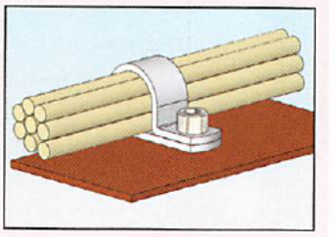

The bonding surfaces must be clean, uniform, dry and free of condensation. Do not use on fabric, course concrete, loose paint, or rough, loose surfaces.

Surface Preparation: For maximum performance, clean the mounting surfaces with a cleaning solvent such as a 50/50 mixture of isopropyl alcohol and water. Be sure to follow the solvent manufacturer's directions for use. Some surfaces may require a sealant or primer to achieve the desired bonding. Test the product on your actual application.

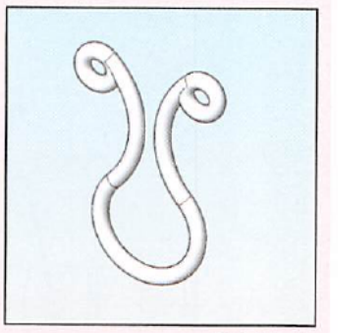

Application pressure: Remove the release liner being very careful not to touch the adhesive surface and then quickly and firmly rub the product into place. Firm pressure is needed to ensure full contact and to allow the adhesive to fully wet-out on the mating surfaces.

Dwell Time: The bond strength is affected by the substrate surface, application temperature and dwell time. At room temperature approximately half of the bond strength will be obtained within the first half hour with the majority of the strength achieved within 24 hours. Therefore, whenever possible wait 24 hours before applying a load.

SRCC-1
Strain Relief Clamp

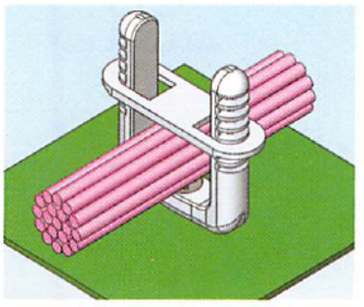

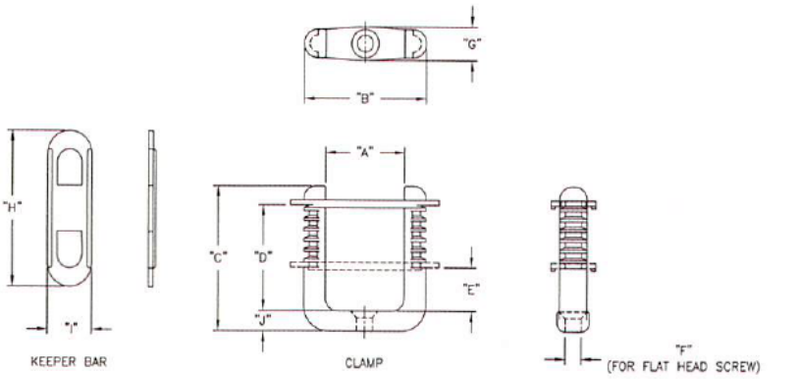

Features
- When maximum cable diameter is installed, provides light strain relief

Mat'l: Nylon 6/6, RMS-48 Color: Grey	
Standard Pack: 1,000 per bag	
Max. Cable Dia.	**Mounting Screws**
.177 (4.5)	M3 or #6

D
Two-Piece Locking Clamp

Features
- Mounts with a #8 or M4 flat-head machine screw or bolt
- Adjustable holding capacity
- Keeper bar is included separately and is removable for changes or repairs

Material: Nylon 6/6, RMS-01* • Color: Natural										
Standard Pack: 100 per bag										
Part No.	**"A" Ref.**	**"B" Ref.**	**"C" Ref.**	**"D" Ref.**	**"E" Ref.**	**"F" Ref.**	**"G" Ref.**	**"H" Ref.**	**"I" Ref.**	**"J" Ref.**

Standard Pack: 1,000 per bag
*UL94 V0 Nylon, RMS-19 available. To order, replace -01 with -19

MWSSEB/MWSSEBE

Side Entry Micro Wire Saddle on Adhesive Base

• UL #E71558

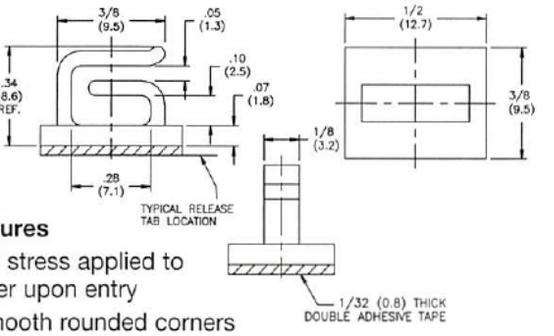

Features

- Low profile will not exceed standard I.C. height

Material: Nylon 6/6, RMS-01* Color: Natural		
Part No.	Standard Pack: 1,000 per bag "A"	Adhesive Material
MWSSEB-1-01A-RT	3/8 (9.5)	RMS-15
MWSSEBE-1-01A-RT	1/2 (12.7)	
*UL94 V0 Nylon, RMS-19 available. To order, replace -01 with -19.		

MOFNSB

Mini Optical Fiber Network Saddle on Adhesive Base

Features

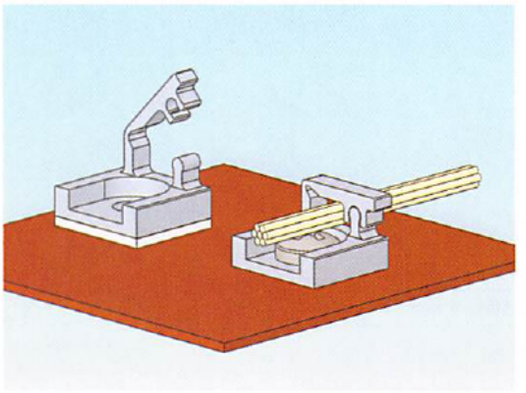

- No stress applied to fiber upon entry
- Smooth rounded corners

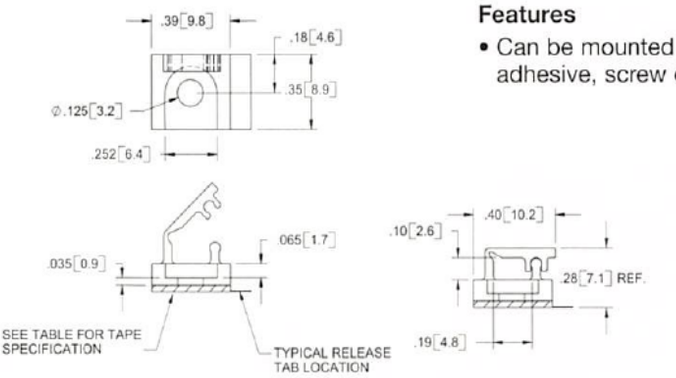

Adhesive Back: RMS-15	
Standard Pack: 1,000 per bag	
Part No.	
Mat'l: Nylon 6/6, RMS-01 Color: Natural	Mat'l: UL94 V0 Nylon, 6/6 RMS-19 Color: Natural

WS-SE-B
Side Entry Wire Saddle on Adhesive Base

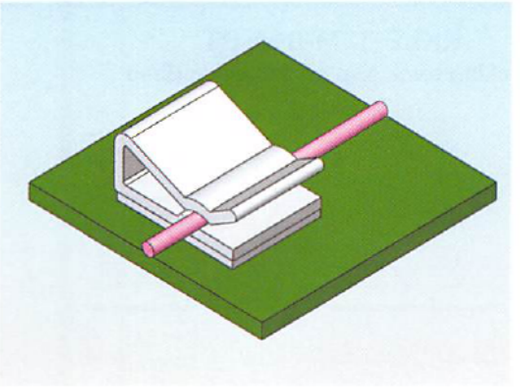

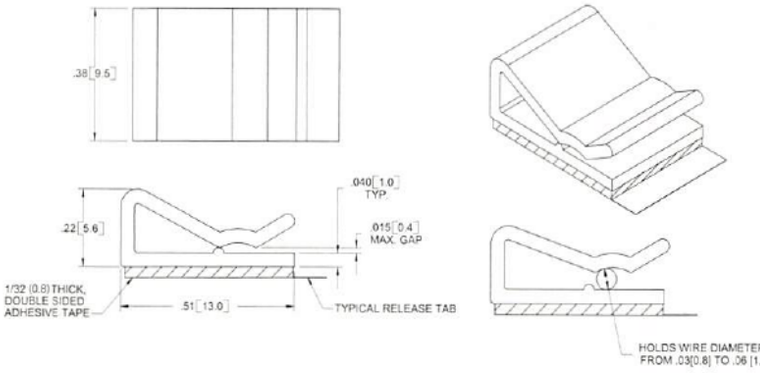

• UL #E71558

Features
- Adheres to any clean, smooth, hard surface
- Routes wires vertically and horizontally

Material: Nylon 6/6, RMS-01* • Adhesive Back: RMS-15 Color: Natural
Standard Pack: 1,000 per bag
*UL94 V0 Nylon, RMS-19 available by special order. To order replace -01 with -19.

SWC-0
Single Wire Clip on Adhesive Base

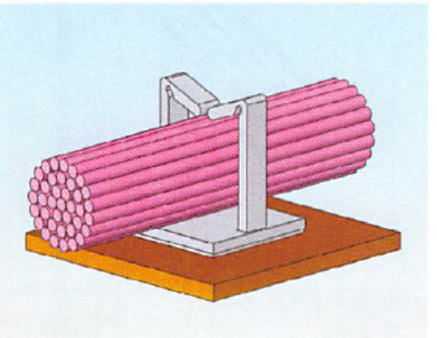

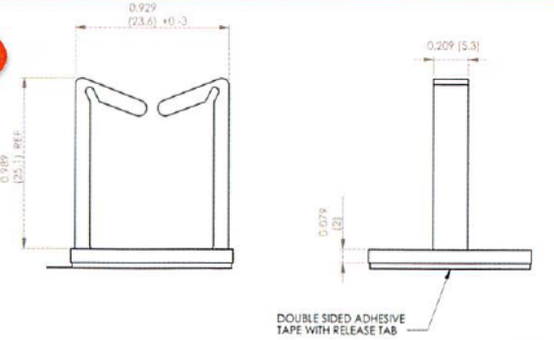

Mat'l: Noryl, RMS-05; Adhesive back, RMS-15 • Color: White
Standard Pack: 1,000 per bag

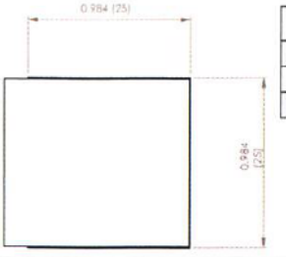

Features
- Ideal for routing single cable diameters of .03-.06 (0.8-1.5)
- To insert or remove cable, simply lift the tip of the clamp

WWSB
Wire Saddle on Adhesive Base

NEW

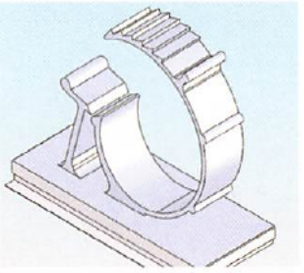

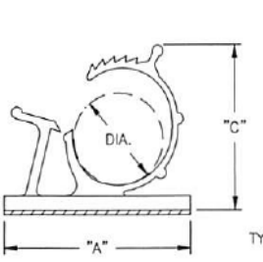

WWSB-3-148A-RT

STC
Steel Tension Clamp

Features
- Excellent resistance to abrasion, weathering, corrosion, and temperature extremes
- Installed with a #6 or M3 screw or rivet

Fig. 1

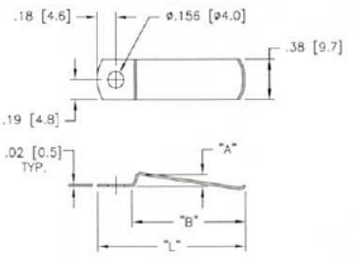

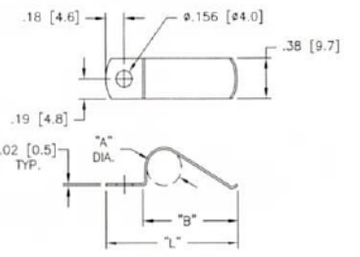

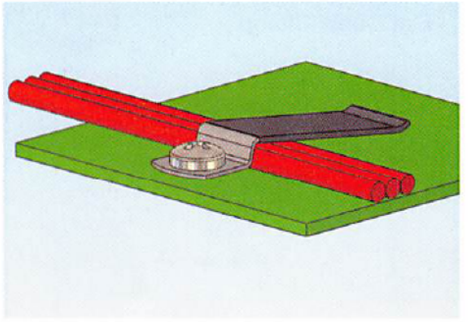

Fig. 2

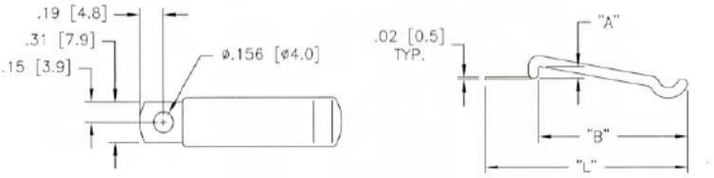

Mat'l: 1050 Spring Steel, RMS-206 • Finish: Black Oxide and Oil, RMS-216 • Color: Black Standard Pack: 1,000 per bag

STCV
Vinyl Coated Steel Tension Clamp

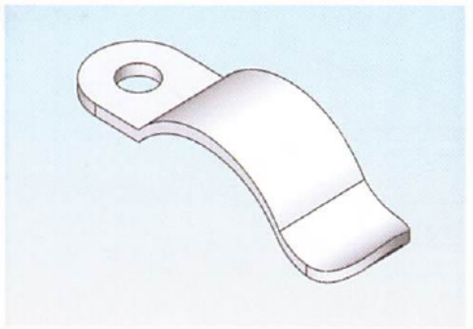

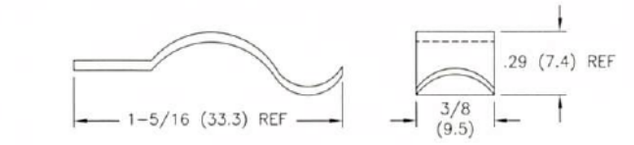

Features
- Vinyl coating protects and insulates wires and components
- Installed with a #6 or M3 screw or rivet

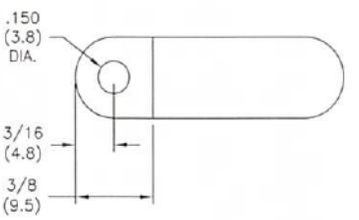

Mat'l: Stainless Steel SAE 30301, RMS-197 • Color: Black • Coating: Plastisol Vinyl, RMS-196 - 1/32 (0.79) Nom. Thk. Standard Pack: 1,000 per bag			
Part No.	**"L"**	**"A"**	**"B"**
STCV-1	1.61 (40.9)	.09 (2.3)	1.19 (30.2)
STCV-2	2.63 (66.8)		2.24 (56.9)
STCV-3	3.61 (91.7)		3.19 (81)
STCV-4	4.61 (117.1)		4.19 (106.4)

TC-30-1
Tension Clamp

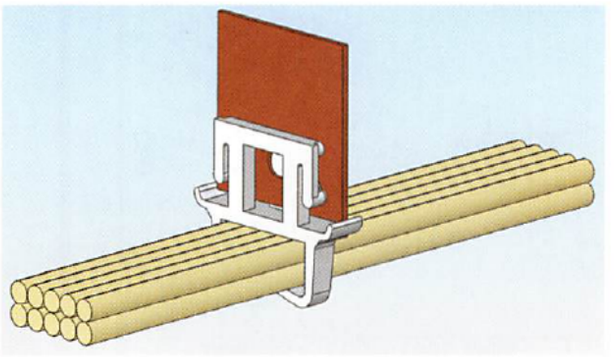

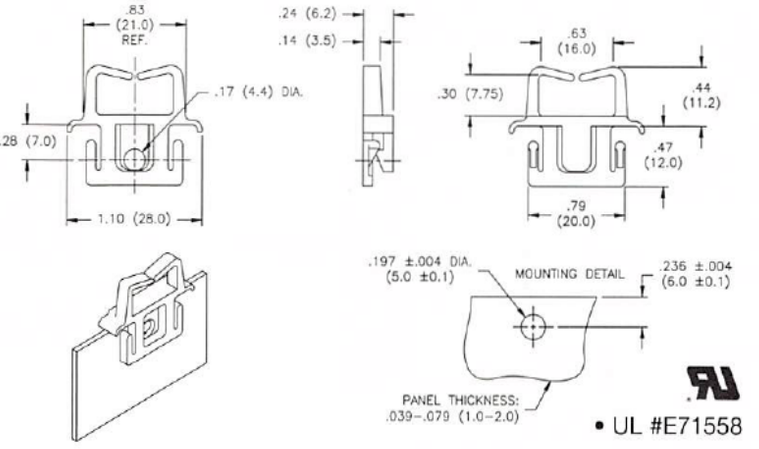

Features
- Holds up to 3/8 (9.5) diameter
- Mounts with a #6 or M3 screw or rivet
- Flexible enough that the load can be removed without removing the clip

Material: Acetal, RMS-14* Color: Natural or Black, specify when ordering. To order black, use Part No. TC-30-1BK Standard Pack: 1,000 per bag *Nylon 6/6, RMS-01 available by special order

EHWSE-1-01
Edge Holding Wire Saddle

• UL #E71558

Features
- Straddles the edge of a chassis or PCB
- Mounts vertically or horizontally

Material: Nylon 6/6, RMS-01* • Color: Natural
Standard Pack: 500 per bag
*UL94 V0 Nylon, RMS-19 available by special order. To order, replace -01 with -19.

EWSE-8.1/12.8
Edge Holding Wire Saddle

• UL #E71558

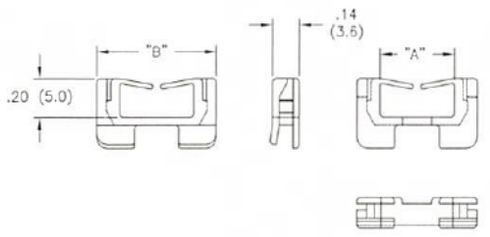

Fig. 1

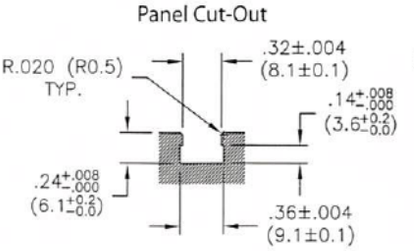

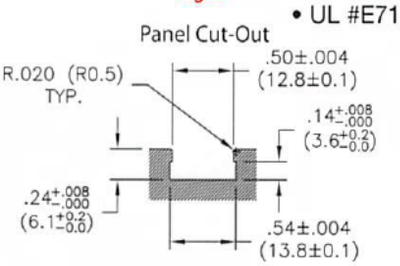

Fig. 2

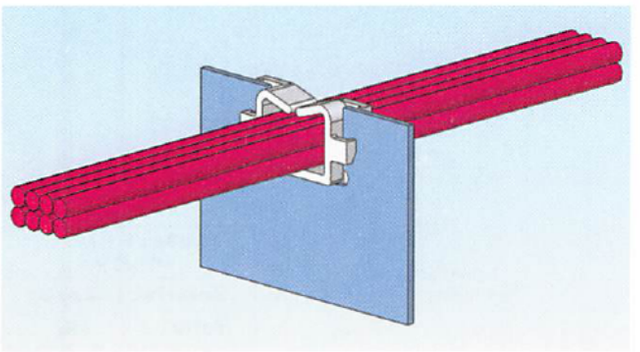

Panel Thickness: .031 - .063 (0.8 - 1.6)

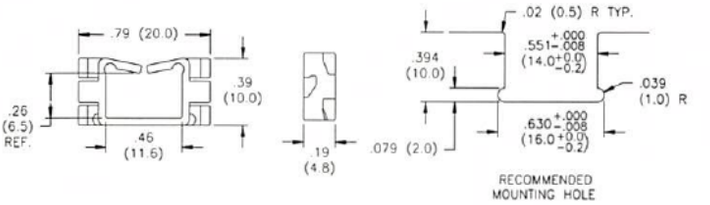

Features
- Snaps into cutout on the chassis
- Routes cables and covers edges of cutout

Material: Nylon 6/6, RMS-01* • Color: Natural			
Part No.	Standard Pack: 1,000 per bag		
	Dim. "A"	Dim. "B"	Fig.

EWSJS-1-01
Edge Wire Saddle

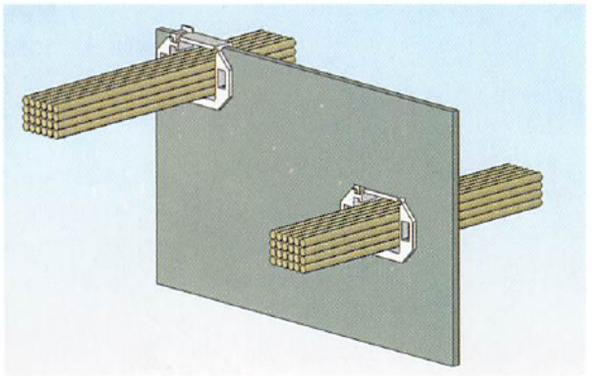

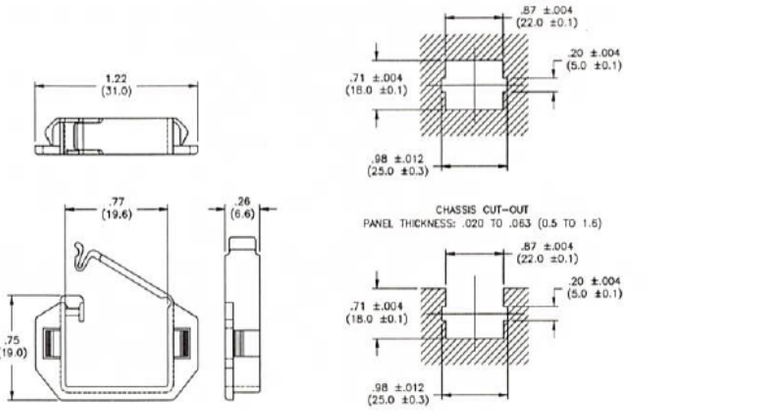

Material: Nylon 6/6, RMS-01* • Color: Natural
Standard Pack: 1,000 per bag
*UL94 V0 Nylon, RMS-19 available by special order. To order, replace -01 with -19.

Features

- Can be installed in a mounting slot-edge or through hole

HEWSE-22-01
Hinged Edge Wire Saddle

Material: Nylon 6/6, RMS-01* • Color: Natural
Standard Pack: 1,000 per bag
*UL94 V0 Nylon, RMS-19 available by special order. To order, replace -01 with -19.

Features

- Routes cables and softens edges of cutout
- Hinged feature allows the user to retrofit it into pre-existing applications

SHR/CAT

Slit Harness Wrap with Installation Tool

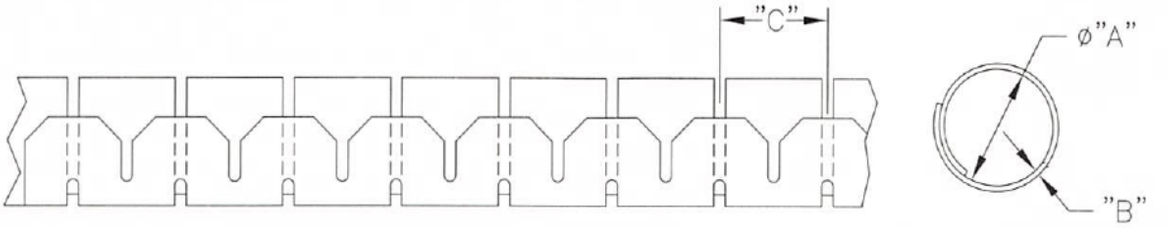

• UL #E71558

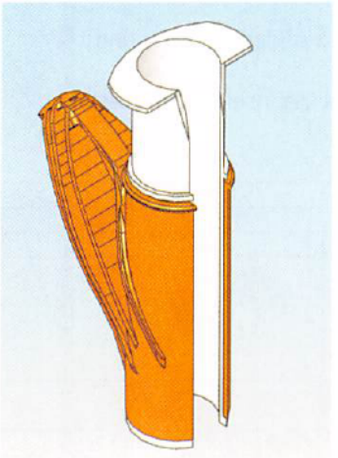

Features

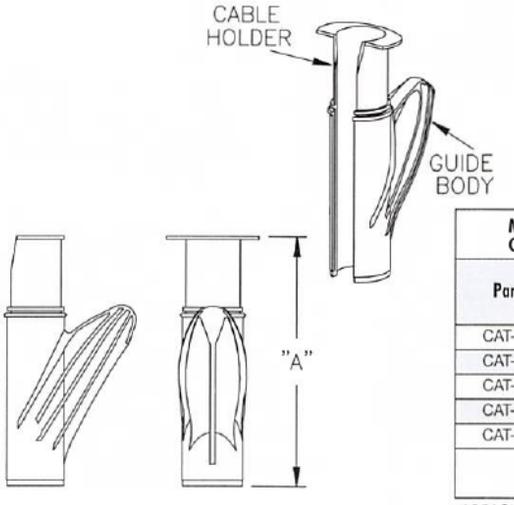

- Easy to use. Simply insert the wires into the tool (sold separately), feed the wrap over the horn of the tool and zip the wires into a neat bundle
- Allows easy breakout of wires
- Provides abrasion protection

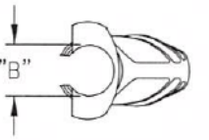

Material: See Chart • Color: See Chart

RX
Richflex Flexible Channel

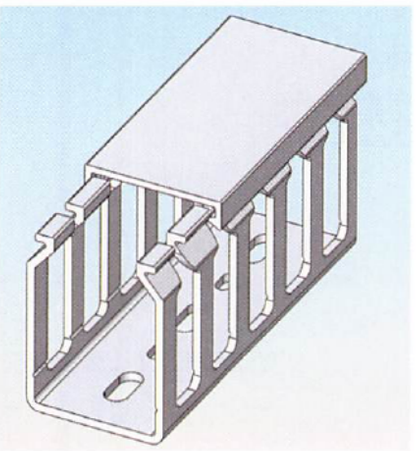

Features

- Mounted with adhesive or with a screw
- Flexible base is useful in routing wires from the back of control panels and sidewalls to components mounted on control panel doors
- Flexible ribs allow the wires or fibers to be easily "pushed" and "pulled" into and out of the channel

Material: Polypropylene, RMS-177 • Adhesive Back, RMS-93 • Color: Grey • Std. Length: 19.7 (500)

Part No.	Ext. Dim. "A" x "A" in (mm)	Int. Section in² (mm²)	Standard Packing (pcs)	Mounting Method
RX1313-0	.492 x .492 (12.5 x 12.5)	.171 (110)	112	Screw
RX1313-4				Adhesive
RX1616-0	.630 x .630 (16 x 16)	.287 (185)	84	Screw

RX3030-0	1.181 x 1.181 (30 x 30)	1.116 (720)	50	Screw
RX3030-4				Adhesive
RX4040-0	1.575 x 1.575 (40 x 40)	2.046 (1320)	50	Screw
RX4040-4				Adhesive
RX5050-0	1.969 x 1.969 (50 x 50)	3.162 (2040)	32	Screw
RX5050-4				Adhesive

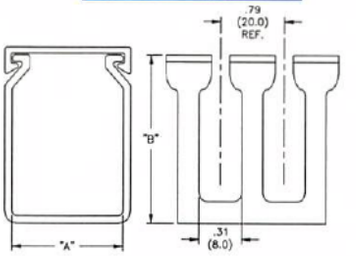

SRWD/SRWDN
Slotted Richco Wiring Duct

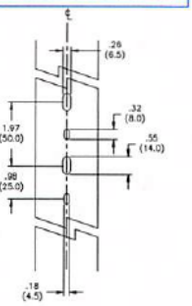

Features

- Used for general purpose control panel wiring and to route and protect wiring in communication closets
- Holds breakout wires while providing flexibility for adding or removing wires
- Non-slip cover is easy to use and is included with the base
- Parts are 6-1/2' (1.98M) long
- Fingers are scored for easy breakout of wires

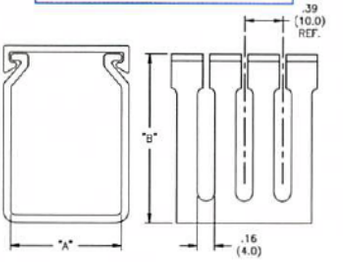

SRWD-WIDE SLOT

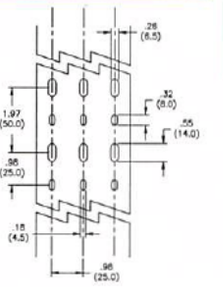

MOUNTING STYLE #1

SRWDN-NARROW SLOT

MOUNTING STYLE #2

CRTC-1
CRT Clamp

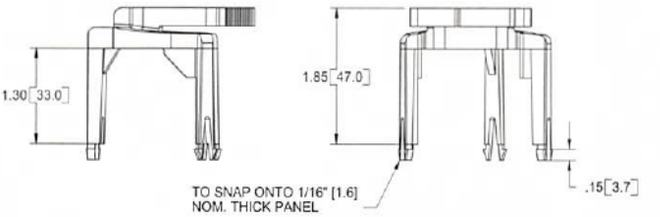

Patent 7209345

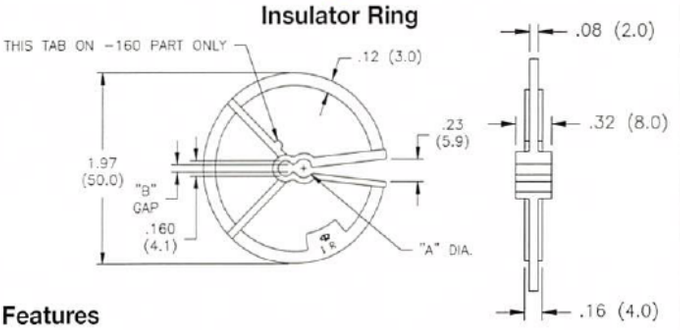

PANEL HOLE PATTERN - TOP SIDE

Features
- Used to connect a television's CRT to the circuit board
- Allows the user to easily tighten the clamp portion without affecting the leg positions of the circuit board
- Reduces assembly time

Mat'l: PPE + PS, RMS-130 Color: Black
Standard Pack: 100 per bag

IR
Insulator Ring

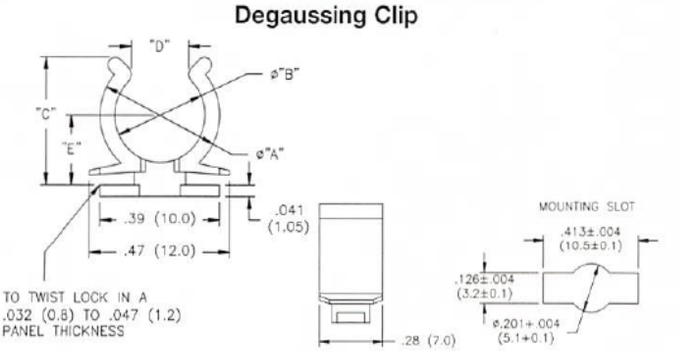

Features
- Keeps high voltage electrical wires away from other components
- Flexible leg design eases wire insertion
- Inner legs surrounding wire allow for a positive fit

NOTE: All dimensions are for reference only

Mat'l: Nylon 6/6, RMS-01 Color: Natural	Mat'l: UL94 V0 Nylon, 6/6, RMS-19 Color: Natural	Standard Pack: 500 per bag

DGCE-12-151
Conductive Degaussing Coil Clamp

Patent Pending

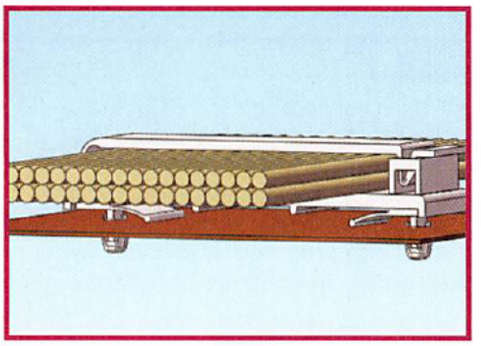

Features
- Aids in connecting the CRT from the ground of the television tube to the chassis for grounding purposes
- Provides better picture quality through the clips ability to discharge electrical emittance produced by cathode rays
- Eliminates need of metal connection grids

Material: Conductive Polypropylene, RMS-151* Color: Black
Standard Pack: 100 per bag
*Available in non-conductive material, RMS-150, by special order. To order, replace the -151 with -150

General Features

Richco has an extensive range of fiber optic products which meet the requirements of telecom and datacom applications at all levels of fiber optic equipment. Our products provide fiber optic storage, protection, transportation, and installation.

Optical fiber is the future for communications into the 21st century. However, optical fibers are vulnerable, particularly in application areas where fiber breakout is required. It is here that transient losses and dB loss can occur and cause signal failure and data errors, which is costly.

Richco's fiber management and protection products have been designed to eliminate the potential hazards such as macro and micro bends resulting from the mishandling of optical fibers during installation, maintenance and upgrade.

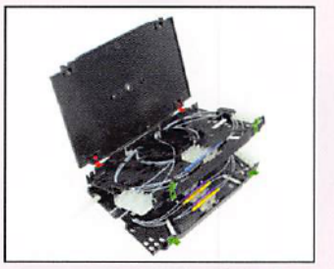

Optical Fiber Bend Limiting Tubing

OFBLT offers high fiber protection by resisting crushing, kinking and limits bends to a 30mm bend radius. OFBLT offers superior fiber management for patching, reconfiguration and fiber protection during rough and repeated handling.

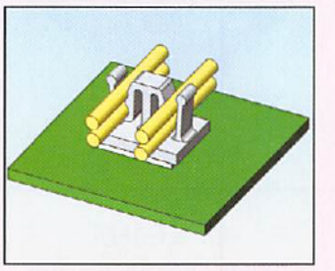

Typical Applications

- Automotive - POF (polymer optical fiber) harnesses for infotainment systems such as M.O.S.T™ (Media Oriented System Transport)
- Telecom and Datacom - PCB level - Signal amplification modules, transponder/receiver cards, multiplexing equipment etc.
- Telecom and Datacom - Rack and patch panels, FTTH/FTTB (Fiber To The Home/Business) curb-side racks, buried primary and secondary nodes.
- Mobile Base Station - Antenna and transmission equipment
- Military - Radar and communications equipment

OFST-1-L

Optical Fiber Splice Tray Lid

Features

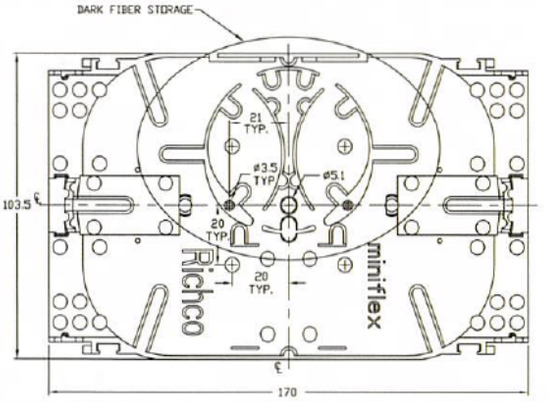

- Stackable to any number of trays using OFSTH-1 hinges found on page 187
- Inter-tray fiber routing possible through slots along one of the long sides
- OFSTH color coded hinges indicate side of tray to open from
- Can be used with OFSH splice holders, OFSP splice protectors and OFBLT bend limiting tubing
- To order complete kit, use part number OFST-A-P-1, see below for description

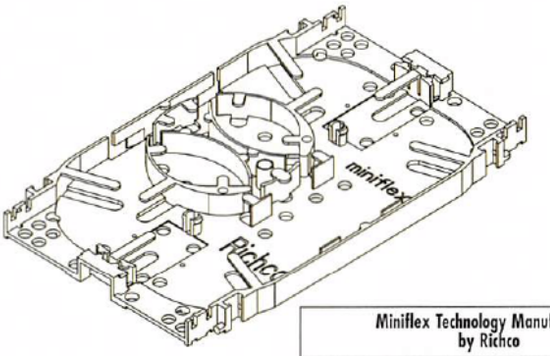

Miniflex Technology manufactured by Richco
Material: UL94 V0 ABS, RMS-105; Color: Black
Standard Pack: 10 per bag
OFST-1-L
All dimensions in millimeters

OFST-1-M

Optical Fiber Splice Tray
Managed with Radius Control and Dark Fiber Storage

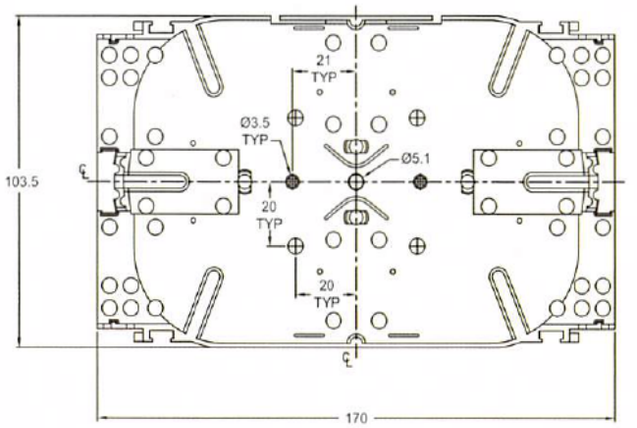

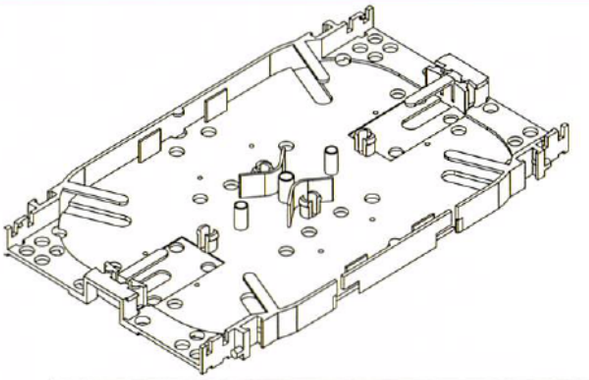

Miniflex Technology Manufactured by Richco	
Material: Glass-Filled UL94 V0 Nylon 6/6, RMS-104 Color: Black	
Standard Pack: 10 per bag	
Part No.	**Tray Thickness**
OFST-1-M	10
All Dimensions in Millimeters	

OFST-1-P

Optical Fiber Splice Tray
Plain with Basic Storage Facility

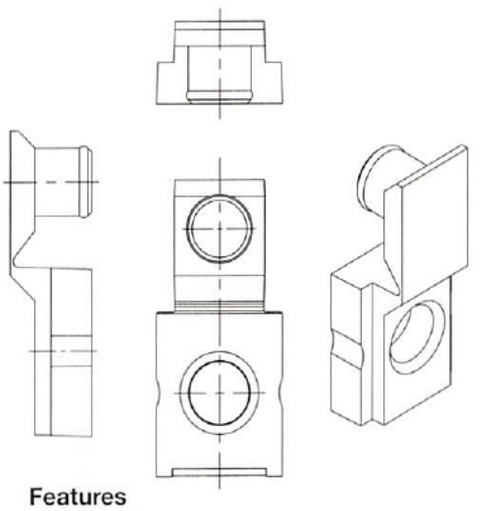

Miniflex Technology Manufactured by Richco		
Material: Glass-Filled UL94 V0 Nylon 6/6, RMS-104 Color: Black		
Part No.	**Tray Thickness**	**Standard Pack**
OFST-1-P	10	10
OFST-A-P-1	10	Kit Includes: 2 Red, 2 Green OFTSH-1 Hinges; 1 OFST-1-L; 1 OFST-1-P
All Dimensions in Millimeters

OFSTH-1
Optical Fiber Splice Tray Hinge

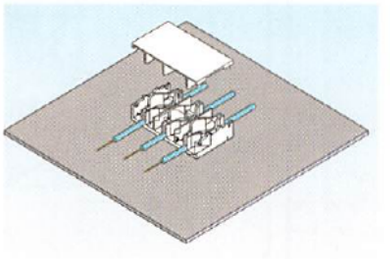

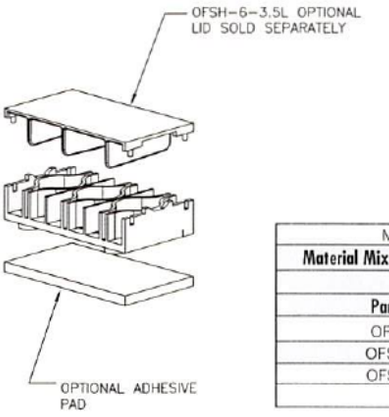

Features

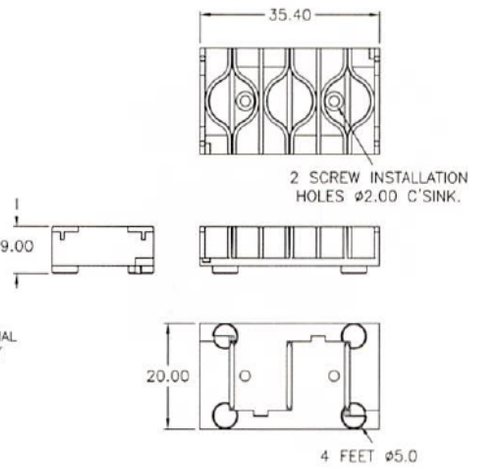

- Used with OFST-1-X series on previous page

Miniflex Technology manufactured by Richco	
Material Mix: Polypropylene, RMS-150; TPE, RMS-182	
Standard Pack: 20 per bag	
Part Number	**Color**
OFSTH-1-RED	Red
OFSTH-1-GRN	Green

OFSH-6-3.5
Optical Fiber Splice Holder

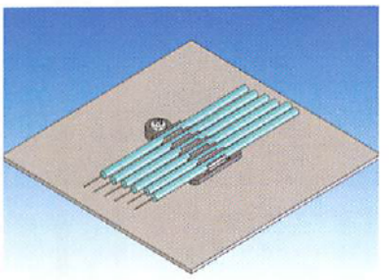

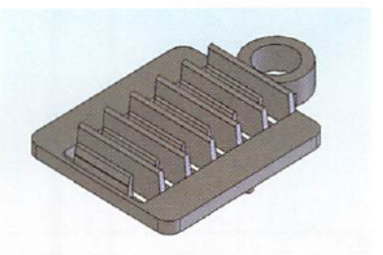

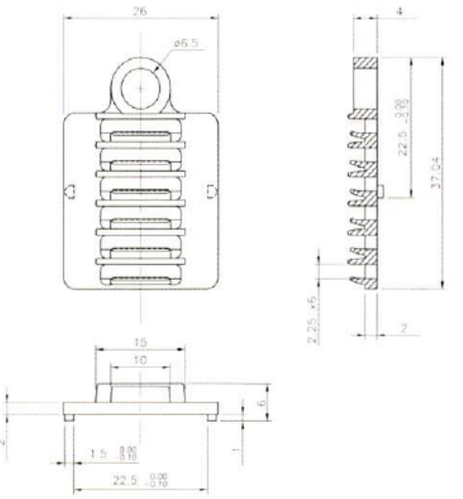

Miniflex Technology manufactured by Richco	
Material Mix: Polypropylene, RMS-150; TPE, RMS-182; Color: Natural	
Standard Pack: 10 per bag	
Part Number	**Adhesive**
OFSH-6-3.5	Without Adhesive
OFSH-6-3.5A	With Adhesive
OFSH-6-3.5L	Lid, Without Adhesive
All dimensions in millimeters	

OFSH-T
Splice Holder

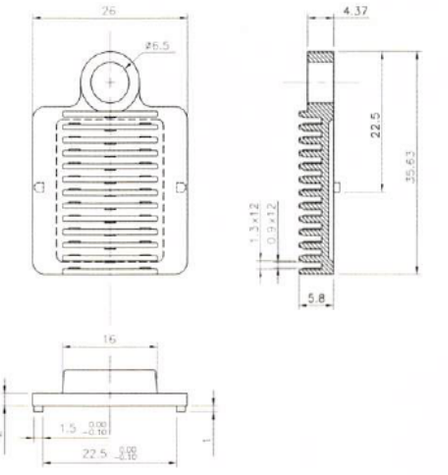

OFSH-T-6-01BLK

OFSH-T-12-01BLK

Features

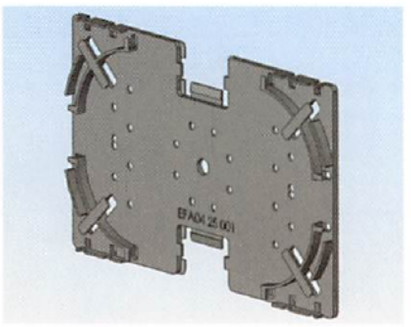

- OFSH-T-6 designed to hold up to 6 x 3mm fiber or components, i.e. couplers, splice protectors (OFSP on page 191), and WDM's
- OFSH-T-12 designed to hold up to 12 crimp splice protectors
- OFSH-T Splice Holders can be used with OFST Series Splice Trays

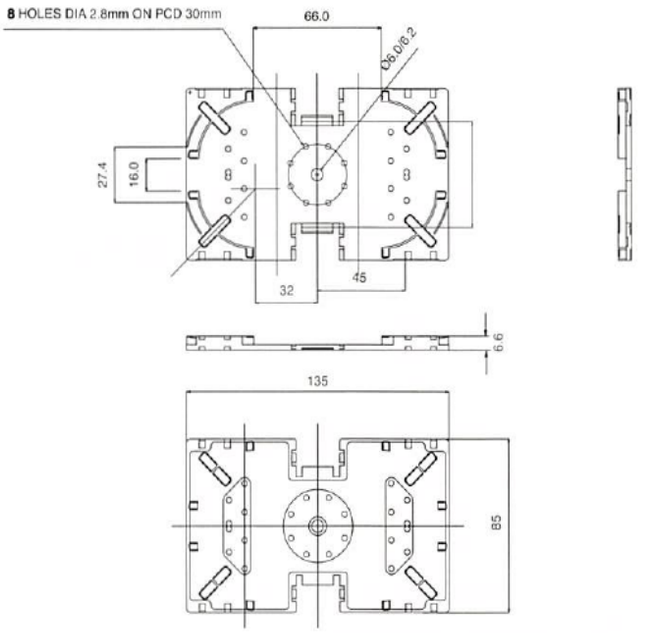

Color: Black; Standard Pack: 100 per bag	
Part Number	**Material**
OFSH-T-6-01BLK	Nylon 6/6, RMS-01
OFSH-T-12-01BLK	
OFSH-T-6-19BLK	UL94 V0 Nylon 6/6, RMS-19
OFSH-T-12-19BLK	
All dimensions in millimeters

EFA04 25 001
Array Tray

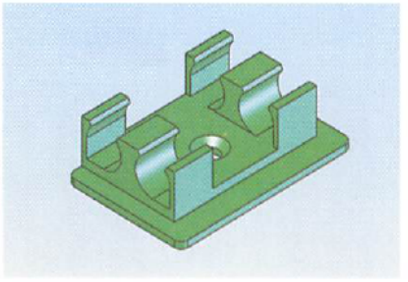

Features

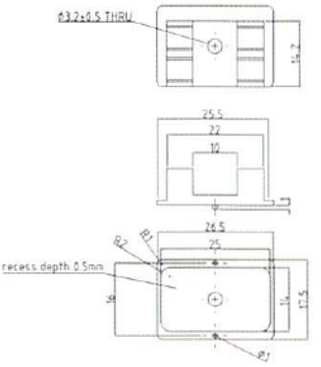

- Molded-in features maintain bend radius at 30mm
- Accepts Isolator Clips EFA03 61, 63 and 64 001 (shown below) for holding splicing components
- Accepts 16-way Fiber Clip EFA04 06 and 08 001 (page 189) broken into a 4-way segment for holding splicing components

A Europlus/Richco Product
Material: UL94 V0 Nylon 6, RMS-178; Color: Black
Standard Pack: 50 per bag
EFA04 25 001
Parts are available by special order only. 500 piece minimum.
All dimensions in millimeters

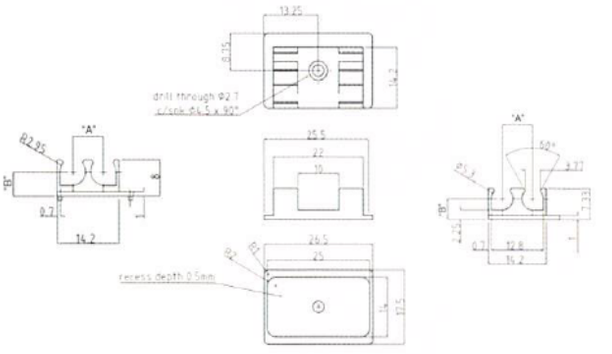

EFA04 6X
Isolator Clips

EFA04 61 001

EFA04 63/64 001

Features

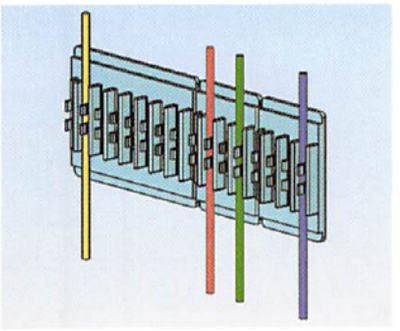

- Designed to hold 6mm, 5.5mm or 4.5mm diameter components
- Designed for use in the Array Tray EFA04 25 001 (shown above)
- Can be screw or rivet mounted or mounted with self adhesive pads, please see Section C
- EFA04 61 001 has anti-rotation pins to securely mount when using screw or rivet

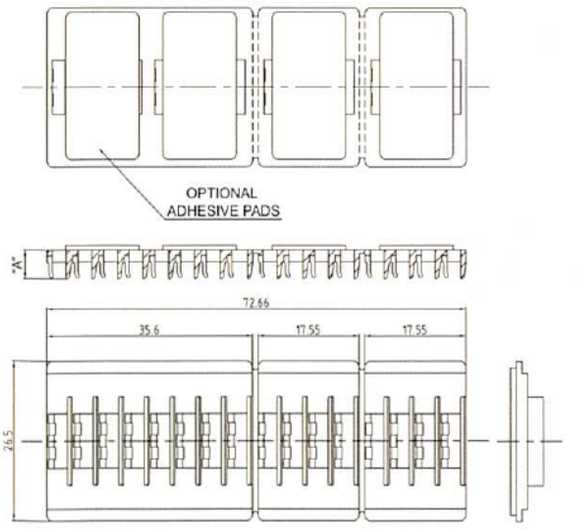

A Europlus/Richco Product				
Material: UL94 V0 Nylon 6, RMS-178				
Standard Pack: 100 per bag

EFA04 06/EFA04 08
16-Way Fiber Clips

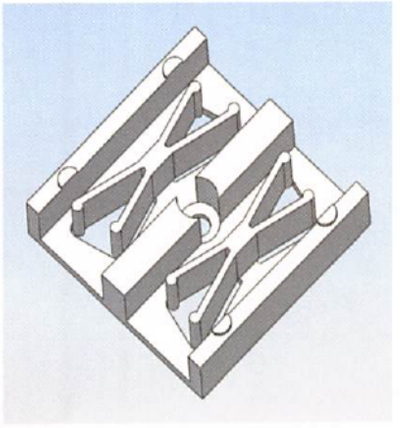

Features

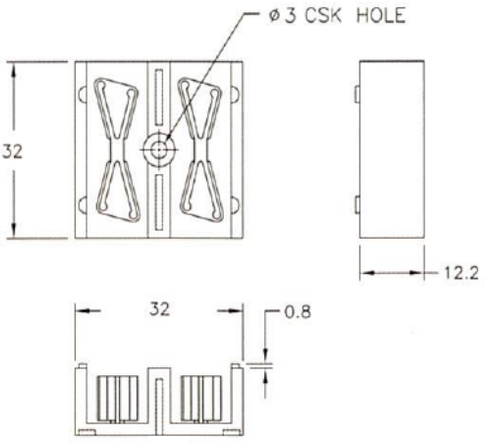

- Can be broken apart to form 3 individual clips holding 4, 4 and 8 components
- A broken apart 4-way can be used in the Array Tray EFA04 25 001 (page 188)
- EFA04 06 designed to hold 3mm diameter fiber or components, i.e. couplers, splice protectors (OFSP on page 191), and WDM's
- EFA04 08 designed to hold 2mm diameter fiber or components, i.e. couplers, splice protectors (OFSP on page 191), and WDM's

EFA04 08 ASS	16-way 2mm fiber clip with adhesive pad		
All dimensions in millimeters			

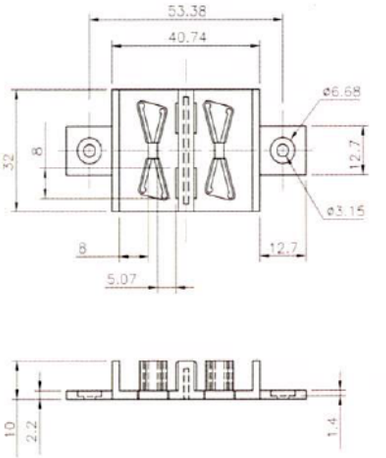

OFSH-4
Optical Fiber Splice Holder

OFSH-4-1

OFSH-4-2

Features

- Holds 12 x 2.7mm or 4 x 4.2mm splices
- Ability to stack with M3 screws or rivets, see Section C
- Secures optical splices in an efficient and compact manner while still maintaining integrity
- Fastens with either a self-adhesive pad, provided, or via a screw or rivet

Features

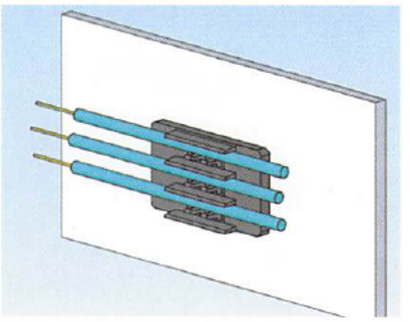

- Holds 2 splices from Ø3.8 - 5.72mm and 2 from Ø5.72 - Ø8mm
- Mounts with 2 SRV0-3055 snap rivets, see page 52

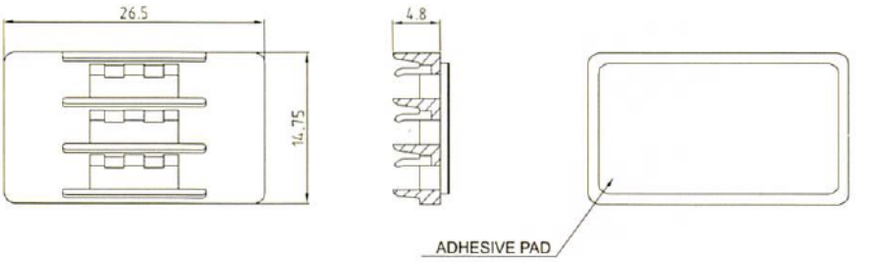

Color: Natural; Standard Pack: 50 per bag

OFSP/ROFSP

Optical Fiber & Ribbon Fiber Splice Protector

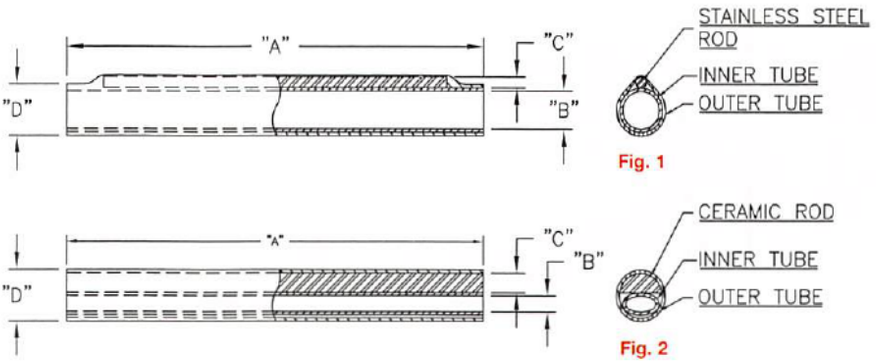

Features

- Splice region becomes mechanically and environmentally protected
- ROFSP for ribbon or flat fiber splice protection, can be used with EFA04 61 isolator clip, see page 188
- OFSP-08 for space saving miniature splice protection
- Custom lengths available by special order

Description

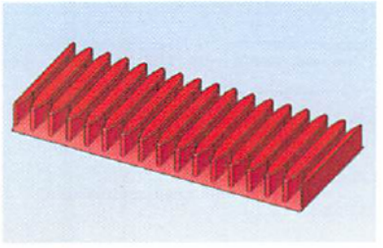

Richco's Optical Fiber Splice Protector provides excellent protection and support for fiber optic heat fusion splices. The OFSP is assembled with a stainless steel backbone and a meltable inner liner. When installed over a heat fusion splice, all insulation and mechanical properties are restored while creating an impervious barrier around the splice region

Material: Outer Tube - Heatshrink 3:1 Ratio Cross-Linked Modified Polyolefin; INNER TUBE - Modified PE Copolymer Adhesive; ROD - Stainless Spring Steel to BS & ASA 2056 Type 302 S 26 • Color: Clear

OFFM

Optical Fiber Flat Manifold

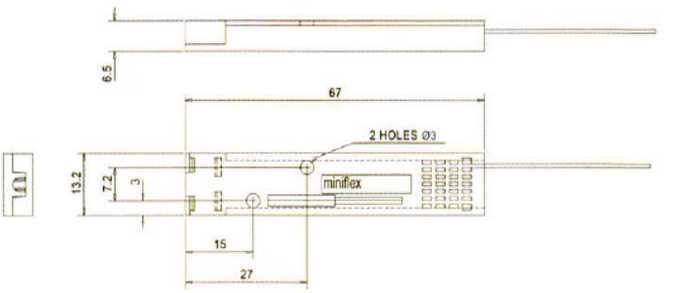

Miniflex Technology manufactured by Richco - Patented	
Material: Glass-filled PBT UL94 V0; Color: Charcoal Gray	
Standard Pack: 10 per bag	
Part No.	**Supplied With**
OFFM-4-1	Manifold and 4 PTFE tubes, 1 meter long each
OFFM-6-1	Manifold and 6 PTFE tubes, 1 meter long each
OFFM-8-1	Manifold and 8 PTFE tubes, 1 meter long each
OFFM-8-2	Manifold and 8 PTFE tubes, 2 meters long each
OFFM-1-12	Bag of 10 manifolds and 10 coils, 12m per coil

Material: PTFE UL94 V0; Color: Natural; RMS-291
Standard Pack: 120 meter coil per bag
PTFE-1-120-NAT
Other colors are available by special order.

Features

- Maximum of 12 fibers
- Ability to stack
- Fiber threading guide system in lid
- Can be terminated to OFBLT protective tubing (see page 203) or standard cable element tubing.
- Silicone sleeve is provided to give added grip to cope with variations in element tube diameters
- A range of flanged termination crimp kits (OFTK Series) are available to give a strong, mechanical anchorage for common size element/blown fiber tubing and OFBLT, contact your local Richco office for further information

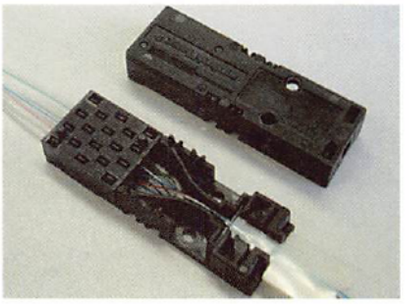

Description

The Optical Fiber Flat Manifold has the ability to breakout and protect primary fiber from cable element tubing, ribbon fiber or a blown fiber unit. The input fiber tube is secured by a clamping system molded into the product. Each output fiber is protected in a 900 µm PTFE tube, also secured by a molded detail. Threading the fiber is achieved by the effective guide provided in the snap-on lid. Assembly of the manifold is made easy by a simple "lay-through" design, which prevents fiber kinking or breakage.

Installing fiber is easy, clean, neat and extremely compact while still controlling all bend radii. Mounts with the self-adhesive pad provided or by the integral screw holes, which give the ability to stack.

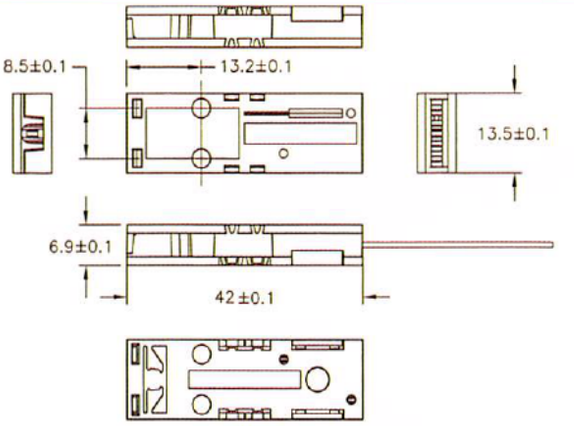

OFFM-MK2

Optical Fiber Flat Manifold

Features

- Maximum of 12 fibers
- Ability to stack
- Fiber threading guide system in lid
- Can be terminated to OFBLT protective tubing (see page 203) or standard cable element tubing.
- Silicone sleeve is provided to give added grip to cope with variations in element tube diameters
- A range of flanged termination crimp kits (OFTK Series) are available to give a strong, mechanical anchorage for common size element/blown fiber tubing and OFBLT, contact your local Richco office for details
- Enables pre-assembly of PTFE tubes in complete pack, and alternative method of fiber feed/assembly
- Supplied with adhesive ribbon fiber adapter to accept ribbon fiber
- Molded detail that secures 900 micron PTFE tubing is separate from body and cover for ease of handling

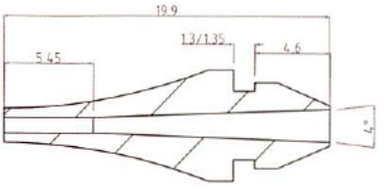

Miniflex Technology manufactured by Richco	
Material: 6% Glass Reinforced PBT UL94 V0; Color: Charcoal Gray	
Standard Pack: 10 per bag

OFCC/OFCG
Optical Fiber Coiling Clip

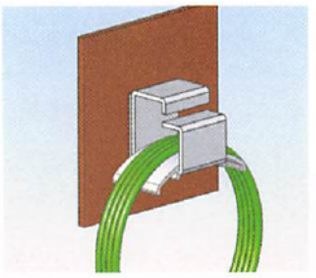

Fig. 1

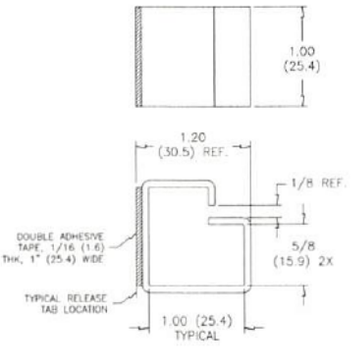

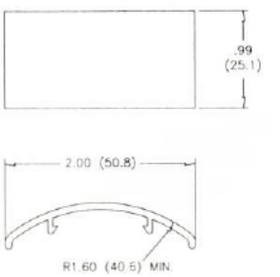

Fig. 2

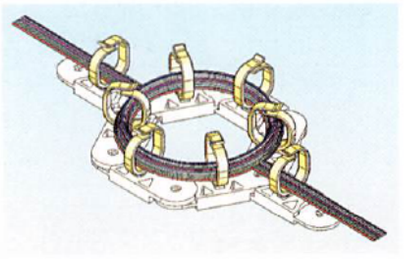

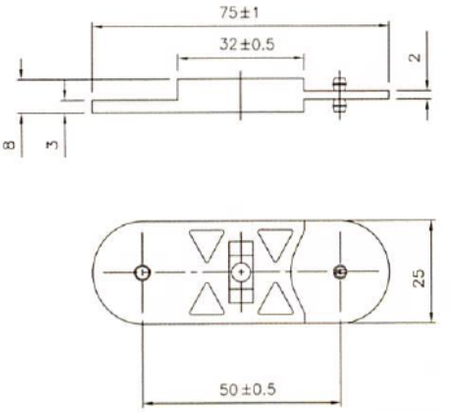

Features

- Two extruded clips snap into each other to form a clip with a smooth, curved surface to accommodate fiber optic bundles
- Part wall thickness: .070 (1.8) typical

Material: Rigid PVC, RMS-04; Adhesive, RMS-15; Color: Black	
Standard Pack: 100 per bag	
Part Number	Figure
OFCC-16-A-RT	1
OFCG-16	2

OFCP-50-19
Chain Plate

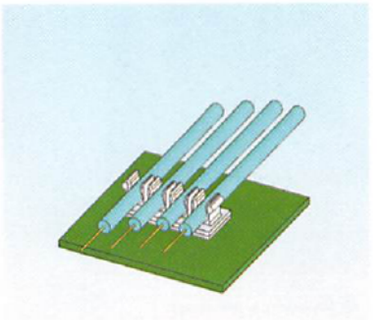

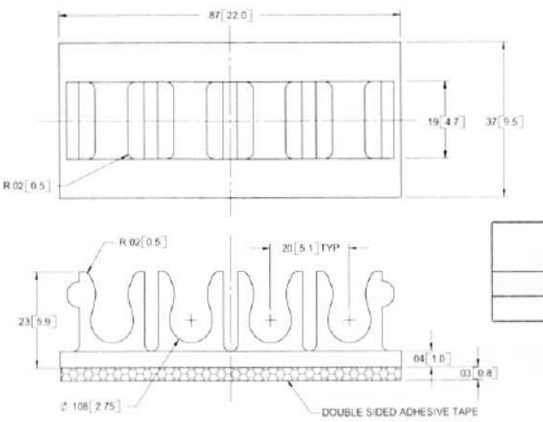

Features

- Connect multiple OFCP's together to form a "chain" for routing fiber
- Complete the circle for an excess fiber spool to form a "Y" for breakout points
- All connections maintain a bend radius greater than 30mm
- Ø4.75mm center mounting hole to fit any standard Richco routing component

Material: UL94 V0 Nylon 6/6; RMS-19; Color: White
Standard Pack: 500 per bag
OFCP-50-19
All dimensions in millimeters
Parts are available by special order only. 1,000 piece minimum.

OFHB3-4-19A-RT
Optical Fiber Holder on Base, 3mm

Material: UL94 V0 Nylon, RMS-19 Color: Natural
Standard Pack: 1,000 per bag
Adhesive Backing, RMS-15

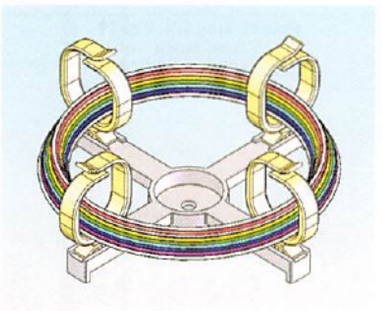

Features

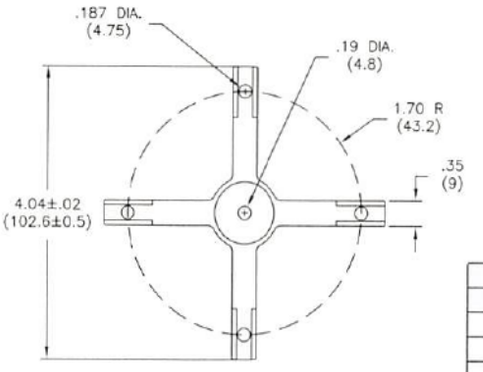

- Designed to hold up to 4 x Ø.118 (3) cables

OFHB2-4A1-RT-19

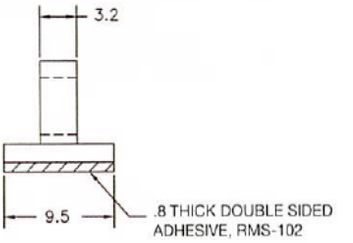

Optical Fiber Holder on Base, 2mm

Material: Nylon 6/6, RMS-19 Color: Natural
Standard Pack: 1,000 per bag

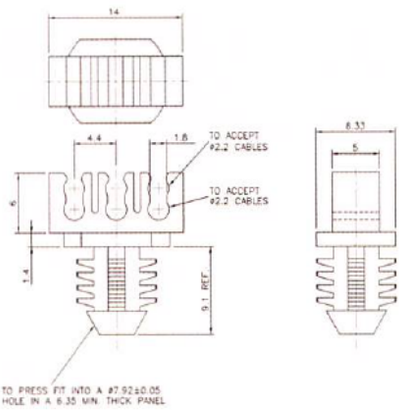

Features

- Designed to hold up to 4 x Ø.079 (2) fiber cables

OFB-BH-6-19

Optical Fiber Bracket, Blind Hole

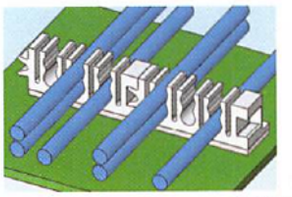

Material: UL94 V0 Nylon, RMS-19 Color: Natural
Standard Pack: 1,000 per bag
Dimensioned in millimeters

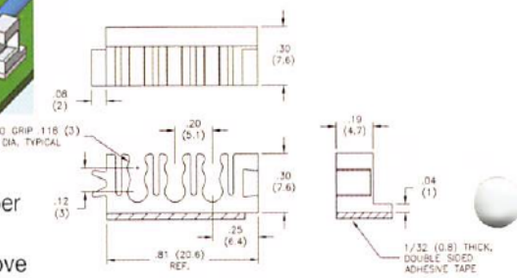

Features

- Designed to hold up to 6 x Ø.079 (2) fiber cables

OFEB-3-19

Optical Fiber Expandable Bracket

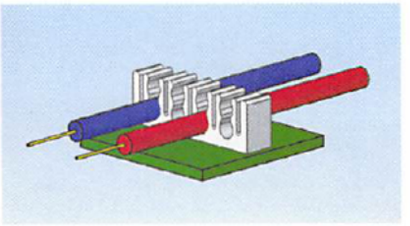

Features

- Designed to hold up to 6 x Ø.118 (3) fiber optic cables
- Cable snaps into groove easily without damaging fiber
- Brackets connect easily to each other to provide for additional cables

Material: UL94 V0 Nylon, RMS-19 Color: Natural
Standard Pack: 1,000 per bag
Adhesive Backing, RMS-15

OFB3P-4-19

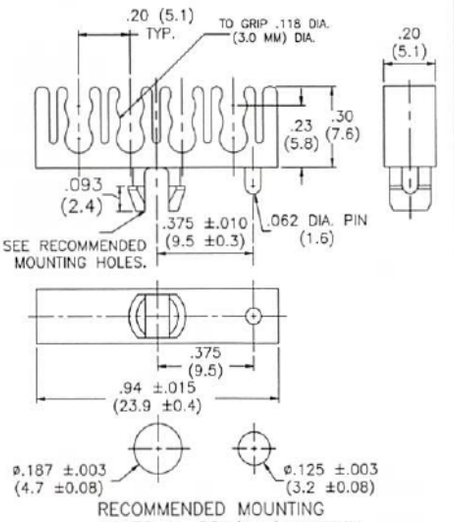

Optical Fiber Bracket, 3mm, Plug-In, 4 Slot

Features

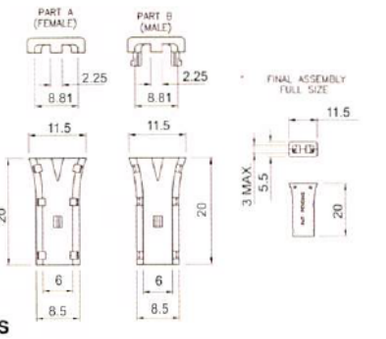

- Designed to hold up to 8 x Ø.118 (3) fiber cables
- Anti-rotation pin prevents fiber kinking due to bracket turning in the mounting hole

Material: Nylon 6/6 UL94 V0, RMS-19 Color: Natural
Standard Pack: 1,000 per bag

OFDS-1

Optical Fiber Duplex Splitter

Features

- For use on 3.0mm dual patch cord fibers to stop continued pigtail splitting
- Two-piece design snaps together

Material: ABS • Color: Black
Standard Pack: 1,000 of each per bag
Dimensions in millimeters
Available by special order only. 5,000 piece minimum.

EFA02
Dust Caps with Metal Chain

Features

- Stainless steel dust caps for harsh environments
- Chain keeps dust cap from being lost when not in use
- The mounting hole for EFA02 14 is a blind hole and does not expose the adapter/connector and can be used on its own. Other dust caps in this series require the retaining chain and cannot be sold separately, as this leaves a hole exposing the connector/adapter.

OFBLT

Optical Fiber Bend Limiting Tubing

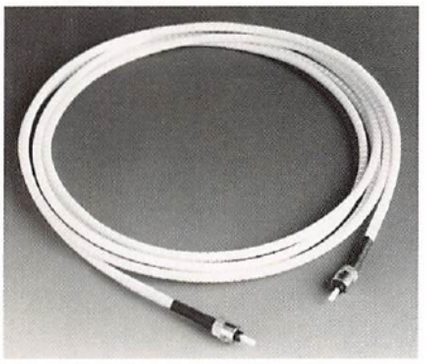

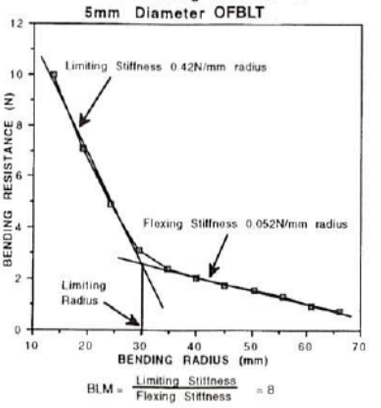

Fig. 1

Bend Limiting Modulus of 5mm Diameter OFBLT

$$BLM = \frac{\text{Limiting Stiffness}}{\text{Flexing Stiffness}} = 8$$

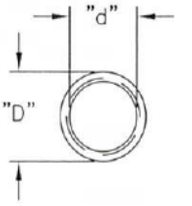

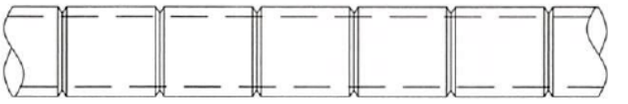

Description:

Optical Fiber Bend Limiting Tubing offers the ultimate protection to fibers eliminating problems such as crushing, kinking, and micro bending, while supplying an entire, self-managing solution to managing the routing of fiber. OFBLT is available in many sizes and a range of tough, stable and fire retardant materials.

Features:

- Provides superior crush protection against micro fiber bends over conventional corrugated tubing, when under transverse compression
- Limits the bend in a fiber by controlling radius to a minimum of 30mm (Fig. 1)
- Range of popular sizes for convenience and space optimization
- Options of standard, slit (retro-fit), or pull-cord varieties (OFZT-3-14-BLK installation tool required for OFBLTS-3.1-05 or OFBLTS-4.2-632 tubing; OFZT-2-14-RED tool required for OFBLTS-2.6-05 tubing)
- Suitable for blown fiber applications over short distance and for curbside FTTH/FTTB applications
- Has a smooth inner bore for ease of use and elimination of micro-bending
- Range of accessories available providing compatibility with most applications
- Variants include flame retardant, low smoke, zero halogen and solvent resistant materials

Typical Applications:

- Datacom and Telecom (internal & external) - FTTH/FTTB
- Automotive - M.O.S.T. ™ infotainment systems
- Defense
- Aviation
- Medical

OFTGS/OFTGSP

Optical Fiber Tube Gripper Saddle

Description

The Optical Fiber Tube Gripper Saddle enables OFBLT to be anchored to a chassis or splice tray by the simple provision of 2 holes.

The saddle is placed over the OFBLT and closed down to engage on the external grooves of the tube, no threading is required. Secure attachment is completed by pressing the retaining feet through location holes.

Features

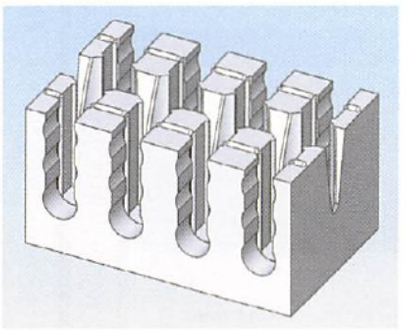

- Mid point or end termination of OFBLT
- Easy to locate and use
- For 5mm OFBLT
- Controlled routing of fiber circuits
- Maximum panel thickness: .068 (1.75)

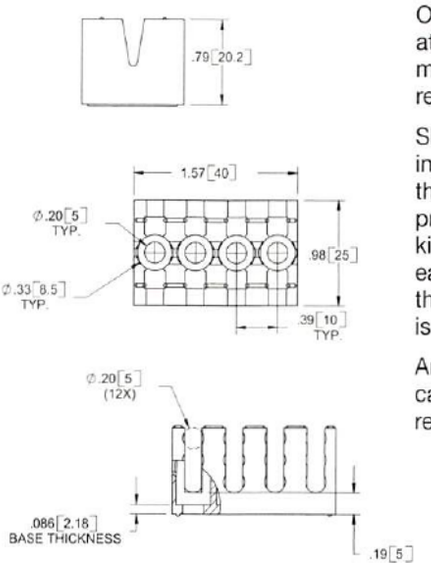

Part No.	Material	Color	Figure	Standard Pack

OFSMB-4-05-GFBLK
Optical Fiber Slotted Multi Bracket

Miniflex Technology Manufactured by Richco - Patented
Material: Glass-Filled UL94 V0 Nylon, RMS-104, Color: Black
Standard Pack: 10 per bag

Description

Optical Fiber Slotted Multi-Brackets are for use at distribution points where orderly fiber management, protection and strain relief is required.

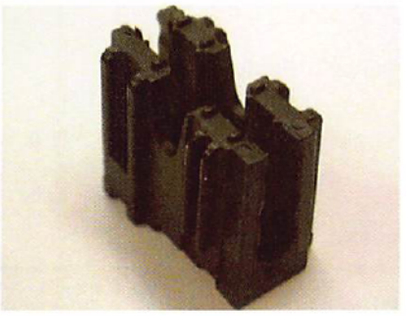

Slotted Multi-Brackets can be adapted to individual needs with the use of OFBLT. From the initial fiber entry point, superior fiber protection against bending, crushing and kinking is secured. Assembly of tubes is made easy by a simple "lay-through" design, no threaded is required. Mounting of either bracket is easy, using screws or push rivets as shown.

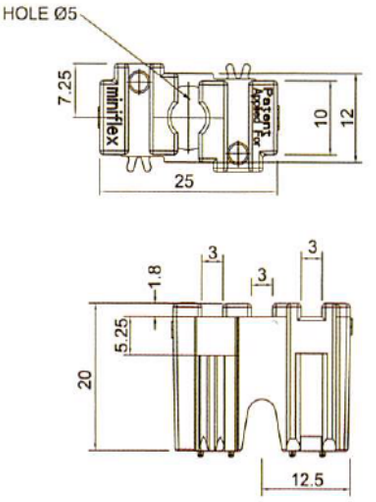

An additional security feature allows fitting of a cable tie around SSMB's which prevents removal of any retained tubes.

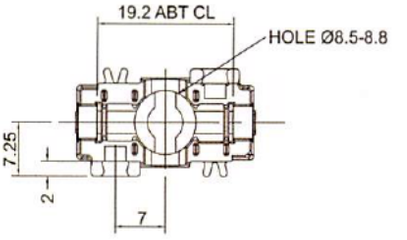

Features

- OFBLT retention: >70N
- Holds a maximum of 12 tubes

OFSSMB-1-05-GFBLK
Optical Fiber Single Slotted Multi Bracket

Features

- OFBLT retention: >70N
- Holds a maximum of 3 tubes
- Ability to latch to other OFSSMB's

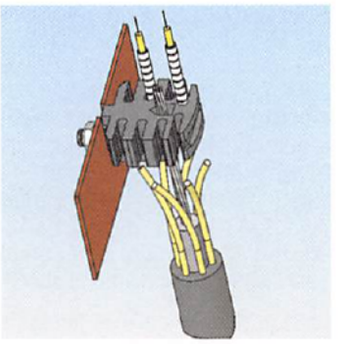

Miniflex Technology Manufactured by Richco
Material: Glass-Filled UL94 V0 Nylon, RMS-104 Color: Black
Standard Pack: 10 per bag
All dimensions in millimeters

OFCBUGB
Optical Fiber Cable Gland Box

Gland Box Part No.	Cable Diameter
OFCBUGB-00	.16-.33 (4 - 8.5)
OFCBUGB-0	.30-.79 (7.5 - 20)
OFCBUGB-1	.37-.51 (9.5 - 13)
OFCBUGB-2	.51-.71 (13 - 18)
OFCBUGB-3	.69-.98 (17.5 - 25)
Standard Pack: 1 per bag	

Description

At distribution points, multi-fiber cables need to have the individual fibers or cable elements separated and protected by a management system. The cable strength member has to be terminated and anchored to prevent damage to the fibers from cable movement or pull out.

The Optical Fiber Cable Breakout Unit affords quick, easy and positive arrangements of the fibers or cable elements, which are sheathed in OFBLT to give permanent protection. Assembly of tubes is made easy by a simple "lay through" design, no threading is required.

The strength member retainer is simply inserted over the terminated cable as shown and clamps both the cable and the breakout unit to the jointing chassis.

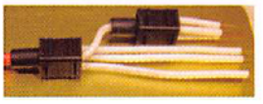

A secure fiber management system that minimizes installation time and maximizes fiber integrity and security. Once installed, it can be left with total peace of mind.

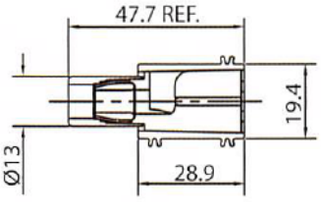

For further protection, a cable gland and gland box are available. The cable gland will accommodate various cable diameters. Choose your part number based on your cable diameter.

Features

- Cable retention: >1.5kN
- OFBLT retention: >100N
- Maximum of 24 cable elements or 24 fiber bundles

OFM-04-PG-16BLK
Optical Fiber Cable Gland

Miniflex Technology Manufactured by Richco - Patented
Material: Break-Out: Flame Retardant Nylon 6/6, Color: Black Gland Body & Nuts: Nylon, Color: Black
Standard Pack: 10 per bag
Available by special order; 500 piece minimum.

Description

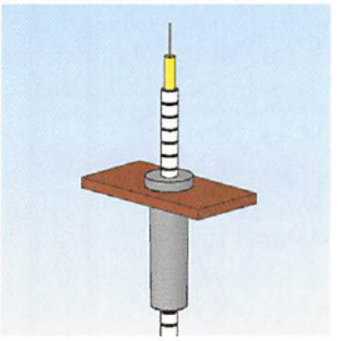

The 1 into 4 Optical Fiber Manifold enables small multiple fiber cables with aramid and similar strength reinforcement or central GRP strength member to be mechanically and securely terminated. OFBLT at the output ports gives full radius control and crush protection while still allowing an easy to route fiber "lay-through" design. OFBLT can also be used at the input port. The manifold is stackable, and retains tubes greater than 100N. Crimp rings are available for terminating GRP strength members, order OFM-CR. A development kit is also available that contains all adapters, OFM-4-05-19BLK.

OFSRG

Optical Fiber Strain Relief Gland

Description

The Optical Fiber Strain Relief Gland enables ruggedized patch cords, or fiber bundles, protected in OFBLT to be anchored to a chassis, or distribution trunking system, by the simple provision of a single hole.

The OFBLT is passed through the gland and is secured by the integral Tube Gripper Clip. This ensures a pull out resistance of over 100N while still ensuring a 30mm radius bend control and crush protection.

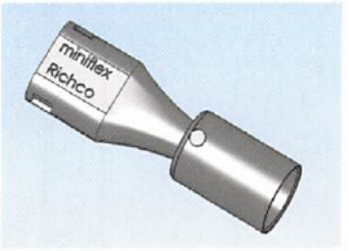

Features

- OFBLT retention: >100N
- Mid point or end termination of OFBLT
- Provides secure fixing

Miniflex technology manufactured by Richco - Patented						
Material: PVC • Color: Black						
Part No.	Standard Pack: 10/bag

Parts are available by special order only. 500 piece minimum.						

OFD

Optical Fiber Duplexer

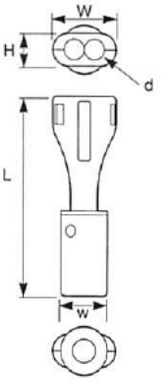

Description

The Optical Fiber Duplexer enables cables with aramid strands to be broken out and mechanically terminated. It provides an easy-to-use assembly with no crimping, while still retaining a minimum of a 100N pull. Used with the 5mm diameter OFBLT at the output port, it gives full blend control and crush protection for ongoing fibers. The Duplexer gives an easy-to-use lay through facility with internal fiber radius control.

The Duplexer gives a range of input adapters to cover OFBLT, fiber bundles, cable and patch cords from 2.5mm to 7.00mm in diameter. For cables up to 10.8mm in diameter, a rubber sleeve is provided. See cable size chart below.

Features

- Tube retention: >100N
- For a Development Kit containing all adapters, order: OFD-C-05-19BLK

OFS90-30R

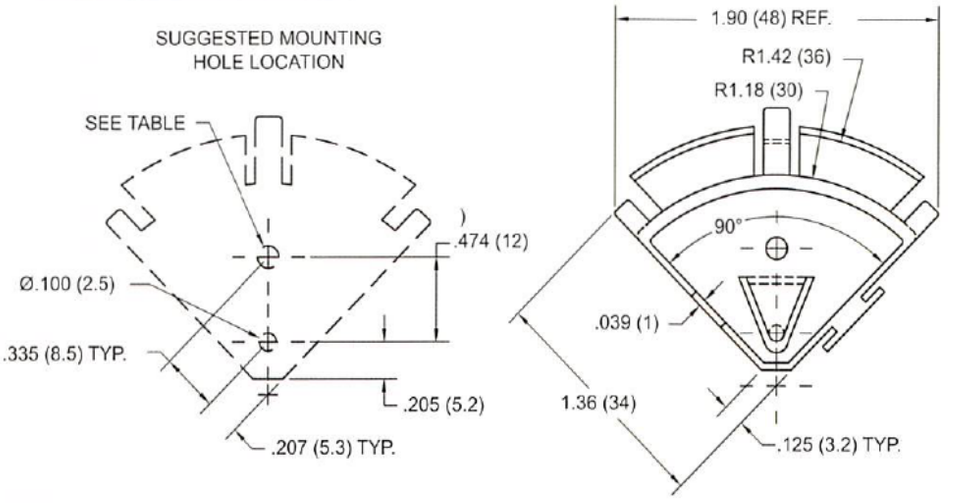

Optical Fiber Segment
90°, 30mm Radius

Features

- Assemble two pieces for bend control around a 180° turn
- Assemble four pieces for excess fiber spooling at 30mm radius
- In a four-piece assembled mode, stores approximately 60m of 900 micron fiber
- Rivet mounted with SR-3XXX series Richco rivet, please see page 52

Material: UL94 V0 Nylon, RMS-19 Color: Natural
Standard Pack: 100 per bag

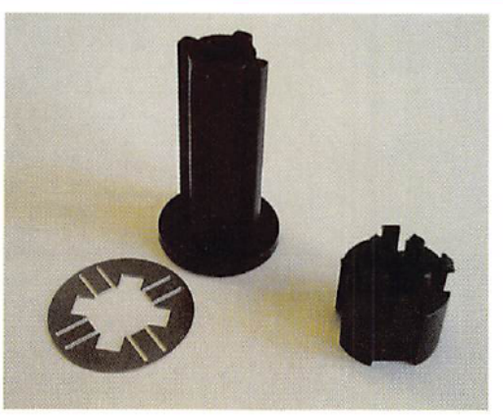

MOUNTING RIVETS FOR THE OFS90-30R		
Rivet No.	Panel Thickness Range	Mounting Hole Dia.
SRV0-3035	Up to .039 (1)	.122-.126 (3.1-3.2)
SRV0-3045	.039-.079 (1-2)	
SRV0-3055	.079-.118 (2-3)	
SRV0-3065	.118-.158 (3-4)	
SRV0-3075	.158-.197 (4-5)	
SRV0-3080	.177-.217 (4.5-5.5)	
SRV0-3090	.217-.256 (5.5-6.5)	
SRV0-3100	.256-.295 (6.5-7.5)	

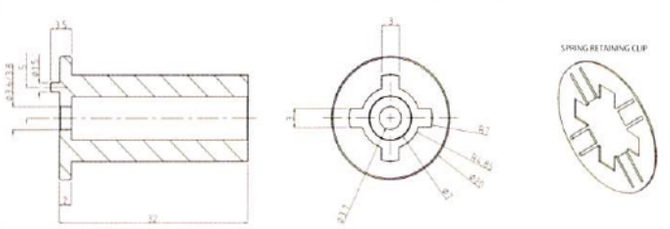

EFA04 53 ASS

Fiber Reel Mounting Pillar

Features

- Pillar is rivet mounted from the bottom of the board with SRHR-3555 rivet (see page 53)
- Reels are retained using the included spring retaining clip

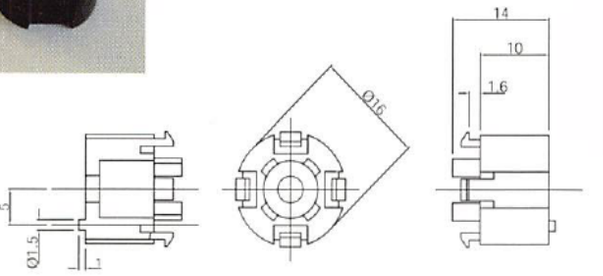

A Europlus/Richco Product
Material: UL94 V0 Nylon 6, RMS-178; Color: Black
Standard Pack: 100 per bag
EFA04 53 ASS
Parts are available by special order only. 500 piece minimum.
All dimensions in millimeters

EFA04 27 ASS

Fiber Reel Standoff

Features

- Standoff is rivet mounted from the bottom of the board with SRHR-3555 rivet (see page 53)
- Reel snaps onto the top of the standoff, holding it in place

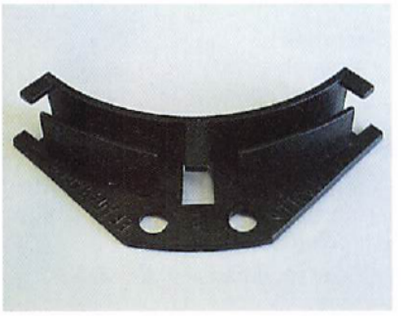

A Europlus/Richco Product
Material: UL94 V0 Nylon 6, RMS-178; Color: Black
Standard Pack: 50 per bag
EFA04 27 ASS
Parts are available by special order only. 500 piece minimum.
All dimensions in millimeters

OFFG/OFFGSP
Optical Flexible Fiber Guide System

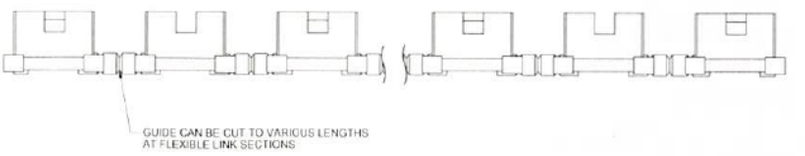

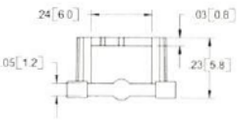

Features

- Fully modular system giving complete fiber management and protection at PCB level applications
- For use with 250 and 900 micron fiber
- Fiber can enter and exit at any point, without risk of fiber snagging or kinking
- Angled and straight lugs located along the top of the guide, preventing fiber from springing out
- 'Snake' the guide through and over components, where space is limited
- Patent Pending

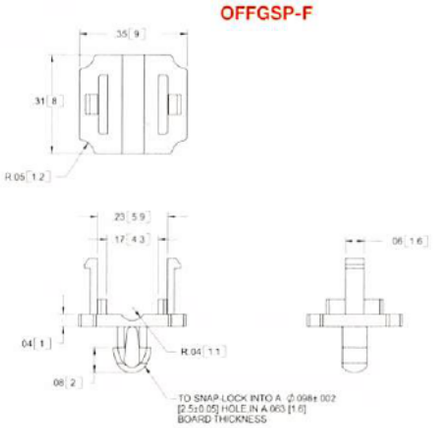

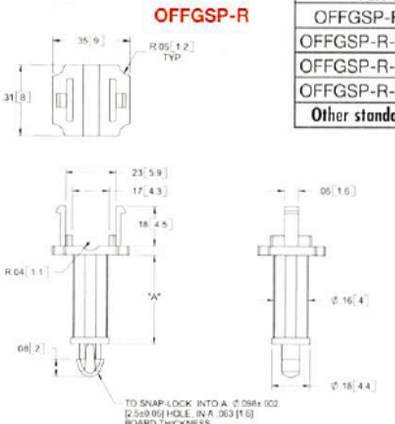

Material: UL94 V0 Nylon 6/6, RMS-19; Color: Black
Standard Pack: 100 per bag

EFA04 91 ASS
Fiber Winding & Storage Reel

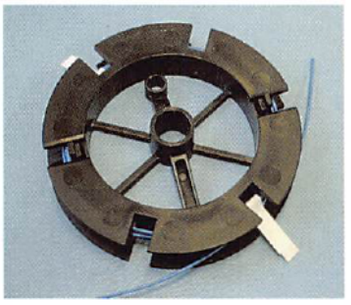

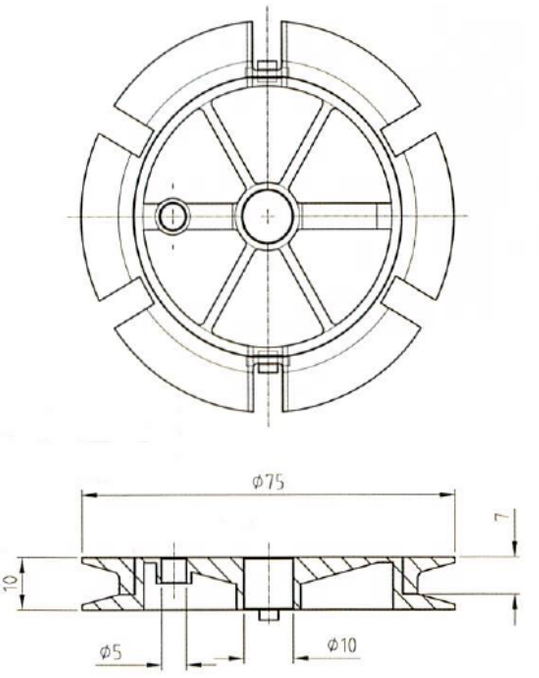

Features

- Fiber maintained on a 30 mm radius
- Stores up to 5.0m of 900 micron fiber
- Also accepts ribbon fiber
- Easy pull-out of fiber
- Gentle winding motion by hand
- Board mountable using Stand-off EFA04 27 ASS (page 209)
- Stackable using Stacking Pillar EFA04 53 ASS (page 209)

A Europlus/Richco Product
Material: UL94 V0 Nylon 6, RMS-178; Color: Black
Standard Pack: 50 per bag
EFA04 91 ASS
Parts are available by special order only. 100 piece minimum.
All dimensions in millimeters

EFA04 67 ASS
Fiber Winding Reel

Features

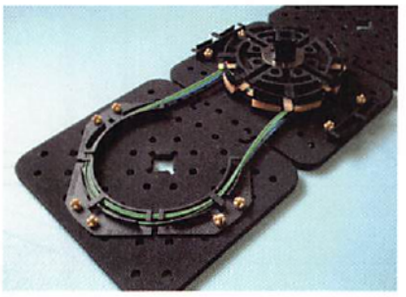

- Wound fiber is taped to maintain bend radius and provide identification (tape not supplied)
- Two-part reel is then disassembled for easy fiber removal
- Stores up to 8m of 900 micron fiber at a 30mm radius
- Reusable

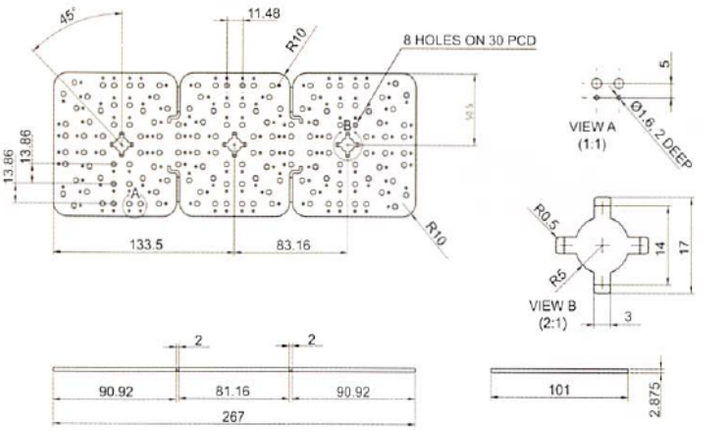

A Europlus/Richco Product
Material: UL94 V0 Nylon 6, RMS-178; Color: Black
Standard Pack: 50 per bag
EFA04 67 ASS
Parts are available by special order only. 100 piece minimum.

RX
Richflex Flexible Channel

Features

- Mounted with adhesive or with a screw
- Flexible base is useful in routing wires from the back of control panels and sidewalls to components mounted on control panel doors
- Flexible ribs allow the wires or fibers to be easily "pushed" and "pulled" into and out of the channel

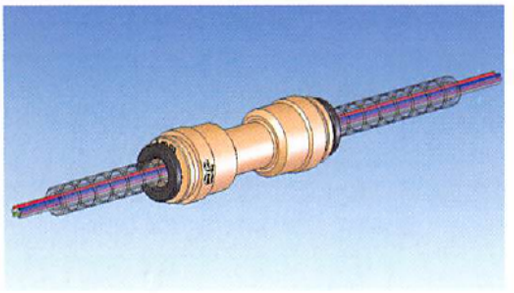

Material: Polypropylene, RMS-177 • Adhesive Back, .04 (1) thick, RMS-93 Color: Grey • Std. Length: 19.7 (500)

General Features

Richco has an extensive range of grommets, bushings and strain relief products. The wide range of grommets that Richco offers are designed to protect cabling against sharp edges, especially where vibration is an issue. The grommets can be used on straight edges, holes or irregular shapes. Richco's grommet range is available in a variety of materials including plastic, rubber and metal. They can be easily installed without the need of adhesives, glue or installation tools. Richco has specific grommets to enable the user to install in irregular shapes or on straight edges.

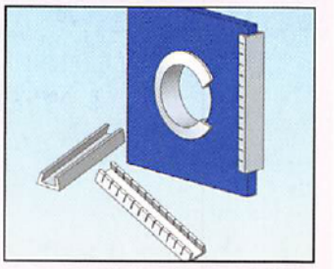

Richco bushings are designed to easily snap into pre-drilled holes. They convert sharp-edged holes into smooth, insulated holes. Richco offers a split design which allows retrofitting on pre-assembled cable harnesses.

The elimination of cable strain and wear is solved via the use of Richco's strain relief bushings which are easily installed with an installation tool.

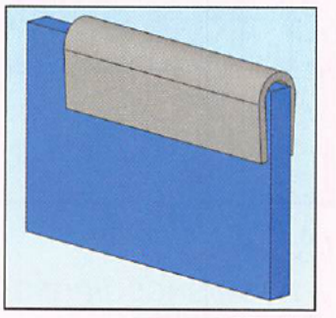

Typical Applications

- Brown Goods/Consumer Electronics - Audio and video equipment
- White Goods - Washing Machines, ovens
- Telecommunications - Distribution racks
- General Electronics

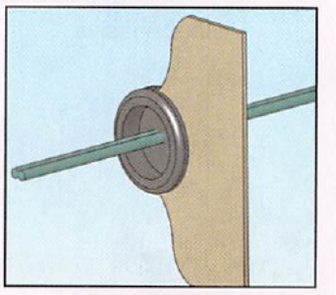

Introduction

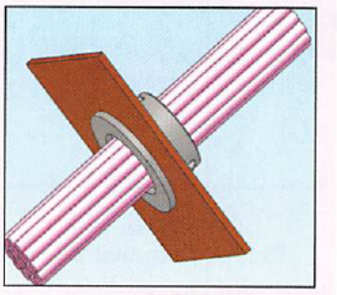

Continuous Grommet Strips

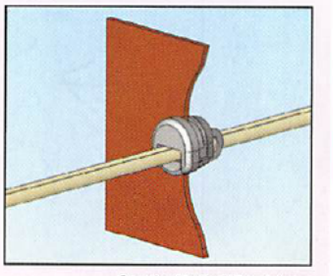

Duro-Strip Channels

MCCG/MCCGF
Metal Continuous Cushioned Grommet

Features

- Polymer cushion provides a soft surface to protect wires and cable
- Dielectric Strength: 1500 volts @ 60 Hz
- Operating Temperature Range: -40°F to 185°F (-40°C to 85°C)
- UL94 V0 flammability rating
- High corrosion resistance
- MCCGF Series is more flexible than the MCCG series because of its design.

Fig. 1

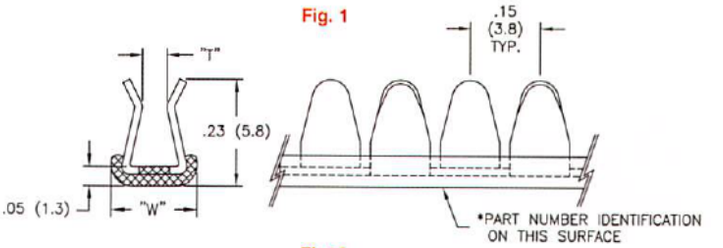

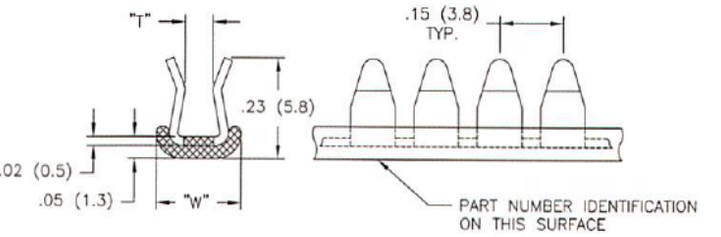

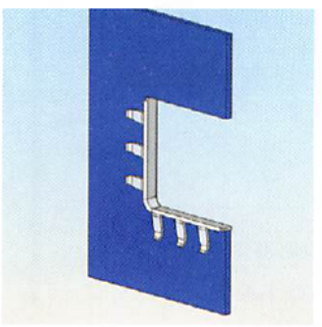

Fig. 2

MCCG/MCCGF	Material: 304 Stainless Steel, RMS-283; Coating: Nylon 11, RMS-192, Color: Black; Cushion: TPE, 60 Shore D, RMS-300, Color: Black		Standard Pack: 100 Ft. (30.5M) Reel

MCG/MCGF
Metal Continuous Grommet

Features

- Dielectric Strength: 1000 volts @ 60 Hz
- Operating Temperature Range: -40°F to 285°F (-40°C to 140°C)
- UL94 V0 flammability rating
- High corrosion resistance
- Fits any two axis contour
- MCGF Series is more flexible than the MCG series because of its design.

Custom lengths available by special order.					

SLH-16-1
Single Living Hinge

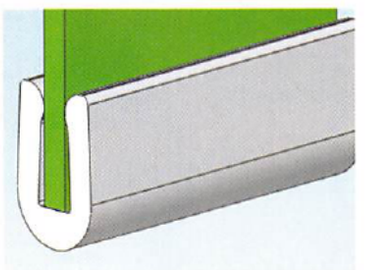

Features

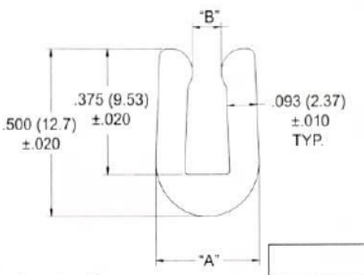

- Applied with staples, screws or rivets
- Non-corrosive and acid resistant

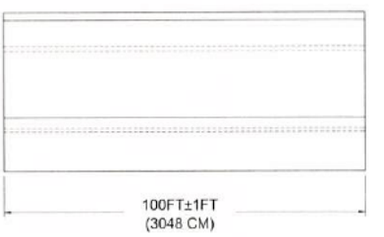

Material: Polypropylene, RMS-54 Color: Natural
Standard Pack: 100 ft. (30.5M) Rolls
Custom lengths available by special order.

RG
Rubber Edge Grommet

NEW

Features

- Soft rubber prevents chafing
- Flexible material can be used on edges or on internal cutouts

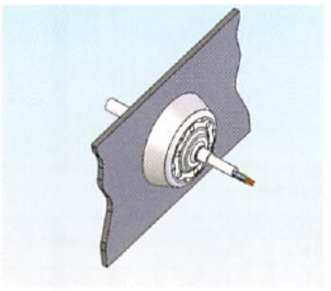

Material: TPE, RMS-214 Color: Black			
Standard Pack: 3048 CM Roll			
Part No.	Panel Size	"A" Ref.	"B" Max.
RG-1	1.6	6.74	0.76
RG-2	2.36	7.44	1.52
RG-3	3.18	8.23	2.29

KCG
Quck Cable Gland

NEW

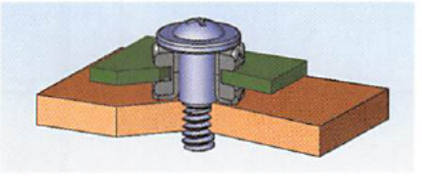

Features
- Provides slight strain relief
- Water & dust proof to IP67
- Quicker installation than traditional cable glands

Material: TPE, RMS-286 and Nylon 6/6, RMS-287 Color: Gray Standard Pack: 1,000 per bag										
Part No.	Hole Diameter	Panel Thickness	Panel Thickness for IP67	Anchorage Type A For Cable Ø	L1	L2	L3	SW*	For Cable Ø	Tension Relief Ø
KCG-1	.807 (20.5)	.059 - .196 (1.5 - 5)	.078 - .196 (2 - 5)	.275 - .433 (7 - 11)	.787 (20)	.224 (5.7)	.157 (4)	1.153 - 1.358 (29.3 - 34.5)	.157 - .433 (4 - 11)	N/A

*Varies depending on the thickness of material installed in.										

VG
Vibration Grommet

NEW

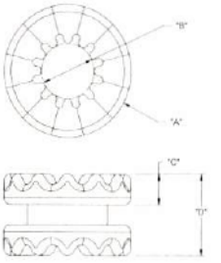

Features
- Unique rib design maximizes absorption
- Controls noise and vibration
- VGS Series, Vibration Grommet Screws are also available

LTG
Liquid Tight Grommet

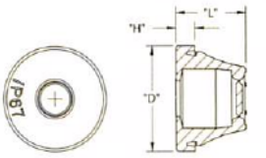

NEW

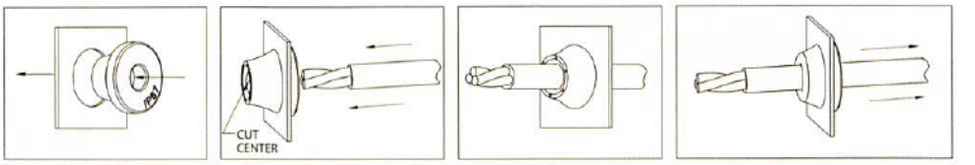

Style 1

Style 2

PRESS GROMMET INTO PANEL — CUT CENTER AS SHOWN AND INSERT CABLE THROUGH GROMMET — PULL BACK CABLE TO FORM SEAL

Features

- Provides dust and watertight seal
- Suitable for external applications
- Conform to IP67 standard
- Acts as a blanking plug until cable is installed
- Quick and easy to install

SB
Snub Bushing

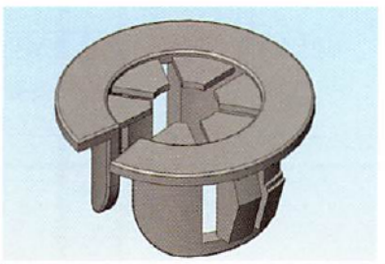

Features

- The cable is fed through the flexible ID then both are easily locked into the hole with fingertip pressure causing the grommet to close in firmly against the cable
- Provides insulation and wire retention

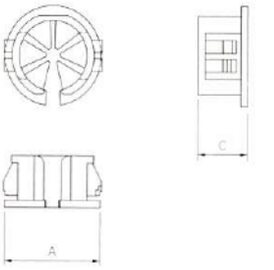

SB			Standard Pack: 1,000 per bag		
Mat'l: Nylon 6/6, RMS-01 Color: Black	Ø "A"	Ø "B"	Panel Hole Dia. ± .003 (0.08)	Nom. Panel Thickness	Approx. Cable Holding Dia.
SB-1	.36 (9.1)	.45 (11.4)	3/8 (9.5)	1/32, 1/16, 3/32, 1/8 (0.8, 1.6, 2.4, 3.2)	.15 (3.8)
SB-2	.43 (10.9)	.55 (14)	7/16 (11.1)		.22 (5.6)
SB-3	.49 (12.4)	.63 (16)	1/2 (12.7)		.28 (7.1)

PGSC
Snap Bushing

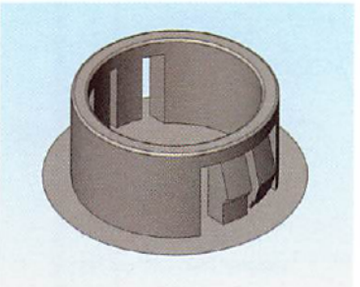

Features

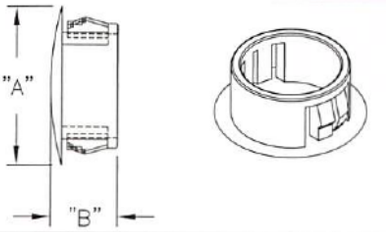

- Wings adjust to accept various diameters and shapes
- Split design allows side entry of wire bundle and retro-fit on pre-assembled harnesses

Material: Nylon 6/6, RMS-01 • Color: Black						
Part No.	Panel Thkns. Range	Hole Diameter	"A"	Max. Holding Bundle Dia. "B"	"C"	Standard Package
PGSC-1319A	.031-.118 (0.8-3)	.75-.75 (19.0-19.1)	.86 (21.8)	.50 (12.7)	.39 (9.9)	500
PGSC-1422A		.87-.88 (22.2-22.4)	.94 (23.8)	.56 (14.3)	.45 (11.5)	
PGSC-1926A		1.00-1.00 (25.4-25.5)	1.06 (27)	.75 (19)		200
PGSC-2128A		1.09-1.10 (27.8-28)	1.16 (29.5)	.82 (20.7)		

PGM
Push Grommet Hole Plug
M Series

Features

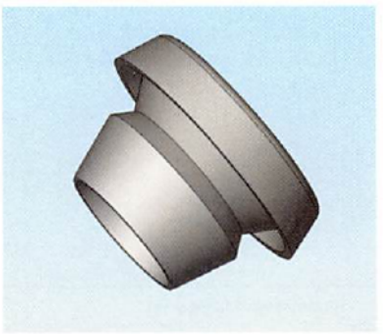

- Plugs unused holes in panels or terminal boxes
- Easily snaps into pre-drilled holes

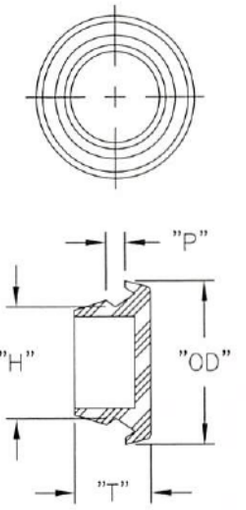

PGM			Mat'l Nylon 6/6, RMS-01; Color: Black		
Part Number	Panel Thickness Max.	Hole Diameter	"A" ± .20 (0.5)	"B" Ref.	Standard Package

BP
Body Plug

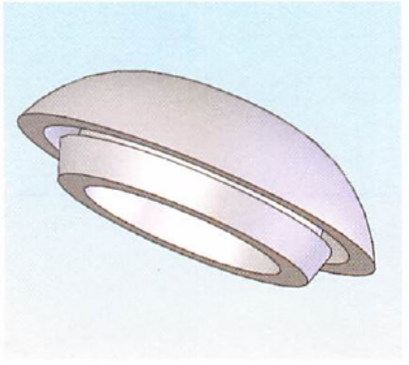

Features

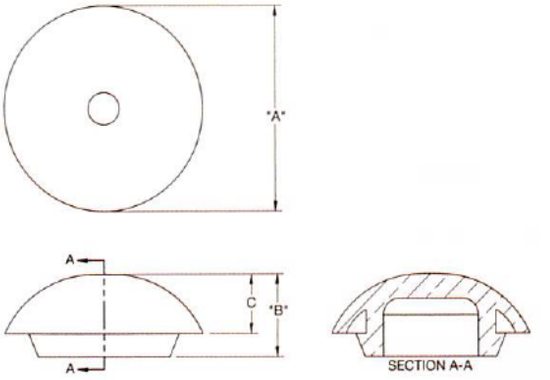

- Ideal for plugging holes in metal panels
- Provides splash-proof seal
- Can be perforated to accommodate different wire sizes

Color: Black						
Part Number	Panel Hole Size "H"	Panel Thickness "P"	Outside Diameter "OD"	Body Plug Thickness "T"	Standard Pack per Bag	Material
BP-16230	.39 (9.9)	.03 - .08 (0.8 - 2)	.75 (19.1)	.47 (11.9)	1000	TPE, RMS-262
BP-16231	.47 (11.9)		.83 (21.1)			
BP-16232	.55 (14)		.91 (23.1)

BP-16238	1.18 (30)		1.54 (39.1)			

LTP
Liquid Tight Plug

NEW

Features

- Plugs and seals holes
- Liquid tight - Tested to IP67 standard
- Installs easily with finger pressure

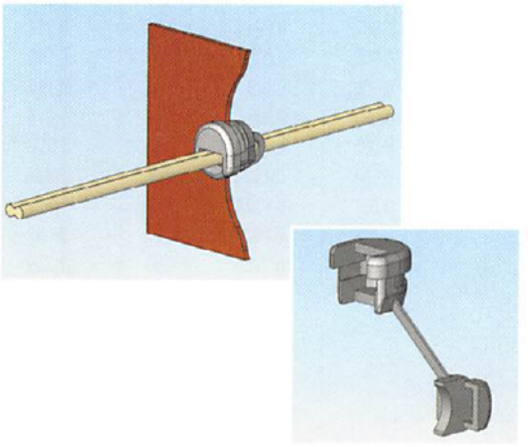

Part No.	Material: UL94 V0 Neoprene Rubber, RMS-190 Color: Black			Standard Pack: 1,000 per bag	
	"A" Head Diameter	"B" Overall Height	"C" Head Height	Mounting Hole Diameter ±.005 (0.13)	Maximum Panel Thickness
LTP-1	1.25 (31.75)	.50 (12.7)	.36 (9.14)	.875 (22.23)	.125 (3.2)
LTP-2	1.53 (39.01)	.54 (13.67)	.39 (9.91)	1.093 (27.76)	
LTP-3	1.80 (45.72)	.57 (14.48)	.42 (10.67)	1.375 (34.93)

SRB-F/R
Strain Relief Bushing

NEW

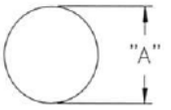

Features
- UL Approved strain relief bushings
- Absorbs the forces of push and pull that may be exerted on cords
- Each part can be mounted into two different mounting holes (Styles A & B shown below).
- SRPL-2 Tool is required for installation

• UL #E71558

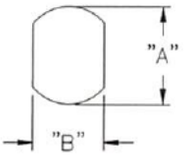

SRB Installation Tool Sold Separately
Part Number: SRPL-2

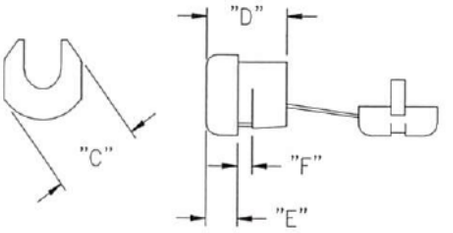

Mounting Holes
Style A

Style B
Anti-Rotation Hole

Bushing Dimensions

Key-Contour Style

R (ROUND) F (FLAT)

Note: SRB-F is for flat wires
SRB-R is for round wires

RMS Table Terminology

RMS Number

Richco "Raw Material Specification" identification number. For the latest RMS information, please visit www.richco-inc.com or contact your local Richco Representative.

UL® File Number

Underwriter's Laboratories Inc.®, hereafter referred to as "UL®", plastics classification number, which is used to describe the performance of the material shown. Tests conducted by UL® may include the determination of material flammability (burning characteristics), ignition characteristics from various thermal and electrical sources, electrical tracking and other electrical characteristics, physical and mechanical characteristics, and analytical tests. In addition, the effect of long-term exposure to elevated temperature (air-oven aging), water, ultraviolet light, cold, etc. on property-retention may be evaluated.

For detailed information and to access the specific "Yellow Card" referenced, please contact your local sales office or visit Underwriters Laboratories website; www.ul.com and click on "Online Certifications Directory."

UL® Flame Rating

UL® 94 classifications V0, V1, V2 and HB describe the flame retardancy levels for a given resin. V0 rated resins typically have the highest flame resistance followed by V1, V2 and HB.

Material Operating Temperatures

The Material Temperature Ranges shown are based on recommendations of the respective resin manufacturers. The values shown are for reference to aid in material selection for your application. Because each resin manufacturer uses their own methods to evaluate and rate the performance of their resins, the temperature ranges shown cannot necessarily be used to compare materials directly.

RoHS and Environmental Legislation of Plastics

The European Union recently adopted the Directive, the Restriction of Hazardous Substances Directive 2002/95/EC, here after referred to as RoHS, which restricts the use of lead, mercury, cadmium, hexavalent chromium, polybrominated biphenyls (PBB), and polybrominated diphenyl ethers (PBDE) in electrical and electronic products by July 1, 2006. A "Y" indicates that Richco has a certification from the individual resin manufacturer, which states chemical compliance to RoHS. A "N" indicates that Richco has a certification from the individual resin manufacturer which states chemical content and its variance to RoHS. An asterisk(*) indicates data was not available at time of publication. Please see our website or contact your local Richco Representative for the necessary documentation.

The Waste Electrical and Electronic Equipment European Parliament Directive 2002/96/EC, hereafter referred to as WEEE, establishes recovery, reuse, and recycling targets for each of ten categories of WEEE waste. The requirements are to be met by December 31, 2006.

Richco Inc. strongly supports efforts to create environmentally friendly and sustainable products. Richco Inc. is committed to compliance with all applicable laws and regulations of RoHS.

Please contact your local Richco office or Representative for support in obtaining any necessary compliance documentation.

Definitions of Material Descriptions

ABS = Acrylonitrile-butadiene-styrene
Acetal = Polyacetal
ASA/AES = Acrylic-styrene-acrylonitrile/ Acrylonitrile-ethylene-propylene-styrene-alloy
CAP = Cellulose acetate propionate
CPVC = Chlorinated polyvinyl chloride
EPDM = Ethylene-propylene-diene-monomer
EVA = Polyethylene-vinyl acetate
FEP = Fluorinated ethylene propylene copolymer
HDPE = High density polyethylene
HIPS = High impact polystyrene
LCP = Liquid Crytsal Polymer
LDPE = Low density polyethylene
Nitrile Rubber = Acrylonitrile rubber
Nylon = Polyamide (PA)
PBT = Polybutylene terephthalate
PC = Polycarbonate
PE = Polyethylene
PEI = Polyether imide
PP = Polypropylene
PPE/PS = Polyphenylene ether/polystyrene alloy
PPE/SB = Polyphenylene ether/styrene-butadiene alloy
PPHOX = Polyphenylene oxide
PPS = Polyphenylene sulfide
PS = Polystyrene
PSU = Polysulfone
PU = Polyurethane
PVC = Polyvinyl chloride
PVDF = Polyvinylidene fluoride
SEBS = Styrene-ethylene butylene-styrene block copolymer
SIR = Silicone molding compound
TPE = Thermoplastic elastomer
TPR = Thermoplastic rubber

An asterisk(*) indicates data was not available at time of publication. Please see our website or contact your local Richco Representative for the necessary documentation.

RAW MATERIAL SPECIFICATION/DISCLAIMER OF WARRANTY: These Raw Material Specifications shall not be construed as creating an express warranty of description. The specifications are approximate and intended to serve only as guides and not as the basis of any sale, agreement or contract of goods sold by Richco, Inc. Richco, Incorporated reserves the right to change the raw material on any of its goods contained in this catalog without notice to any buyer. Further, these Raw Material Specifications have been provided by the manufacturer and Richco, Inc. does not warrant their accuracy.

Nylon Storage Guidelines / Shelf Life

All Richco nylon parts are packaged in sealed plastic bags and contain an appropriate level of moisture. When stored in the original unopened bags at 73°F (23°C) and 50% RH, parts shelf life is one year from date of shipment.

An asterisk(*) indicates data was not available at time of publication. Please see our website or contact your local Richco Representative for the necessary documentation.

Adhesive Tape Usage Guidelines

Design

Long-term maximum product application loads generally should not exceed 0.25 psi. The surface area of contact is very critical for bond strength, so the amount of tape used should be maximized based on the application. In general, the tensile strength of the adhesive is higher than the peel or shear strength, so the product should be designed to be loaded in tension whenever possible.

Shelf Life

The shelf life of the adhesives shown is 12 months from shipping when stored in the original packaging at room temperature (73°F [23°C]) and 50% relative humidity.

Temperature Considerations

Ideal application temperature for most of the adhesives shown is 70° to 100° F (21° to 38°C). Lower application temperatures should be avoided because the adhesive will be too firm and may not "wet out" sufficiently.

Once installed, the approximate service temperatures are:

RMS-15	32° to 185°F (0° to 85°C)	RMS-92	-40° to 200°F Max. (-40° to 93°C Max.)	RMS-129	65° to 149°F (18° to 65°C)
RMS-33	-76° to 356°F (-60° to 180°C)	RMS-93	-40° to 158°F (-40° to 70°C)	RMS-131	-40° to 185°F (-40° to 85°C)
RMS-34	-40° to 160°F (-40° to 71°C)	RMS-102	0° to 150°F (-18° to 66°C)	RMS-132	-30° to 302°F (-34° to 150°C)
RMS-65	0° to 250°F (-18° to 121°C)	RMS-113	0° to 225°F (-18° to 107°C)	RMS-135	-20° to 300°F (-29° to 149°C)
RMS-68	0° to 180°F (-18° to 82°C)	RMS-119	65° to 149°F (18° to 65°C)	RMS-143	-40° to 158°F (-40° to 70°C)
RMS-90	-20° to 150°F (-29° to 66°C)	RMS-128	65° to 149°F (18° to 65°C)		

An asterisk(*) indicates data was not available at time of publication. Please see our website or contact your local Richco Representative for the necessary documentation.

RMS SPECIFICATIONS

Application Guide

Surface Condition: The bonding surfaces must be clean, uniform, dry and free of condensation. Do not use on fabric, coarse concrete, loose paint, or rough, loose surfaces.

Surface Preparation: For maximum performance, clean the mounting surfaces with a cleaning solvent such as a 50/50 mixture of isopropyl alcohol and water. Be sure to follow the solvent manufacturer's directions for use. Some surfaces may require a sealant or primer to achieve the desired bonding. Test the product on your actual application.

Application pressure: Remove the release liner being very careful not to touch the adhesive surface and then quickly and firmly rub the product into place. Firm pressure is needed to ensure full contact and to allow the adhesive to fully wet-out on the mating surfaces.

Dwell Time: The bond strength is affected by the substrate surface, application temperature and dwell time. At room temperature approximately half of the bond strength will be obtained within the first half hour with the majority of the strength achieved within 24 hours. Therefore, whenever possible wait 24 hours before applying load.

Acrylic vs. rubber based adhesives: In general, rubber based adhesives offer higher initial tack whereas acrylic based adhesives maintain higher mechanical strength over time. One should evaluate the performance of the product on the actual end use application. Contact your local Richco representative for additional physical property and chemical resistance data.

Richco, Inc. is fully aware of the efforts to promote the use of non-hazardous substances and is committed to fulfilling its social and environmental responsibilities as a global corporate citizen. To enhance and effectively address its environmental obligations, Richco has implemented a process to assure full compliance with all of the environmental regulations and laws that impact Richco's products, materials, components and/or equipment.

In the past few years, the European Union has taken regulatory steps to promote environmentally friendly behavior by way of the Restriction of Hazardous Substances Directive ("RoHS Directive"), the Waste Electrical and Electronic Equipment Directive and the End of Life Vehicle Directive. Richco, together with the help of its suppliers, is committed to understanding the impact each Directive has on each of the products, materials, components and/or equipment manufactured or distributed by Richco, and in ensuring full compliance with the Directives and regulations that impact Richco directly.

Richco is presently developing an internal Environmental Policy that reflects the Standards of ISO 14001 and currently has in place business policies and procedures to regulate and control incoming materials into its manufacturing environment. In addition, Richco is implementing a process to require each of its suppliers to certify compliance with the applicable Directives and confirm that the products, materials, components and/or equipment delivered to Richco do not contain banned substances or hazardous materials.

While Richco continues to strive to promote consistency in the implementation of this process across all of Richco's businesses, and fully intends to comply with all of the Directives' regulations within the applicable timeframes, some products, materials, components and/or equipment that Richco manufactures or distributes may take more time than others to effectively meet all of the timeframes that apply directly to Richco.

Richco is interested in feedback and questions regarding Richco's environmental compliance efforts. Any comments or questions should be directed to customerservice@richco-inc.com.

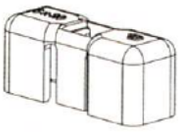

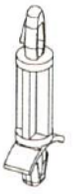

An asterisk(*) indicates data was not available at time of publication. Please see our website or contact your local Richco Representative for the necessary documentation.

Disclaimer: Richco's website, certifications, and other information provided in connection with compliance with the directives is provided "as is" as "available" and "with all faults." Richco disclaims all express or implied conditions, representatives and warranties of any kind, including any implied warranty or condition of merchantability, satisfactory quality, fitness for a particular purpose, or noninfringement.

Our Capabilities

Since 1954 Richco's innovative approach in the fastenings industry has enabled us to maintain our excellent reputation for the design and manufacture of standard and custom designed, highly specialized plastic components. We take great pride in offering our customers the highest levels of service, quality and expertise, be it technical advice or logistic and distribution solutions.

Richco's expertise is within the Brown Goods (Consumer Electronics), Electronic Automotive, Mainframe Telecom & Datacom, White Goods, Computer & Office Equipment. We have helped develop solutions for some of the world's leading companies.

We have a product portfolio ranging from Circuit Board Hardware, Cable & Fiber Optic Management, Routing and Protection components.

Richco is a global company with offices and distribution facilities in North America, Europe and Asia that can give local support. Richco has state of the art manufacturing facilities in the USA, UK, Spain and China.

Richco – Global Company, Local Support, Your Solution Provider

Solutions For All Your Fastening Needs:

As innovative designers and manufacturers of the world's most comprehensive array of plastic component solutions, we specialize in fasteners, circuit board hardware, wire routing products, cable ties, clips, clamps, fiber optics and telecommunication accessories. Richco is your one stop shop for virtually all your fastening needs, whether they call for standard or custom molded components. Beyond our standard product line, we especially pride ourselves in our ability to provide "Global presence with local support". With headquarters in Morton Grove, IL we have offices and personnel in 17 locations worldwide, and numerous partners all dedicated to answering the ever-changing demands of the electrical and electronic industries.

Custom Molding

With in-house design engineering and the utilization of state-of-the-art injection mold machine technology, Richco can custom mold a wide range of parts using various materials such as Polyamide, Polycarbonate, Polypropylene, Acetal, and Polyethylene. From product concept design, to 3D tool design and development (stand alone and insert), to production and secondary operations, we can provide the comprehensive solution to your project needs.

Standard Products

Richco's vast array of product offerings address specific application needs within electronics, computer, consumer goods, telecom/datacom, and contract manufacturing industries. In addition to our dedication to new product development, we are committed to providing unsurpassed engineering assistance and technical advice in selecting the right component, then delivering them when you need them.

Added Value

In our commitment to serving our customers in superior fashion, Richco continues to build on value-added services that fulfill the "one-stop shop" concept, reducing your installed cost and time and adding to your satisfaction. Such services include RIT dying of most standard products, lean manufacturing, Kanban, Kaizen cell manufacturing processes, application of double-face adhesive tape, sonic welding, non-standard packaging, customized cutting, notching, drilling, punching holes, anti-static coating, and printing part numbers.

Engineering Expertise

Creativity is central to the success of any product design. But the innovative spirit, skill and experience are essential to bring those ideas to fruition. These are the characteristics central to the success of Richco's team of engineers. With full engineering departments in North America, Europe and Asia, our engineers bring a working knowledge into whatever assignment our customers bring to us. They'll provide you with new product design assistance from concept to project completion, using the latest CAD/CAM technology to ensure both efficiency and product quality. Should the customer deem it necessary to validate a design concept, Solid Modeling, Finite Element Analysis, Rapid Prototyping and Material Research allow us the capabilities of producing prototype samples and testing them for a wide range of physical and mechanical properties to ensure they meet all critical performance criteria.

Service and Support

Benelux, Canada, China, Finland, France, Germany, Italy, Japan, Korea, Malaysia, Singapore, Spain, Sweden, United Kingdom, United States. To say we're practically everywhere is no exaggeration. We have knowledgeable sales and customer service personnel operating out of all these locations, offering assistance and designing new products for the future in the electronics, computer, consumer, telecom and datacom industries. Our web site enables you to search our standard product portfolio, locate a distributor and order samples/literature for evaluation, further illustrating the kind of service and support that simply cannot be surpassed. One call is all it takes. Our sales staff will work with you to identify your needs. At your request, we will ship samples within 24 hours for your quick evaluation and when you place your order in-stock parts can be right at your door, right when you need them.

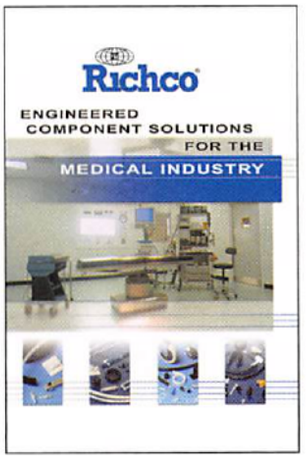

Envisioning the future

For over 50 years, Richco has been in the foreground of the plastics industry. What has seen us through all along and will into tomorrow are our customers. They are the ones who continue to challenge and inspire us, so that we may continue as a major force in providing them with world-class solutions. We look forward to providing the same for you.

Other Richco Literature

Apart from specializing in the fastening, wire routing and cable management product ranges shown within this catalogue, Richco also offers a catalogue covering other specialist products for electronic applications. For further details please contact your local Richco office.

Medical Brochure

When life depends on the performance of medical equipment and instruments, trust Richco's vast array of engineered component solutions to insure their optimal reliability and function. Whether its equipment for specialized/critical care, dental, or transporting patients and life saving equipment, Richco offers a complete line of plastic component products to meet any need.

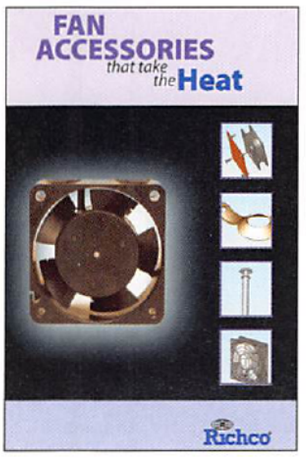

Security Brochure

Richco offers an extensive range of components to meet the needs of numerous application and market areas within the security industry including Home Security, Government/Institutions, CCTV and Accessories, Sensors and Detectors, Monitoring Equipment, Fire Protection/Life Safety, Networking/Communications, and Sound/Intercom Systems.

Other Richco Literature

Fan Brochure

As electronic products decrease in size, heat becomes a critical issue. Fans play an important role in cooling these products and insuring their smooth operation. With a wide variety of mounting, protection, vibration dampening, and filter products, Richco's fan accessories offer a simple solution to protect and maximize the performance of mounted fans.

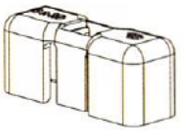

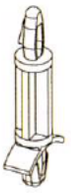

Capability Brochure

A brochure highlighting the global capabilities of Richco is available.

For more information or a copy of any of the Richco literature highlighted above, please contact your local Richco office.

RICHCO...YOUR COMPETITIVE SOURCE FOR QUALITY LIGHT, MEDIUM, AND HEAVY DUTY CASTERS

Institutional/Industrial Applications

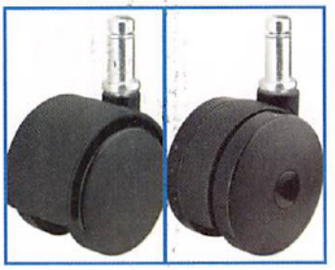

- Medical, Telecommunications, Industrial, and Games & Vending Machines

Consumer Products/Office/Furniture Applications

- TV/Electronics, Furniture, and Office

Caster Styles

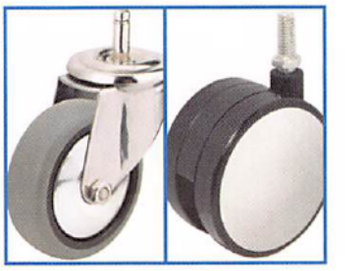

Hooded or Non-Hooded

With Brake or Without Brake

Single Wheel or Double Wheel

The options are endless; our casters can be customized to meet your specific requirements!

Features and Specifications

Load Capacities

- Up to 250kg (551lbs) per caster

Wheel Dimensions

- From 30mm (1.18") to 200mm (7.87")

Wheel Materials

- Options include PU, rubber, PP, PA Nylon, and TPR with thread guard
- Cores available in high impact Nylon or other plastic material
- Non-marking designs available for excellent floor protection
- Noise reduction features
- Chemical resistant materials
- Non-conductive materials

Mounting Options

- Plates
- U-channels
- Threaded stems
- Ribbed stems
- Friction mounts
- Bolts

Caster Styles

- Fixed or double bearing swivel heads
- Single or double wheel
- Hooded or non-hooded
- With or without brakes – heavy duty models available with two directional locking system

Housings

- Pressed steel
- Stainless steel
- Zinc plated
- Plastic

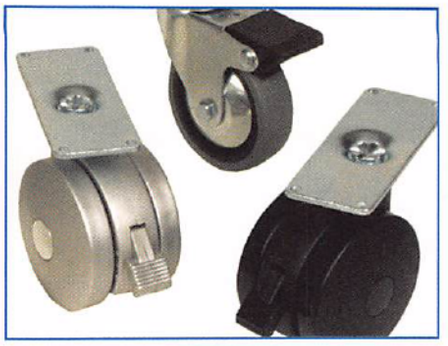

Plating

- Chrome
- Zinc
- Brass

...A World of Solutions for Your Caster and Custom Fastening Needs

Casters

If your application requires a custom designed caster solution, Richco has the expertise and capabilities to solve your company's unique needs. With full engineering departments in North America, Europe and Asia, our engineers bring a working knowledge into every project our customers bring, providing design assistance from concept through to project completion. The quality, function, endurance and high performance of our casters are important in every application. Plastic and metal glides are also available, and can be customized to meet your needs.

Custom Molding

With in-house design engineering and the utilization of state-of-the-art injection molding machine technology, Richco can custom mold a wide range of parts (including caster socket receptacles) using a variety of materials such as Polyamide, Polycarbonate, Polypropylene, Acetal, and Polyethylene. From product concept design, to 3D tool design and development (stand alone and insert), to production and secondary operations, Richco provides a comprehensive solution to your project needs.

Richco...A World of Engineered Solutions

Now with an array of casters for every application!
